

history of the world nick kroll

History of the World Nick Kroll: A Comedic Journey Through Time

history of the world nick kroll is a phrase that might initially evoke curiosity about a comedic take on global events, and that's exactly what Nick Kroll offers through his unique blend of humor and storytelling. Known for his sharp wit and distinctive comedic voice, Kroll has contributed to various projects that playfully explore history and cultural moments, making the past both accessible and entertaining for modern audiences.

Nick Kroll, a multi-talented comedian, actor, and writer, has carved out a niche where history meets humor in clever, unexpected ways. His work often blends satire, character-driven sketches, and sharp observations, which resonate with fans eager to learn while being thoroughly entertained. Let's dive into the fascinating aspects of Nick Kroll's approach to history and how he uses comedy to illuminate the world's past.

Nick Kroll's Comedic Style and Its Relation to History

Nick Kroll's style is characterized by a mix of absurdity, clever character work, and cultural commentary, all of which lend themselves well to historical exploration. He often parodies historical figures or events, exaggerating their quirks and foibles to highlight the human side of history that textbooks sometimes miss.

Character-Driven Historical Comedy

One of Kroll's strengths is his ability to create memorable characters that bring historical moments to life. Whether through sketch comedy or animated series, these characters often embody exaggerated traits of famous historical personalities or archetypes, turning complex historical narratives into digestible, humorous stories.

For example, in his various comedy projects, Kroll has taken on roles that mimic or satirize well-known figures, making history feel relatable and funny rather than dry or intimidating. This approach helps demystify the past, inviting audiences to engage with history through laughter.

Satire as a Tool for Historical Insight

Satire is a powerful vehicle for social and historical critique, and Nick Kroll uses it to great effect. By poking fun at historical events or societal norms of the past, he encourages viewers to reflect on how those moments shaped the present.

This technique also allows Kroll to comment on contemporary issues by drawing parallels with historical events, making his content relevant and thought-provoking. Through humor, he invites audiences to question accepted narratives and consider alternative perspectives on history.

Notable Works Featuring Historical Themes

While Nick Kroll's career spans a variety of comedic formats, several projects stand out for their incorporation of historical elements, blending entertainment with educational value.

The Oh, Hello Show: A Nostalgic Nod to the Past

Although not strictly historical, "Oh, Hello," a stage and Netflix special featuring Kroll and John Mulaney, includes plenty of references to cultural history and social phenomena from previous decades. The characters they portray often reflect on the past with a humorous lens, touching on themes of nostalgia and societal change.

This show exemplifies how Kroll's work frequently weaves history into comedy, providing context and commentary on how cultural shifts influence humor and identity.

Big Mouth and Historical Parallels

Kroll is a co-creator and voice actor on the animated series "Big Mouth," which, while primarily focused on adolescence, incorporates historical and cultural references throughout its storytelling. The show occasionally uses flashbacks or historical analogies to explore themes of human development and societal norms.

By embedding these historical nods in a modern setting, Kroll helps viewers connect the dots between past and present, highlighting the timeless nature of certain experiences.

History of the World Nick Kroll: The Intersection of Comedy and Education

More than just a source of laughs, Nick Kroll's comedic treatment of history offers educational insights that make learning enjoyable. His approach encourages audiences—especially younger viewers—to engage with history in a way that feels relevant and accessible.

Making History Approachable

One of the challenges in teaching or discussing history is overcoming the perception that it's dull or inaccessible. Kroll's humor breaks down these barriers by presenting history in bite-sized, entertaining formats. Through parody, character sketches, and witty dialogue, he transforms historical narratives into compelling stories that stick.

Encouraging Critical Thinking Through Humor

Humor invites audiences to question and analyze, rather than passively consume information. Nick Kroll's comedic takes on history often highlight contradictions, ironies, or overlooked perspectives, encouraging viewers to think critically about the past.

This method of blending comedy with education not only entertains but also promotes a deeper understanding of history's complexities.

