Hunt Jr., 2023-07-25 Any veteran who served on active duty during the Korean and Vietnam Wars quickly learned that the U.S. military had its own unique language. An invaluable source was provided by access to Pacific Stars & Stripes newspaper from the era. Lapp, 2023-11-14 As a spy prepared to give away America's biggest secrets after the 9/11 attacks, an FBI agent raced to catch her. U.S. government officials knew they had a spy. But it never occurred to them it was a woman—and certainly not a superstar Defense Intelligence Agency employee known as “the Queen of Cuba.” Ana Montes had spent seventeen years spying for the Cubans. She had been raised in a patriotic Puerto Rican household: Her father, a psychiatrist, was a former colonel in the U.S. Army. Her sister worked as a translator for the FBI and helped break up a ring of Cuban spies in Miami. Her brother was also a loyal FBI agent. Montes impressed her bosses, but in secret, spent her breaks memorizing top secret documents before sending them to the Cuban government. She received no payment, even as one of her missives could have brought her the death penalty. She also listened to anxiety-relief tapes, took medication, and saw a psychiatrist. She dreamed of a normal life where she could work a job she enjoyed. She dreamed of getting married, and even had a man in mind: a defense analyst on the Cuba account for Southern Command. He had no idea that, three times a week, Montes pulled a short-wave radio from her closet and received encrypted messages from Cuba. After the 9/11 attacks, Cuba wanted Montes to continue her work. They couldn't know the FBI was already on to her. Retired FBI agent Peter J. Lapp explains the clues—including never-released information—that led their team to catch one of the United States' most dangerous spies.

army basic training dates 2023 fort benning: Rise to Command Isaac W. Hampton II, 2025-07-15 *Rise to Command* is a social history told in the words of twenty Black military officers who grew up in the Jim Crow era and served in the US military. The officers speak candidly about their careers and struggles and the important lessons they learned from their communities, which helped them succeed. Black Americans in the armed forces fought on two fronts: one against America's external adversaries on the battlefield, and the other against racial discrimination and segregation within military culture and American society. The officers discuss living through segregation, the civil rights movement, and the Black Power movement. These torchbearers speak frankly about the racially biased officer evaluation system, gender discrimination, and how they survived and thrived despite systemic obstacles. *Rise to Command* examines the evolution of policies and cultural dynamics within the US military, with a critical focus on the complexities of racial integration and equity. It not only traces the history of change but also underscores the persistent challenges that continue to shape the experiences of service members. Through the memories of Black officers, *Rise to Command* provides a vital perspective on the struggle for inclusivity and justice within one of America's most enduring institutions. The many perspectives from across the wars of the twentieth century highlight the progress these soldiers fought for—from total segregation during World War II to the deployment of America's first racially integrated military force during the Vietnam War. Although these officers may not have known it, they were blazing the trail for the next generation of Black Americans, in and out of military service.

army basic training dates 2023 fort benning: More Gentle Heroes Gary B. Blackburn, 2023-04-26 April 11, The reservoir had growth of tall grass and reeds around the edge and masses of Vietnamese lotus floating on top of the water. A thin layer of fog was suspended over the watery milieu. Emilio could hear frogs croaking as he approached the pond. Handing his M60 to Abbate, the young Marine removed his Ka-Bar knife from its sheath and with knife in hand, slipped into the murky water. He was sure he had seen something stirring among the growth at the water's edge. Moving quietly, De La Garza eased his way around the side of the pond. Feeling his combat boots squish in the soft sticky mud on the bottom of the pool, he barely rippled the water as he moved. Then, without warning the Marine lunged into the reeds, disarming a young Vietnamese man dressed in black and taking him prisoner. As the VC was being brought to shore, he began to struggle and resist. Abbate and Peterson put down their weapons and waded in to assist hauling the enemy soldier out of the water. Nearing the shore, the man pulled out a hidden grenade and removed the firing pin. Only De La Garza saw him. Yelling Grenade! he threw himself on top of the enemy soldier and grabbed hold of the arm with the grenade, forcing both the man and the grenade back under the deeper water. There was a horrendous blast, knocking down Abbate and Peterson, and filling the pond with a turbulent mixture of mud, blood, and gore. Birds in the surrounding trees screamed in protest, and members of the rifle squad came running in response. Jimmy Huff and the squad doc, Navy corpsman HM3 Sam Lyles were the first to reach the scene.

