**to kill a mockingbird online read: REAL - Yearbook of Research in English and American Literature** Herbert Grabes, 2015-12-09 REAL invites contributions on the relationship between literature and cultural change. The study of culture has to face the difficulty of not being able to observe its object directly. Its only access is via cultural phenomena as observable products of human activity: artefacts, texts, rites, symbols, forms of conduct. If scholars wish to study cultural change, they need to do so by investigating the changing relationships among these phenomena, the changing connections between social structures, mentalities and the material dimension of texts, artefacts and other objects. While some scholars have rejected the concept of culture because of this indirectness, others – from Malinowski to Luhmann – have attempted to make it theoretically more precise and historically more saturated. Societies change as well as cultures, but they are not the same and they evolve at different speeds.

**to kill a mockingbird online read:** *Talking through Reading and Writing* Daniel Rose, Christine Walsh, 2020-11-11 In this book you will read many examples of rich literacy conversations between a teacher and his 8th grade students that never would have occurred face to face in the classroom. These conversations take place online when 8th graders write to their teacher about the books they're interested in reading and choosing to read independently. Students write about what happens when they read or don't read, how they feel about reading, how they're connecting with characters and ideas, why they don't have enough time to read, and what their reading goals are. And their teacher writes back to them. Every week. After each conversation you will read some "meta-talk" that shines a light on what the conversation has taught us about this language learner and how this "data" is informing our beliefs and practices. Embedded within the chapters are suggested resources (articles, book recommendations, links, websites, blogs, etc.) you can follow should you want to read more in that chapter. What these students reveal about their own literacy development- their successes, their challenges, their lives- and how their teacher nudges them along socially, emotionally and academically, teach us the value and power of one practical, authentic literacy tool- the Reading Conversation Journal.

**to kill a mockingbird online read: Reading Postcolonial Literature** Hayley G. Toth, 2025-03-10 An Open Access edition is available thanks to the kind sponsorship of the libraries participating in the Jisc Open Access Community Framework OpenUP initiative. Debates about reading in postcolonial studies rarely discuss non-professional readers, except to secure the authority of professional reading practices. In *Reading Postcolonial Literature*, Hayley G. Toth places non-professional reading practices in dialogue with received academic wisdom to debunk common-sense assumptions about non-professional readers as 'Western' or 'neocolonial' consumers. Drawing on reading practices recorded in academic books, journal articles and on online book-reviewing platforms like Amazon and Goodreads, Toth draws attention to important continuities between professional and non-professional practices of reading postcolonial literature. At the same time, she highlights that non-professionals often have little desire to emulate the practices of professional postcolonial critics. Precisely by not adopting the established protocols and methods of postcolonial studies, non-professional readers call attention to the limits of dominant approaches to reading in the discipline. Across four chapters, Toth examines the relationship between reading and identity during the Rushdie affair, the difference between reading and address, the challenges posed by difficult texts and the legitimacy of non-understanding, and the reception of popular texts primarily read by non-professional audiences. *Reading Postcolonial Literature* demonstrates that reception matters in any claims we make about the value of reading postcolonial literature, and offers new ways forward for the practice, study and teaching of reading in the discipline.

be any greater than Pip's? And why is it so important to make space for these conversations in the first place? In a career spanning almost three decades, English teacher Carol Atherton has taught generations of students texts that will be familiar to many of us from our own schooldays. But while the staples of exam syllabuses and reading lists remain largely unchanged, their significance – and their relevance – evolves with each class, as it encounters them for the first time.