Why the History of the World Nick Kroll Resonates With Audiences

The appeal of Kroll's comedic exploration lies in its blend of clever writing, relatable characters, and insightful commentary. Audiences appreciate how he balances humor with substance, offering both laughs and learning.

- **Relatability:** By humanizing historical figures and events, Kroll makes the past feel relevant to modern life.
- **Accessibility:** His comedy breaks down complex historical ideas into simple, funny concepts.
- **Engagement:** The use of satire and parody keeps audiences entertained while subtly educating them.

In a world where history can sometimes feel distant or irrelevant, Nick Kroll's comedic lens brings it vividly into focus, reminding us that the stories of the past are full of humor, humanity, and lessons still worth exploring today.

Whether through his animated shows, stage performances, or sketch comedy, Nick Kroll continues to find innovative ways to connect history with contemporary audiences, proving that learning about the world's past doesn't have to be boring—it can be downright hilarious.

Frequently Asked Questions

What is 'History of the World, Part II' by Nick Kroll?

'History of the World, Part II' is a comedic television series created by and starring Nick Kroll that serves as a sequel to Mel Brooks' 1981 film 'History of the World, Part I,' offering a satirical take on various historical events.

When did 'History of the World, Part II' premiere?

The series premiered on Hulu on March 6, 2023.

What role does Nick Kroll play in 'History of the World, Part II'?

Nick Kroll plays multiple roles throughout the series, showcasing his versatility as a comedian and actor while narrating and performing in various historical sketches.

How does 'History of the World, Part II' differ from the original Mel Brooks film?

'History of the World, Part II' is a television series that expands on the original film's concept by exploring a wider range of historical periods with modern comedic sensibilities, whereas the original was a single feature-length movie.

Who are some notable cast members alongside Nick Kroll in the series?

The series features a talented ensemble cast including John Mulaney, Jessi Klein, and Fred Armisen, among others.

What themes are explored in 'History of the World, Part II'?

The show satirizes historical events, human nature, and contemporary social issues through humor and parody, often highlighting the absurdity of history and culture.

Is 'History of the World, Part II' based on true historical events?

While it draws inspiration from real historical events, the series primarily uses fictionalized and exaggerated portrayals for comedic effect rather than strict historical accuracy.

History of the World Nick Kroll: A Deep Dive into the Comedic Series and Its Cultural Impact

history of the world nick kroll serves as a fascinating entry point into understanding the unique blend of comedy, animation, and historical parody that characterizes this innovative television series. Created by Nick Kroll, John Mulaney, and Andrew Goldberg, the show offers a satirical take on pivotal moments throughout history, brought to life through sharp wit, irreverent humor, and a distinctive animation style. Examining the history of the world Nick Kroll has crafted reveals not only the creative process behind the series but also its broader significance in contemporary comedy and pop culture.

Origins and Development of "History of the World, Part II"

The history of the world Nick Kroll presents is most notably encapsulated in the Netflix series "History of the World, Part II," a spiritual successor to Mel Brooks' iconic 1981 film "History of the World, Part I." This connection to Brooks' original work sets an important context for understanding the show's comedic lineage and its approach to historical satire.

Nick Kroll, already a prominent figure in the comedy world with credits including "Kroll Show" and "Big Mouth," co-created the series with John Mulaney, whose background in stand-up and sketch comedy complements Kroll's style. Together, they aimed to revive and modernize the concept of satirical historical sketches, blending absurdity with insightful commentary on human nature and societal evolution.

Conceptual Framework and Creative Process

The show's format consists of loosely connected episodes that explore different eras—from prehistoric times to futuristic speculations—each segment packed with exaggerated characters and comedic twists. The creators utilized a combination of sharp scripting and vibrant animation to amplify the humor, ensuring that each historical vignette stands on its own while contributing to a cohesive thematic arc.

Nick Kroll's role extended beyond writing and producing; his voice acting brought to life a variety of characters, showcasing his versatile comedic range. The collaborative writing process, involving several comedians and writers, allowed for a diverse array of comedic styles, contributing to the show's dynamic and often unpredictable tone.

