

the expanding discourse feminism and art history

The Expanding Discourse Feminism and Art History: A Dynamic Intersection

the expanding discourse feminism and art history marks a significant shift in how we understand both the creation and interpretation of art. This evolving conversation not only challenges long-standing narratives but also opens up new avenues for appreciating diverse voices and perspectives in the art world. As feminism continues to influence academia and culture, its dialogue with art history becomes increasingly rich, prompting us to reconsider who gets represented, how artworks are analyzed, and what stories are told.

Understanding the Foundations: Feminism Meets Art History

The relationship between feminism and art history isn't new, but its depth and complexity have grown remarkably over recent decades. Traditionally, art history focused predominantly on male artists and their contributions, often sidelining women's work or relegating it to the margins. Feminist art historians began to question these biases, arguing that the discipline itself had been shaped by patriarchal viewpoints.

Reclaiming Women Artists

One of the earliest and most visible impacts of feminism on art history has been the reclamation of women artists who had been overlooked or undervalued. Scholars and curators started digging into archives, exhibitions, and collections to bring to light female creators from various periods, from Artemisia Gentileschi to Frida Kahlo. This effort not only broadened the canon but also dismantled myths about women's supposed inferiority in artistic skill or innovation.

Critiquing the Male Gaze

Another cornerstone of feminist art history is the critique of the "male gaze," a term popularized by film theorist Laura Mulvey but widely applicable in visual arts. The male gaze describes how women have historically been depicted through a lens that objectifies and sexualizes them, often prioritizing male pleasure or fantasy. Feminist discourse urges us to rethink how gender biases shape artistic representation and to seek more nuanced, empowering portrayals of women.

The Expanding Discourse Feminism and Art History in Contemporary Scholarship

Today, the expanding discourse feminism and art history encompasses a variety of approaches that intersect with race, class, sexuality, and global perspectives. This intersectionality enriches the discussion and highlights how experiences of gender are shaped by multiple social identities.

Intersectionality and Inclusivity

Modern feminist art historians emphasize intersectionality - the interconnectedness of various social categories - to avoid simplistic readings of gender. By incorporating race, ethnicity, and sexuality into their analyses, scholars reveal how women artists of color or LGBTQ+ creators face different challenges and bring unique insights to art history.

Decolonizing Art History

Feminist discourse also plays a crucial role in decolonizing art history. This means questioning Eurocentric narratives that have long dominated the field and acknowledging the contributions and perspectives of artists from formerly colonized regions. Feminism's push for inclusivity encourages the diversification of both the subjects studied and the methodologies employed.

How Feminism Influences Art Criticism and Curation

The expanding discourse feminism and art history is not confined to academia; it significantly impacts how museums, galleries, and critics approach art.

Shifting Curatorial Practices

Curators inspired by feminist theory often prioritize exhibitions that challenge traditional hierarchies and highlight marginalized voices. These exhibitions may focus on women artists, explore themes of gender and identity, or present alternative narratives that question dominant cultural values. Such practices help audiences engage with art in more critical and meaningful ways.

New Frameworks for Criticism

Feminist art criticism offers fresh frameworks for interpreting artworks. Instead of merely assessing formal qualities or historical context, critics examine power dynamics, gender representation, and social commentary embedded in art. This multidimensional approach enriches our understanding and appreciation of creative works.

Implications for Artists and Educators

The dialogue between feminism and art history also influences how artists create and how art is taught.

Empowering Women Artists

For contemporary women artists, the feminist discourse provides both inspiration and validation. It encourages them to explore themes of identity, body politics, and social justice while challenging the art world's structural inequalities. Many artists explicitly engage with feminist ideas, using their work to question norms and provoke dialogue.

Transforming Art Education

In educational settings, incorporating feminist perspectives transforms curricula by diversifying reading lists, encouraging critical thinking about gender and power, and fostering inclusive classroom discussions. This prepares students to approach art history with awareness of its complexities and biases.

