big al and shrimpy: No Talking Andrew Clements, 2012-03-13 In No Talking, Andrew Clements portrays a battle of wills between some spunky kids and a creative teacher with the perfect pitch for elementary school life that made Frindle an instant classic. It's boys vs. girls when the noisiest, most talkative, and most competitive fifth graders in history challenge one another to see who can go longer without talking. big al and shrimpy: Extra Credit Andrew Clements, 2012-03-13 It isn't that Abby Carson can't do her schoolwork. She just doesn't like doing it. And in February a warning letter arrives at her home. Abby will have to repeat sixth grade—unless she meets some specific conditions, including taking on an extra-credit project to find a pen pal in a distant country. Seems simple enough. But when Abby's first letter arrives at a small school in Afghanistan, the village elders agree that any letters going back to America must be written well. In English. And the only qualified student is a boy, Sadeed Bayat. Except in this village, it is not proper for a boy to correspond with a girl. So

Sadeed's younger sister will write the letters. Except she knows hardly any English. So Sadeed must write the letters. For his sister to sign. But what about the villagers who believe that girls should not be anywhere near a school? And what about those who believe that any contact with Americans is . . . unhealthy? Not so simple. But as letters flow back and forth—between the prairies of Illinois and the mountains of central Asia, across cultural and religious divides, through the minefields of different lifestyles and traditions—a small group of children begin to speak and listen to one another. And in just a few short weeks, they make important discoveries about their communities, about their world, and most of all, about themselves.

How can his school in the little town of Plattsford stay open next year if there are going to be only five students? Out here on the Great Plains in western Nebraska, everyone understands that if you lose the school, you lose the town. But the mystery that has Ted's full attention at the moment is about that face, the face he sees in the upper window of the Andersons' house as he rides past on his paper route. big al and shrimp: *Fear Itself* Andrew Clements, 2012-03-20 The second book in this riveting and mysterious six-book series is as action-packed as the first one, culminating in a faceoff between Ben, Jill, and Lyman. "After five bells sound, time to sit down" makes for a good riddle, but Ben and Jill also knows when it's time to stand up...for Oakes School and for themselves. Time is ticking as the countdown to Ben Pratt's school's total demolition continues. Ben has been given a handful of clues that could help them save the school, but they are all written in maritime riddles. "After five bells sound, time to sit down." What the heck does that mean? It's hard to know where to begin when Ben and Jill don't even know what they are looking for. All Lyman, the snake posing as the school janitor, needs to know, though, is that they are looking, and that could mean the end of the 30-million-dollar development deal that pays his salary. (Which, by the way, is MUCH larger than what a typical janitor makes.) As Lyman lurks in the shadows—and sometimes not in the shadows—Ben and Jill have to add another to-do to their list of things to accomplish in the next twenty-one days: (1) Figure out the clues left by past Keepers of the School groups, (2) figure out how these clues will help them save the school, and (3) stay one step ahead of Lyman. That's the mission...which seems, at times, impossible.

big al and shrimp: *We Hold These Truths* Andrew Clements, 2014-11-11 The Keepers of the School--known to their friends as Ben, Jill, and Robert--have one last chance to save their school before it's torn down to make room for a seaside amusement park. big al and shrimp: *We the Children* Andrew Clements, 2011-04-19 Sixth-grader Ben Pratt's life is full of changes that he does not like, but when the school janitor gives him a tarnished coin with some old engravings and then dies, Ben is drawn into an effort to keep his school from being destroyed.

Suddenly the attention she's successfully avoided all her life is focused on her, and her secret is out. And that's when things start to get really complicated....