Analyzing the Humor and Historical Satire

One of the defining characteristics of the history of the world Nick Kroll presents is its unapologetic use of satire to dissect human folly across ages. The humor is frequently irreverent, relying on exaggeration and anachronism to highlight the absurdities of historical narratives and contemporary issues alike.

Balancing Educational Content and Comedy

While "History of the World, Part II" is not designed as an educational documentary, it cleverly integrates historical facts and themes to anchor its jokes. This balance allows the show to engage viewers who have an interest in history while entertaining a broader audience that appreciates sharp satire. The creators' nuanced approach avoids overt didacticism, instead inviting the audience to reflect on historical patterns through laughter.

Use of Diverse Comedic Devices

The series employs a variety of comedic devices, including parody, slapstick, and meta-humor. For example:

- **Parody:** The show often parodies famous historical figures and events, distorting them to reveal underlying absurdities.
- **Slapstick:** Physical comedy plays a role, especially in animated sequences that exaggerate actions beyond realistic limits.
- **Meta-Humor:** Self-referential jokes about the nature of history and storytelling itself add an intellectual layer to the comedy.

These varied techniques ensure that the series appeals to different comedic tastes and maintains a fast-paced, engaging rhythm.

Nick Kroll's Comedic Evolution and Its Influence on the Series

Understanding the history of the world Nick Kroll brings to this series requires a look at his broader career trajectory. Kroll's evolution as a comedian—from stand-up performances to sketch comedy and voice acting—has equipped him with a multifaceted comedic toolkit that informs the series' style.

From Sketch Comedy to Animated Satire

Nick Kroll's earlier work on "Kroll Show" demonstrated his talent for creating diverse, absurd characters and exploring social commentary through humor. This foundation laid the groundwork for "History of the World, Part II," where his ability to embody multiple personas enhances the storytelling.

Moreover, Kroll's involvement in "Big Mouth," another animated comedy series, provided valuable experience in using animation to explore complex themes with humor and sensitivity. This background is evident in the sophisticated yet accessible comedic approach found in his historical satire.

Collaborative Synergy with John Mulaney and Others

The partnership between Nick Kroll and John Mulaney is a significant factor in the series' success. Mulaney's distinct comedic voice complements Kroll's, creating a synergy that elevates the material. Their combined expertise in timing, character development, and narrative structure results in a series that is both intellectually stimulating and broadly entertaining.

Reception and Cultural Impact

The history of the world Nick Kroll has presented through this series has garnered a diverse range of responses, reflecting its complex blend of humor and historical critique.

Critical and Audience Reception

Critics have generally praised the series for its boldness and inventiveness, highlighting its ability to tackle historical subjects with both irreverence and insight. The animation style, voice performances, and sharp writing have been noted as standout elements.

Audience reception, while largely positive, includes some reservations due to the show's edgy and sometimes controversial humor. The series does not shy away from sensitive topics, which has sparked discussions about the boundaries of satire in modern entertainment.

Contribution to Historical Satire in Media

"History of the World, Part II" contributes to a growing trend of using comedy to revisit and reinterpret history. By integrating contemporary perspectives and diverse voices, the show adds depth to the genre of historical satire. It challenges viewers to reconsider accepted narratives and encourages critical thinking about how history is portrayed in popular culture.

Comparative Analysis with Other Historical Comedies

When placed alongside other historical comedies, such as Mel Brooks' original film or series like "Drunk History," the history of the world Nick Kroll has crafted stands out for its combination of animation and topical humor.

- **Mel Brooks' History of the World, Part I:** A live-action film with broad slapstick and parody, serving as the inspiration for Kroll's series, but with a more straightforward comedic style.
- **Drunk History:** Relies on narration by inebriated storytellers, focusing on retelling true stories with humor, whereas Kroll's show employs fictionalized, exaggerated vignettes.
- **Big Mouth:** Although not a historical comedy, shares the animated format and adult humor, highlighting Kroll's strength in combining animation with mature comedic themes.