Challenges and Future Directions in Feminist Art History

While the expanding discourse feminism and art history has made tremendous strides, it also faces ongoing challenges.

Resistance and Backlash

Feminist interventions sometimes encounter resistance from traditionalists who view these perspectives as politically motivated or divisive. Overcoming such pushback requires persistent advocacy and demonstrating the intellectual rigor and relevance of feminist scholarship.

Continuing the Expansion

Looking forward, the discourse is likely to grow even more inclusive, incorporating voices from non-binary and transgender artists, exploring digital and new media art through feminist lenses, and engaging with global feminist movements. This continuous evolution ensures that art history remains a vibrant, critical field attentive to contemporary social realities.

Why the Expanding Discourse Feminism and Art

History Matters Today

In a cultural moment increasingly focused on equity and representation, the dialogue between feminism and art history offers powerful tools for understanding how art shapes and reflects societal values. It invites us to question entrenched narratives, celebrate diversity, and appreciate art not just as aesthetic objects but as dynamic expressions of human experience.

By embracing this expanding discourse, scholars, artists, and audiences alike contribute to a richer, more inclusive art world—one that honors multiple histories and imaginations, and that continues to grow in relevance and resonance across the globe.

Frequently Asked Questions

What is meant by the 'expanding discourse' of feminism in art history?

The 'expanding discourse' of feminism in art history refers to the growing and evolving conversation that includes diverse perspectives, methodologies, and critiques, aiming to challenge traditional narratives and highlight women artists and feminist themes within art history.

How has feminism influenced the study of art history?

Feminism has influenced art history by questioning the male-dominated canon, recovering overlooked women artists, analyzing gender representation in art, and promoting inclusive methodologies that consider social, political, and cultural contexts.

What role do women artists play in the expanding discourse of feminism and art history?

Women artists are central to this discourse as their works are re-evaluated and re-contextualized, challenging historical marginalization and contributing to a more comprehensive understanding of art history that includes diverse gender experiences.

How does intersectionality impact feminist art historical analysis?

Intersectionality impacts feminist art history by encouraging the examination of how overlapping identities such as race, class, sexuality, and gender affect the production, reception, and interpretation of art, leading to more nuanced and inclusive scholarship.

What are some key challenges faced in integrating feminist perspectives into mainstream art history?

Challenges include institutional resistance, persistent gender biases, limited access to archival materials on women artists, the complexity of

intersectional analysis, and the need to balance feminist critique with broader art historical frameworks.

Can you name influential feminist art historians who have contributed to the expanding discourse?

Influential feminist art historians include Linda Nochlin, who famously questioned the absence of women in art history; Griselda Pollock, known for her work on feminist theory and psychoanalysis; and Rozsika Parker, who explored women's artistic labor and creativity.

How does contemporary feminist art practice reflect the themes explored in feminist art history?

Contemporary feminist art practice often engages with themes like identity, gender politics, body autonomy, and social justice, reflecting and expanding upon feminist art historical critiques by using diverse media and participatory approaches to challenge existing power structures.

Additional Resources

The Expanding Discourse: Feminism and Art History

the expanding discourse feminism and art history has become a pivotal area of inquiry within both academic and cultural spheres. This evolving dialogue interrogates the traditional narratives of art history, challenging the masculine-centric canons and advocating for a more inclusive understanding that recognizes the contributions, perspectives, and experiences of women artists and feminist theorists. As the field continues to grow, it reshapes not only how art is studied and appreciated but also how gender dynamics intersect with broader cultural production and interpretation.

Redefining Art History Through Feminist Lenses

Feminism's entry into art history marked a transformative shift from a predominantly patriarchal view of artistic achievement toward a critical examination of gender biases embedded within art historical discourse. Historically, women artists were marginalized or altogether excluded from mainstream art narratives, their works often undervalued or misattributed. The expanding discourse feminism and art history seeks to correct these imbalances by reevaluating the canon and bringing to light neglected female voices.