army basic training dates 2023 fort benning: Standing Tall Robert F. Foley, 2022-09-29 The Medal of Honor recipient chronicles his life and military career in this memoir while also sharing his thoughts on leadership. Robert Foley had only been in Vietnam for six months when he was promoted to captain and given command of a rifle company. In November 1966, Foley led his men on a mission to rescue another company that had been pinned down by Viet Cong forces. His

leadership that day inspired his men and led to a successful operation—and the Medal of Honor. His actions in Vietnam were only a small portion of a long and varied career of service in the U.S. Army, but Foley did not always seem marked for success. Coming from a blue-collar suburb of Boston, his years in West Point were marked by poor grades, injuries, and sickness. With a determination to lead by example and inspire trust among others, Foley served across the globe and rose through the ranks. He even returned to West Point as Commandant of Cadets, later retiring as a 3-star general and commander of Fifth Army. Praise for Standing Tall Finalist, 2022 Army Historical Foundation Distinguished Writing Awards “What an amazing opportunity! Standing Tall allows us to learn about leadership from a true American hero.” —Mike Krzyzewski, former Head Coach, Duke University and USA Olympic Gold Medal basketball teams

army basic training dates 2023 fort benning: The 19 of Greene Tony Barnhart, 2023-10-15 The 19 of Greene narrates Tony Barnhart’s experience with integration in small-town Georgia as a member of Greene County’s first integrated football team. The longtime sportswriter, also known as Mr. College Football, details the Tigers’ surprisingly successful season, the enduring relationships he formed with his teammates, and the difficulties of school sports integration. As he witnessed the positive role that football played in the process of racial integration at Greene, his foundational experiences continue to help Barnhart navigate the persistent reality of racism more generally. The early chapters set the stage for Greene County’s 1970 football season by outlining the roots of integration in the South beginning with Brown v. Board of Education in 1954 and how it and the Civil Rights Act of 1964 eventually led to Georgia, and Greene County in particular, being integrated in the classroom and on the athletic field. Barnhart discusses how the three high schools in Greene County—Greensboro, Union Point, and Corry—eventually became one by the fall of 1970. In addition, he outlines the rollout of integration of the Greene County school district population in 1965–66 and how it eventually led to athletics being integrated in the fall of 1970. Returning to each of the players, as well as the coaches, teachers, and administrators who contributed to that 1970 season, Barnhart interviews these contacts to revisit this important time in all their lives. Their stories make plain that football merely served as the backdrop for the sociological interactions and events taking place in Greene County, Georgia, the South, and the United States at the end of the civil rights era and how change would be as rewarding as it was difficult.

army basic training dates 2023 fort benning: Tubby Stephen A. Bourque, 2024-11-15 Entering West Point from central Oklahoma, Raymond O. Barton's prowess on the football field and wrestling team earned him the nickname “Tubby,” an appellation used by his friends and fellow officers for the rest of his life. Based on personal letters and documents, this biography explores Barton’s military career from his days as a cadet through thirty-seven years of military service, culminating with his command in World War II of the 4th Infantry Division during the US Army’s campaign in France. From the inside readers have a picture of officership during the intense days of training and expansion on the eve of World War II. Finally, thanks to the discovery of his war diary, we have a close-up view of his senior leadership as he trained in England for the landing on Utah Beach on June 6, 1944. Through 204 days of continuous combat, Barton led the 4th Infantry Division as it fought through German defenses on its way into Cherbourg. His division led the VII Corps’ breakthrough on Operation COBRA and then held the north shoulder during the German counterattack at Mortain. Now assigned to the V Corps, the 4th Infantry Division liberated Paris alongside the French 2nd Armored Division. On September 12 he became the first American general to cross the border into Nazi Germany. In November he moved his command to the Hürtgen Forest and for two weeks fought through some of the most inhospitable terrain in Europe. In December Barton's exhausted soldiers moved to Luxembourg to a more restful portion of the front lines, only to face the southern flank of the German Ardennes Offensive. By the time the Ivy Division stopped the enemy outside of Luxembourg, Barton was exhausted and physically unable to continue in command. He returned home to live the rest of his life as a distinguished citizen of Augusta, Georgia.