This comparative perspective underscores how Nick Kroll's approach innovates within the genre, blending traditional satire with modern sensibilities.

The history of the world Nick Kroll offers through his comedic lens is a testament to the enduring power of humor as a tool for cultural reflection. By reimagining historical narratives with irreverence and intelligence, the series invites audiences to engage with the past in a way that is both entertaining and thought-provoking. As the landscape of comedic media continues to evolve, Nick Kroll's work stands as a notable example of how history and humor can intersect to create compelling storytelling.

history of the world nick kroll: The Anachronistic Turn Stephanie Russo, 2023-12-01 The *Anachronistic Turn: Historical Fiction, Drama, Film and Television* is the first study to investigate the ways in which the creative use of anachronism in historical fictions can allow us to rethink the relationship between past and present. Through an examination of literary, cinematic, and popular texts and practices, this book investigates how twenty-first-century historical fictions use creative anachronisms as a way of understanding modern issues and anxieties. Drawing together a wide range of texts across all forms of historical fiction – novels, dramas, musicals, films and television – this book re-frames anachronism not as an error but as a deliberate strategy that emphasises the fictionalising tendencies of all forms of historical writing. The book achieves this by exploring three core themes: the developing trends in the twenty-first century for creators of historical fiction to include deliberate anachronisms, such as contemporary references, music and language; the ways in which the deliberate use of anachronism in historical fiction can allow us to rethink the relationship between past and present; and the way that contemporary historical fiction uses anachronism to better understand modern issues and anxieties. This book will appeal to students and scholars of historical fiction, contemporary historical film and television studies, and historical theatre studies.

history of the world nick kroll: Urban Origins of American Judaism Deborah Dash Moore, 2014-10-15 The urban origins of American Judaism began with daily experiences of Jews, their responses to opportunities for social and physical mobility as well as constraints of discrimination and prejudice. Deborah Dash Moore explores Jewish participation in American cities and considers the implications of urban living for American Jews across three centuries. Looking at synagogues, streets, and snapshots, she contends that key features of American Judaism can be understood as an imaginative product grounded in urban potentials. Jews signaled their collective urban presence through synagogue construction, which represented Judaism on the civic stage. Synagogues housed Judaism in action, its rituals, liturgies, and community, while simultaneously demonstrating how Jews Judaized other aspects of their collective life, including study, education, recreation, sociability, and politics. Synagogues expressed aesthetic aspirations and translated Jewish spiritual desires into brick and mortar. Their changing architecture reflects shifting values among American Jews. Concentrations of Jews in cities also allowed for development of public religious practices that ranged from weekly shopping for the Sabbath to exuberant dancing in the streets with Torah scrolls on the holiday of Simhat Torah. Jewish engagement with city streets also reflected Jewish responses to Catholic religious practices that temporarily transformed streets into sacred spaces. This activity amplified an urban Jewish presence and provided vital contexts for synagogue life, as seen in the captivating photographs Moore analyzes.

history of the world nick kroll: Animated Mischief Brian N. Duchaney, David S. Silverman, 2023-09-28 Over the last century, the medium of animation has served as an expression of childhood as well as a method of subverting the expectations of what society has promised for the future. Separated into three parts, this work assembles various explorations of taste, culture and passion through animation. Section I features essays that outline the historical changes in art and society that gave rise to an outsider culture that found a home in animation. In the second section, essays examine the practical use of animation as a voice for the underserved. Finally, in Section III, essays analyze the ways in which animation has reshaped the acceptance of outsider status to embrace otherness. Featuring everything from feature-length films to self-produced YouTube videos, the essays in this text reflect a shared love of animation and its unique ability to comment on society and culture.