One of the essential interventions of feminist art historians has been to question the criteria that define artistic merit and importance. Rather than accepting traditional hierarchies—frequently based on male-dominated institutions and market forces—feminist scholarship emphasizes context, social structures, and the politics of representation. This approach has led to the rediscovery of artists like Artemisia Gentileschi and Hilma af Klint, whose contributions were once overshadowed.

Intersectionality and Inclusivity in Feminist Art History

Modern feminist art history increasingly incorporates intersectional frameworks, recognizing that gender alone does not account for the diversity of experiences and identities. Race, class, sexuality, and disability intersect with gender to shape both artistic production and reception. This nuance enriches the discourse, fostering a more complex understanding of how systemic inequalities manifest in the art world.

For example, contemporary scholarship highlights the work of Black women artists such as Faith Ringgold and Kara Walker, whose practices address racialized experiences alongside gender. By situating these artists within feminist art history, the discourse broadens beyond a narrow focus on white, middle-class women, offering a more representative and multifaceted narrative.

Impact on Museum Practices and Art Institutions

The expanding discourse feminism and art history has had significant implications for museums, galleries, and art institutions, which have historically perpetuated gender disparities through acquisition policies, exhibition programming, and curatorial choices. Feminist critique has spurred institutions to reexamine their collections and challenge the male-dominated status quo.

Many museums have initiated efforts to diversify their holdings and highlight female artists, sometimes through dedicated exhibitions or permanent gallery spaces. However, challenges remain. Studies indicate that despite progress, women artists still represent a minority in major museum collections and auction sales. According to a 2019 report by the National Museum of Women in the Arts, only 11% of acquisitions by prominent U.S. museums over the past decade were of works by women.

Challenges and Critiques Within the Feminist Art History Movement

While feminist art history has opened new avenues, it is not without internal debates and critiques. Some scholars argue that early feminist art history sometimes essentialized women's experiences or framed female artists in opposition to male counterparts, inadvertently reinforcing binary gender constructs. Additionally, the movement has been critiqued for initially centering Western perspectives, overlooking non-Western feminist art histories.

Contemporary feminist art historians strive to address these issues by adopting more fluid conceptions of gender and emphasizing global perspectives. This evolution aligns with broader trends in art history that prioritize decolonization and the dismantling of Eurocentric narratives.

Digital Humanities and Feminist Art History

The integration of digital technologies has amplified the reach and accessibility of feminist art historical research. Digital archives, databases, and online exhibitions make it easier to uncover and disseminate information about women artists and feminist art movements. Platforms like the Feminist Art Base at the Brooklyn Museum or the online catalogue of the Guerrilla Girls provide valuable resources for scholars, students, and the general public.

Moreover, data analytics and digital mapping tools enable more sophisticated analyses of representation trends in art institutions. This technological engagement facilitates transparency and accountability, encouraging museums and galleries to track and improve gender equity in their programming.

Educational Reforms and Feminist Art History

Another significant area impacted by the expanding discourse feminism and art history is education. University curricula are increasingly incorporating feminist perspectives, challenging students to critically examine the gendered dimensions of art and cultural history. This shift helps cultivate a new generation of scholars and practitioners attuned to issues of diversity and inclusion.

Courses that blend feminist theory, cultural studies, and art history also foster interdisciplinary approaches, enriching students' critical thinking and analytical skills. However, the integration of feminist art history remains uneven across institutions, with some programs still resistant to curricular changes due to entrenched traditionalism.

Future Directions in Feminism and Art Historical Studies

Looking ahead, the discourse around feminism and art history appears poised to further evolve in complexity and scope. Emerging themes include the exploration of queer and non-binary identities, the role of technology in feminist artistic practice, and the global circulation of feminist ideas through art. The ongoing dialogue between feminist theory and art history promises to deepen understanding of how gender shapes the production, interpretation, and valuation of art.