history of the world nick kroll: O BRAVE 'NEW NORMAL' WORLD: Living with Coronavirus Steve Gleadhill, 2025-01-09 He's back stronger than ever! But have we conveniently forgotten the furor around the presidential election results and the Capitol riots? Refresh your memory in this book. He may have been resurrected, but many other leaders fell by the wayside during the cataclysmic post-pandemic aftermath. In Britain leadership became a merry-go-round of comings and goings. Elsewhere, Australia, New Zealand, Brazil and Germany all changed leaders for one reason or another. But Putin, Lukashenko and Xi are still with us - for better or for worse. We should learn from our past, but it seems we don't. Trump aside, the Middle East conflict has flared up worse than before, and many of the other global conflicts and tensions that are highlighted in this volume are still with us unresolved. All the posturing and platitudes that emanated from the anger surrounding George Floyd's murder proved as useful to addressing the real issues as someone offering 'an unreserved apology.' Meanwhile, the rich get richer and the poor poorer.

history of the world nick kroll: Comedy Book Jesse David Fox, 2023-11-07 One of NPR's Best Books of 2023. A New York Times Book Review Editors' Choice. Named a Most Anticipated Book by Vulture, Elle, Chicago Tribune, The Millions, and Lit Hub. "Comedy Book changes the way we talk about an art form that is more diverse and exciting than ever before." —Seth Meyers "Energetic and wise . . . Comedy Book is not the definitive history of the past three-plus decades. It's Fox's history, and better for it." —The New York Times Book Review From a beloved comedy critic, a wisecracking, heartfelt, and overdue chronicle of comedy's boom—and its magic. In Comedy Book, Jesse David Fox—the country's most definitive voice in comedy criticism and someone who, in his own words, enjoys comedy "maybe more than anyone on this planet"—tackles everything you need to know about comedy, an art form that has been under-considered throughout its history, even as it has ascended as a cultural force. Weaving together history and analysis, Fox unravels the genre's political legacy through an ode to Jon Stewart, interrogates the divide between highbrow and lowbrow via Adam Sandler, and unpacks how marginalized comics create spaces for their communities. Along the way, Fox covers topics ranging from comedy in the age of political correctness and Will Smith's slap, to the right wing's relationship with comedy, to comedy's ability to heal in the wake of tragedy. With memorable cameos from Jerry Seinfeld, Dave Chappelle, John Mulaney, Ali Wong, Kate Berlant, and countless others, Comedy Book is an eye-opening education in how to engage with our most omnipresent art form, a riotous history of American pop culture, and a love letter to laughter.

history of the world nick kroll: Sketch Comedy Nick Marx, 2019-11-01 A history of sketch comedy on American television and analysis of what it says about American culture and society. In Sketch Comedy: Identity, Reflexivity, and American Television, Nick Marx examines some of the genre's most memorable?and controversial?moments from the early days of television to the contemporary line-up. Through explorations of sketches from well-known shows such as Saturday Night Live, The State, Inside Amy Schumer, Key & Peele, and more, Marx argues that the genre has served as a battleground for the struggle between comedians who are pushing the limits of what is possible on television and network executives who are more mindful of the financial bottom line. Whether creating new catchphrases or transgressing cultural taboos, sketch comedies give voice to

marginalized performers and audiences, providing comedians and viewers opportunities to test their own ideas about their place in society, while simultaneously echoing mainstream cultural trends. The result, Marx suggests, is a hilarious and flexible form of identity play unlike anything else in American popular culture and media. "An excellent study of a long-neglected area in television/media studies and is part of a larger turn toward the centrality of comedy in post-war U.S. culture." —Jeffrey Sconce, Northwestern University "A stalwart of television . . . sketch comedy finally gets the in-depth critical attention it deserves . . . Marx shows how sketch comedy has fit (and been constrained by) TV's industrial contexts, from live variety shows in its earliest days to movement across media in the era of multiple platforms. These case studies not only chart sketch comedy's past, they provide the theoretical and analytical tools to consider its future." —Ethan Thompson, Texas A&M University Corpus Christi

history of the world nick kroll: *Encyclopedia of Television Shows, 1925 through 2010, 2d ed.* Vincent Terrace, 2014-01-10 This fully updated and expanded edition covers over 10,200 programs, making it the most comprehensive documentation of television programs ever published. In addition to covering the standard network and cable entertainment genres, the book also covers programs generally not covered elsewhere in print (or even online), including Internet series, aired and unaired pilot films, erotic series, gay and lesbian series, risqué cartoons and experimental programs from 1925 through 1945.