In this context, collaboration across disciplines—such as sociology, anthropology, and media studies—will likely become more prominent, enriching feminist art historical methodologies. Furthermore, continued advocacy for institutional reforms will be crucial to ensuring that feminist insights translate into tangible changes within the art world.

The expanding discourse feminism and art history thus represents not only a critical reassessment of the past but also an active engagement with contemporary and future cultural dynamics. It challenges scholars, curators, and audiences alike to rethink assumptions and to embrace a more inclusive vision of artistic heritage.

the expanding discourse feminism and art history: *The Expanding Discourse* Norma Broude, 2018-02-23 A sequel to the pioneering volume, *Feminism and Art History: Questioning the Litany*, published in 1982, *The Expanding Discourse* contains 29 essays on artists and issues from the Renaissance to the present, representing some of the best feminist art-historical writing of the past decade. Chronologically arranged, the essays demonstrate the abundance, diversity, and main conceptual trends in recent feminist scholarship.

the expanding discourse feminism and art history: *Gender Studies im Dialog* Anna Artwinska, Janine Schulze-Fellmann, 2022-03-07 Wie sind die Entwicklungen der Gender Studies vor dem Hintergrund ihrer Historie zu verstehen? Die Beiträger*innen des Bandes diskutieren diese Frage in drei thematischen Blöcken: Biografische Reflexionen treffen auf politische, künstlerische sowie wissenschaftliche Interventionen und stellen so das Potential der Disziplin heraus. Die einzelnen Beiträge entsprechen Schlaglichtern, die sowohl Dis- als auch Kontinuitäten der Diskurse beleuchten. Die dadurch entstehenden Synergieeffekte bestätigen die Notwendigkeit eines entgrenzenden Dialogs im Fach, transdisziplinär wie transnational.

the expanding discourse feminism and art history: *Women in Italian Renaissance Art* Paola Tinagli, 1997-06-15 This is the first book which gives a general overview of women as subject-matter in Italian Renaissance painting. It presents a view of the interaction between artist and patron, and also of the function of these paintings in Italian society of the fifteenth and sixteenth centuries. Using letters, poems, and treatises, it examines through the eyes of the contemporary viewer the way women were represented in paintings.

the expanding discourse feminism and art history: *Methods and Theories of Art History* Anne D'Alleva, 2005 This is an analysis of complex forms of art history. It covers a broad range of approaches, presenting individual arguments, controversies and divergent perspectives. The book begins by introducing the concept of theory and explains why it is important to the practice of art history.

the expanding discourse feminism and art history: *Handbuch Interdisziplinäre Geschlechterforschung* Beate Kortendiek, Birgit Riegraf, Katja Sabisch, 2019-01-04 Das Handbuch bietet einen systematischen Überblick über den Stand der Geschlechterforschung. Disziplinäre und interdisziplinäre Zugänge werden verknüpft und vielfältige Sichtweisen auf das Forschungsfeld eröffnet. Die Beiträge der Geschlechterforscher_innen aus unterschiedlichen Fachdisziplinen spannen die Breite des Forschungs- und Wissenschaftsfeldes auf. Hierdurch werden die Debatten, Analysen und Entwicklungen der deutschsprachigen und internationalen Geschlechterforschung deutlich. Das Handbuch Interdisziplinäre Geschlechterforschung ist in sieben Schwerpunkte gegliedert und besonders in Lehre und Forschung einsetzbar. Herausgegeben von Dr. Beate Kortendiek ist Leiterin der Koordinations- und Forschungsstelle des Netzwerks Frauen- und Geschlechterforschung NRW an der Universität Duisburg-Essen. Dr. Birgit Riegraf ist Professorin für Allgemeine Soziologie an der Universität Paderborn. Dr. Katja Sabisch ist Professorin für Gender Studies an der Universität Bochum. Der Inhalt Debatten: hinterfragte Dualismen und neue Sichtweisen der Geschlechterforschung Denkströmungen: theoretische und methodologische Grundlagen der Geschlechterforschung Disziplinen: fachspezifische Entwicklungen und fachkulturelle Perspektiven der Geschlechterforschung Ungleichheiten, Sozialstruktur, Gleichstellung: zentrale Fragen und empirische Zugänge der Geschlechterforschung Lebensphasen,

und Technikwissenschaften sowie interdisziplinär Forschende und Interessierte.