history of the world nick kroll: *Children born of war in the twentieth century* Sabine Lee, 2017-08-18 This book explores the life courses of children born of war in different twentieth-century conflicts, including the Second World War, the Vietnam War, the Bosnian War, the Rwandan Genocide and the LRA conflict. It investigates both governmental and military policies vis-à-vis children born of war and their mothers, as well as family and local community attitudes, building a complex picture of the multi-layered challenges faced by many children born of war within their post-conflict receptor communities. Based on extensive archival research, the book also uses oral history and participatory research methods which allow the author to add the voices of the children born of war to historical analysis.

history of the world nick kroll: *SPIN*, 2005-11 From the concert stage to the dressing room, from the recording studio to the digital realm, SPIN surveys the modern musical landscape and the culture around it with authoritative reporting, provocative interviews, and a discerning critical ear. With dynamic photography, bold graphic design, and informed irreverence, the pages of SPIN pulsate with the energy of today's most innovative sounds. Whether covering what's new or what's next, SPIN is your monthly VIP pass to all that rocks.

history of the world nick kroll: *Longing, Belonging, and the Making of Jewish Consumer Culture* Gideon Reuveni, Nils Roemer, 2010-07-12 Jewish history has been extensively studied from social, political, religious, and intellectual perspectives, but the history of Jewish consumption and leisure has largely been ignored. The hitherto neglect of scholarship on Jewish consumer culture arises from the tendency within Jewish studies to chronicle the production of high culture and entrepreneurship. Yet consumerism played a central role in Jewish life. This volume is the first of its kind to deal with the topic of Jewish consumer culture. It gives new insights on Jewish belongings and longings and provides multiple readings of Jewish consumer culture as a vehicle of integration and identity in modern times. Overall Reuveni and Roemer offer a rich volume that will provoke thought and discussion in a variety of venues. It is an important work and I look forward to reading more from the contributing authors. Jeffrey Podoshen, Franklin & Marshall College

history of the world nick kroll: *Singular Thought and Mental Files* Rachel Goodman, James Genone, Nick Kroll, 2020-02-06 The notion of singular (or de re) thought has become central in philosophy of mind and language, yet there is still little consensus concerning the best way to think about the nature of singular thought. Coinciding with recognition of the need for more clarity about the notion, there has been a surge of interest in the concept of a mental file as a way to understand what is distinctive about singular thought. What isn't always clear, however, is what mental files are meant to be, and why we should believe that thoughts that employ them are singular

as opposed to descriptive. This volume brings together original chapters by leading scholars which aim to examine and evaluate the viability of the mental files framework for theorizing about singular thought. The first section of the volume addresses the central issues of the definition and nature of singular thought, as well as how it relates to the notion of a mental file. The second section addresses the legitimacy of the mental files conception of singular thought by assessing the philosophical motivations or the purported empirical support for the view, or by laying out a specific version of it. The third section helps to clarify both the notion of a mental file and the mental files conception of singular thought by focusing on their role in explaining de jure coreference in thought and language. The volume then concludes with a final section that casts doubt on the mental files conception and the legitimacy of the file-theoretic framework more generally.

history of the world nick kroll: The Empathetic Emotions in the History of Philosophy , 2025-05-11 Empathy is widely discussed, both in philosophy and more generally. One might ask what empathy itself is and how it relates to specific emotions, such as sympathy. This volume is concerned with theories of emotions that can be described as empathetic, either because they presuppose the human capacity for empathy or because they are essential to how empathy operates. By exploring how Western philosophers-from Ancient Greece up to the twentieth century-have understood these emotions, it becomes possible not only to gain a deeper understanding of certain empathetic emotions and their relation to the concept of empathy, but to also see how these emotions are placed within a broader moral, social, or religious context. Taking into account this context is essential when it comes to engaging with a number of compelling questions. Does sympathy provide an adequate basis for a theory of human sociability and fellowship? What roles do compassion and pity play in our moral lives, and in the formation of the practical identities of human beings? Can the altruistic character and concern for others that is traditionally ascribed to certain emotions be reconciled with competing values like self-love and the self-directedness of its concerns? *Empathetic Emotions in the History of Philosophy* provides answers to these important questions.

history of the world nick kroll: Language Contact. Volume 1 Jeroen Darquennes, Joseph C. Salmons, Wim Vandebussche, 2019-08-19 *Language Contact. An International Handbook* offers a comprehensive overview of current topics in research on language contact. Broadly conceived, it stands out for its international approach to language contact, complementing the theoretical state-of-the-art with examples from traditionally eclipsed areas and languages. Next to a thorough introductory overview of the ground-breaking methodological and theoretical approaches that shaped the discipline, ample attention goes to the new and innovative insights on language contact in the 21st century. Combining concise introductory contributions with in-depth treatment of the most relevant case studies in the field, the handbook speaks to both junior and established scholars.

history of the world nick kroll: Genetic History of Human Populations Along the Ancient Silk Road Shaoqing Wen, Horolma Pamjav, Maxat Zhabagin, 2024-04-05 The Silk Road, a historical network of interlinking trade routes across the Afro-Eurasian landmass, was of great importance to the transport of peoples, goods, and ideas between the East and the West. Although its main use was for importing silk from China, traders moving in the opposite direction carried to Central China jewellery, glassware, and other exotic goods from the Mediterranean, jade from Khotan, and horses and furs from the nomads of the Steppe. The Silk Road brought together the achievements of the different peoples of Eurasia to advance the Old World as a whole.

history of the world nick kroll: Die Aussenpolitik des Dritten Reiches 1933-1939 Rainer F. Schmidt, 2002

history of the world nick kroll: Desire and Consent in Representations of Adolescent Sexuality with Adults Maureen Turim, Diane Waldman, 2023-10-02 This book presents an innovative comparative view of how the issue of adolescent sexuality and consent is differently treated in various media. Analyzing teenage sexual encounters with adults across a variety of media, including

films, television, novels, and podcasts, the volume takes a positive stance on the expression of teenage sexuality, while remaining sensitive to the power of adults to abuse and manipulate. The anthology treats these representations as negotiations between conflicting forces: desire, sexual self-knowledge, unequal power, and the law, the latter both actual legal statutes and internalized law in the philosophical and psychoanalytic sense. Questions of unequal power inherent in such relations are theorized. The authors examine variations of this configuration of sexual relations between teenagers and adults from different perspectives, to consider how various forms of expression rework it formally. These essays are attuned to both nuances of presentation and contexts of reception, and they consider how aesthetics play a role. Contributing to the general debate about the ways that societies construct and regulate adolescent sexuality, this book will be of great interest to scholars and students of media studies, cultural studies, film studies, television studies, sociology, and gender studies

history of the world nick kroll: The Struggle for the Long-Term in Transnational Science and Politics Jenny Andersson, Eglė Rindzevičiūtė, 2015-04-10 This book reconsiders the power of the idea of the future. Bringing together perspectives from cultural history, environmental history, political history and the history of science, it investigates how the future became a specific field of action in liberal democratic, state socialist and post-colonial regimes after the Second World War. It highlights the emergence of new forms of predictive scientific expertise in this period, and shows how such forms of expertise interacted with political systems of the Cold War world order, as the future became the prism for dealing with post-industrialisation, technoscientific progress, changing social values, Cold War tensions and an emerging Third World. A forgotten problem of cultural history, the future re-emerges in this volume as a fundamentally contested field in which forms of control and central forms of resistance met, as different actors set out to colonise and control and others to liberate. The individual studies of this book show how the West European, African, Romanian and Czechoslovak long term was constructed through forms of expertise, computer simulations and models, and they reveal how such constructions both opened up new realities but also imposed limits on possible futures.