the expanding discourse feminism and art history: Pluralismen-Differenzen Birgit Dorner, 1999

the expanding discourse feminism and art history: *Beyond the Heteronorm* Goutam Majhi, Subhadeep Paul, 2024-03-18 *Beyond the Heteronorm: Interrogating Critical Alterities in Global Art and Literature* explores exclusionary practices inspired by the construct of gender and how these conventions often misconstrue and convolute sex, gender, and sexual orientation. The contributors to this collection examine literary and visual representations of critical alterities from around the globe to produce empathic and inclusive analyses of experiences shared between diverse subordinated and minoritized socio-cultural entities and collectives. Organized into three parts, the chapters critique the concepts of personhood, performativity, and the post-binary. This edited collection deconstructs gender essentialism and embraces gender inclusivity in both theory and practice.

the expanding discourse feminism and art history: Feminism Reframed Alexandra M. Kokoli, 2009-10-02 *Feminism Reframed: Reflections on Art and Difference* addresses the on-going dialogue between feminism, art history and visual culture from contemporary scholarly perspectives. Over the past thirty years, the critical interventions of feminist art historians in the academy, the press and the art world have not only politicised and transformed the themes, methods and conceptual tools of art history, but have also contributed to the emergence of new interdisciplinary areas of investigation, including notably that of visual culture. Although the impact of such fruitful transformations is indisputable, their exact contribution to contemporary scholarship remains a matter for debate, not least because feminism itself has changed significantly since the Women's Liberation Movement. *Feminism Reframed* reviews and revises existing feminist art histories but also reasserts the need for continuous feminist interventions in the academy, the art world and beyond. With contributions by Anthea Behm, Alisia Grace Chase, Jennifer G. Germann, Catherine Grant, Joanne Heath, Ruth Hemus, Alexandra Kokoli, Beth Anne Lauritis, Griselda Pollock, Karen Roulstone, Anne Swartz and Sue Tate. "Coming at the moment when contemporary art practices are themselves involved in re-cycling, re-evaluating and re-enacting the past, this collection asks how feminism's own 'troubled' histories can be reframed productively in the present. The questions that feminism raised in the 1970s and 80s are still pertinent, and are addressed in a number of original essays: What does gender equality mean in the arts? How can women's subjectivities be articulated or performed differently in art practices? Can attention to gender enable us to engage with complex differences of race, sexuality and class, of age and generation? Do we need new interpretative and conceptual models for writing about art? Alexandra Kokoli's thoughtful and illuminating introduction reminds us that reframing is a risky but exciting business if it makes us ask these questions anew, with attention to the politics and aesthetics of the present." —Rosemary Betterton, Lancaster University

the expanding discourse feminism and art history: *Architecture and the Politics of Gender in Early Modern Europe* Helen Hills, 2018-05-08 Written by leading scholars in the field, the essays in this book address the relationships between gender and the built environment, specifically architecture, in early modern Europe. In recent years scholars have begun to investigate the ways in which architecture plays a part in the construction of gendered identities. So far the debates have focused on the built environment of the nineteenth and twentieth centuries to the neglect of the early modern period. This book focuses on early modern Europe, a period decisive for our understanding of gender and sexuality. Much excellent scholarship has enhanced our understanding of gender division in early modern Europe, but often this scholarship considers gender in isolation from other vital factors, especially social class. Central to the concerns of this book, therefore, is a

consideration of the intersections of gender with social rank. *Architecture and the Politics of Gender in Early Modern Europe* makes a major contribution to the developing analysis of how architecture contributes to the shaping of social relations, especially in relation to gender, in early modern Europe.

the expanding discourse feminism and art history: *Feminists Who Changed America, 1963-1975* Barbara J. Love, 2006-09-22 Documenting key feminists who ignited the second wave women's movement Barbara J. Love's *Feminists Who Changed America, 1963-1975* will be the first comprehensive directory to document many of the founders and leaders (including both well-known and grassroots organizers) of the second wave women's movement. It tells the stories of more than two thousand individual women and a few notable men who together reignited the women's movement and made permanent changes to entrenched customs and laws. The biographical entries on these pioneering feminists represent their many factions, all parts of the country, all races and ethnic groups, and all political ideologies. Nancy Cott's foreword discusses the movement in relation to the earlier first wave and presents a brief overview of the second wave in the context of other contemporaneous social movements.

the expanding discourse feminism and art history: *The Nude* Richard Leppert, 2018-05-04 *The Nude* explores some of the principal ways that paintings of the nude function in the conflicted terrain of culture and society in Europe and America from the fifteenth through twentieth centuries, as set against questions about human sexuality that emerge around differences of class, gender, age, and race. Author Richard Leppert relates the visual history of how the naked body intersects with the foundational characteristics of what it is to be human, measured against a range of basic emotions (happiness, delight, and desire; fear, anxiety, and abjection) and read in the context of changing social and cultural realities. The bodies comprising the Western nude are variously pleased or tormented, ecstatic or bored, pleased or horrified. In short, as this volume amply demonstrates, the nude in Western art is a terrain on whose surface is written a summation of Western history: its glory but also its degradation.

the expanding discourse feminism and art history: *The Visual Arts* Hugh Honour, John Fleming, 2010 Hailed as the most up-to-date and comprehensive survey published in a single volume, this new revised edition is an authoritative and enlightened account of the history of art. It presents art history as an essential part of the development of humankind, encompassing the arts of Asia, Africa, Oceania, Europe, and the Americas-spanning from the primitive art of hunters 30,000 years ago to the most controversial art forms of today. The text is beautifully and generously illustrated with over 1,400 superb photographs, including architectural plans and color maps

the expanding discourse feminism and art history: *The Eye, the Hand, the Mind* Susan L. Ball, 2011 *The Eye, the Hand, the Mind*, celebrating the centennial of the College Art Association, is filled with pictorial mementos and enlivening stories and anecdotes that connects the organization's sixteen goals and tells its rich, sometimes controversial, story. Readers will discover its role in major issues in higher education, preservation of world monuments, workforce issues and market equity, intellectual property and free speech, capturing conflicts and reconciliations inherent among artists and art historians, pedagogical approaches and critical interpretations/interventions as played out in association publications, annual conferences, advocacy efforts, and governance.

the expanding discourse feminism and art history: *Rethinking Modern Austrian Art Beyond the Metropolis* Julia Secklehner, 2024-08-02 This study examines the role played by regional cultures in modern art and visual culture in Central Europe between 1918 and 1938. Analysing paintings, photographs, prints, and illustrated magazines in relation to topics such as tourism, social activism, rural exoticism, gender, and ethnic diversity, the book offers a fresh perspective on Central European art and visual culture. It pays particular attention to Austria, a country often ignored in histories of modernism in Central Europe, yet one where the countryside gained high visibility as a part of modern culture between the wars. Examples from Czechoslovakia and Hungary also play an important role in comparison and challenge the nationally fragmented histories of modernism in the region. The book's approach overall is also relevant beyond Central

Europe: it corrects assumptions that modern art and visual culture were at home in the urban space and emphasises the role of the countryside as an agent of renewal and emancipation in order to construct a more nuanced history of modernism. The book will be of interest to scholars studying art history, Central European studies, European Studies, modernism, and cultural history. The Open Access version of this book, available at www.taylorfrancis.com, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

the expanding discourse feminism and art history: Women and Art in Early Modern Europe: Patrons, Collectors, and Connoisseurs, 1999 This anthology reflects a larger impulse to recover women's involvement in the creation of an aesthetic culture from the late medieval through the early modern periods. By asking how the perspectives and experiences of female patrons contributed to the invention of particular styles or iconographies, or how they shaped taste, or how they influenced demand, these twelve original essays introduce significant new information about specific women patrons while raising theoretical issues for patronage studies more generally. While most of the projects discussed are consistent with the period's male-sanctioned concept of female patronage as an expression of conjugal devotion or dynastic promotion, at the same time the women involved devised strategies that circumvented these rules, allowing them to explore the potential or art as a means of proclaiming their own identity and taste.

the expanding discourse feminism and art history: The Modern Embroidery Movement Cynthia Fowler, 2018-02-22 WINNER OF A CHOICE OUTSTANDING ACADEMIC TITLE AWARD 2018 In the early twentieth century, Marguerite Zorach and Georgiana Brown Harbeson were at the forefront of the modern embroidery movement in the United States. In the first scholarly examination of their work and influence, Cynthia Fowler explores the arguments presented by these pioneering women and their collaborators for embroidery to be considered as art. Using key exhibitions and contemporary criticism, *The Modern Embroidery Movement* focuses extensively on the individual work of Zorach and Brown Harbeson, casting a new light on their careers. Documenting a previously marginalised movement, Fowler brings together the history of craft, art and women's rights and firmly establishes embroidery as a significant aspect of modern art.

the expanding discourse feminism and art history: Judith Lawrence M. Wills, 2019-11-05 Judith tells the story of a beautiful Jewish woman who enters the tent of an invading general, gets him drunk, and then slices off his head, thus saving her village and Jerusalem. This short novella was somewhat surprisingly included in the early Christian versions of the Old Testament and has played an important role in the Western tradition ever since. This commentary provides a detailed analysis of the text's composition and its meaning in its original historical context, and thoroughly surveys the history of Judith scholarship. Lawrence M. Wills not only considers Judith's relation to earlier biblical texts--how the author played upon previous biblical motifs and interpreted important biblical passages--but also addresses the rise of Judith and other Jewish novellas in the context of ancient Near Eastern and Greek literature, as well as their relation to cross-cultural folk motifs. Because of the popularity of Judith in art and culture, this volume also addresses the book's history of interpretation in paintings, sculpture, music, drama, and literature. A number of images of artistic depictions of Judith are included and discussed in detail.

the expanding discourse feminism and art history: Witwenschaft in der frühen Neuzeit Martina Schattkowsky, 2003

the expanding discourse feminism and art history: Feminism Art Theory Hilary Robinson, 2015-04-20 Charting over 45 years of feminist debate on the significance of gender in the making and understanding of art, the long-anticipated new edition of *Feminism-Art-Theory* has been extensively updated and reworked. Completely revised, retaining only one-third of the texts of the earlier edition, with all other material being new inclusions Brings together 88 revealing texts from North America, Europe and Australasia, juxtaposing writings from artists and activists with those of academics Embraces a broad range of threads and perspectives, from diverse national and global approaches, lesbian and queer theory, and postmodernism, to education and aesthetics Includes many classic texts, but is particularly notable for its inclusion of rare and significant material not

reprinted elsewhere Provides a uniquely flexible resource for study and research due to its scale and structure; each of the seven sections focuses on a specific area of debate, with texts arranged chronologically in order to show how issues and arguments developed over time

the expanding discourse feminism and art history: Feminism and Tradition in Aesthetics Peggy Zeglin Brand, Carolyn Korsmeyer, 2010-11-01
