gone with the wind ebook: Filmanalyse "Gone with the Wind" Sandra Folie, 2011-03-04

Studienarbeit aus dem Jahr 2011 im Fachbereich Filmwissenschaft, Note: 1, Universität Wien (Institut für Theater-, Film- und Medienwissenschaft), Veranstaltung: Das Melodramatische im Film, Sprache: Deutsch, Abstract: Das erste, was wir in *Gone with the Wind* zu sehen und zu hören bekommen ist eine Overture, in Wort und Klang. Breite, große Blockbuchstaben goldener Farbe behaupten sich als OVERTURE, damit auch wirklich niemandem entgeht, um was es sich hier handelt, ist diese instrumentale Eröffnung, in der wesentliche Elemente der Handlung sowie hervorstechende Charakterzüge der Protagonisten musikalisch vorgestellt werden, doch vielmehr aus der Oper als aus dem Kino bekannt. Der Schriftzug dehnt sich vor einer ländlichen Hintergrundkulisse aus, dem Bild einer mächtigen Eiche wie einem etwas wackelig aussehenden Zaun, die als tiefschwarze Schatten vor dem dämmrigen, abendroten Himmel stehen, inmitten dessen eine langgezogene dunkle Wolke schwebt. Die Accessoires, der Baum auf Grund seiner Ausmaße, wie das Gatter wegen des schäbigen Zustandes, weisen schon auf Althergebrachtes hin, sie sind beide nicht mehr die jüngsten und stehen seit geraumer Zeit an Ort und Stelle. Die Eiche scheint in gutem Zustand zu sein, wohingegen das von Menschenhand Errichtete zu zerfallen droht. Die dunkle Wolke, zentriert im Bild, lenkt dezent, aber doch, vom kitschig-rosanen Firmament ab, ein möglicher Hinweis auf starke Kontraste bzw. Höhen und Tiefen in der folgenden Narration. Im Diskurs der europäischen Kunstgeschichte wurden Wolken auch als „Ablenkung“ von der Unendlichkeit und Leere des Himmels verstanden, während sie in Wahrheit diese verkörpern. etc.

gone with the wind ebook: *The Making of... Adaptation and the Cultural Imaginary* Jan Cronin, 2019-11-25 This book explores "Making of" sites as a genre of cultural artefact. Moving beyond "making-of" documentaries, the book analyses novels, drama, film, museum exhibitions and popular studies that re-present the making of culturally loaded film adaptations. It argues that the "Making of" genre operates on an adaptive spectrum, orienting towards and enacting the adaptation of films and their making. The book examines the behaviours that characterise "Making of" sites across visual media; it explores the cultural work done by these sites, why recognition of "Making of" sites as adaptations matters, and why our conception of adaptation matters. Part one focuses on the adaptive domain presented by the "Making of" John Ford's *The Quiet Man*. Part two attends to "Making of" *Gone with the Wind* sites, and concludes with "Making of" *The Lord of the Rings* texts as the acme of the cultural risks and investments charted in earlier chapters.

But those terms are wholly inadequate for Meg Elison's clear-eyed satire in the guise of fantasy and science fiction. Compelling and fierce and unstoppable." —Pat Murphy, World Fantasy Award winner "Meg Elison's stories will raise blisters on your conscience. The outback is Australia's "mythological crucible," and journeys there have become rites of passage. It is where settler Australians go to die and perhaps be reborn. This book explores the landscape of this evolving national mythology. It argues that a more conscious engagement with the process of symbolic death and rebirth is needed for Australians to enter into a deeper understanding of themselves and their relationship to the land and its Indigenous people.

gone with the wind ebook: How to Engineer Software Steve Tockey, 2019-09-04 A guide to the application of the theory and practice of computing to develop and maintain software that economically solves real-world problem How to Engineer Software is a practical, how-to guide that explores the concepts and techniques of model-based software engineering using the Unified Modeling Language. The author—a noted expert on the topic—demonstrates how software can be developed and maintained under a true engineering discipline. He describes the relevant software engineering practices that are grounded in Computer Science and Discrete Mathematics.

Model-based software engineering uses semantic modeling to reveal as many precise requirements as possible. This approach separates business complexities from technology complexities, and gives developers the most freedom in finding optimal designs and code. The book promotes development scalability through domain partitioning and subdomain partitioning. It also explores software documentation that specifically and intentionally adds value for development and maintenance. This important book: Contains many illustrative examples of model-based software engineering, from semantic model all the way to executable code Explains how to derive verification (acceptance) test cases from a semantic model Describes project estimation, along with alternative software development and maintenance processes Shows how to develop and maintain cost-effective software that solves real-world problems Written for graduate and undergraduate students in software engineering and professionals in the field, *How to Engineer Software* offers an introduction to applying the theory of computing with practice and judgment in order to economically develop and maintain software.

gone with the wind ebook: *Marginalized* Casey Kayser, 2021-08-23 Winner of the 2021 Eudora Welty Prize In contrast to other literary genres, drama has received little attention in southern studies, and women playwrights in general receive less recognition than their male counterparts. In *Marginalized: Southern Women Playwrights Confront Race, Region, and Gender*, author Casey Kayser addresses these gaps by examining the work of southern women playwrights, making the argument that representations of the American South on stage are complicated by difficulties of identity, genre, and region. Through analysis of the dramatic texts, the rhetoric of reviews of productions, as well as what the playwrights themselves have said about their plays and productions, Kayser delineates these challenges and argues that playwrights draw on various conscious strategies in response. These strategies, evident in the work of such playwrights as Pearl Cleage, Sandra Deer, Lillian Hellman, Beth Henley, Marsha Norman, and Shay Youngblood, provide them with the opportunity to lead audiences to reconsider monolithic understandings of northern and southern regions and, ultimately, create new visions of the South.

gone with the wind ebook: *Sherlock Holmes from Screen to Stage* Benjamin Poore, 2017-08-24 This book investigates the development of Sherlock Holmes adaptations in British theatre since the turn of the millennium. Sherlock Holmes has become a cultural phenomenon all over again in the twenty-first century, as a result of the television series *Sherlock* and *Elementary*, and films like *Mr Holmes* and the Guy Ritchie franchise starring Robert Downey Jr. In the light of these new interpretations, British theatre has produced timely and topical responses to developments in the screen Sherlocks' stories. Moreover, stage Sherlocks of the last three decades have often anticipated the knowing, metafictional tropes employed by screen adaptations. This study traces the recent history of Sherlock Holmes in the theatre, about which very little has been written for an academic readership. It argues that the world of Sherlock Holmes is conveyed in theatre by a variety of games that activate new modes of audience engagement.

gone with the wind ebook: *Adaptable TV* Yvonne Griggs, 2018-07-25 This book focuses on the significantly under-explored relationship between televisual culture and adaptation studies in what is now commonly regarded as the 'Golden Age' of contemporary TV drama. *Adaptable TV: Rewiring the Text* does not simply concentrate on traditional types of adaptation, such as reboots, remakes and sequels, but broadens the scope of enquiry to examine a diverse range of experimental adaptive types that are emerging within an ever-changing TV landscape. With a particular focus on the serial narrative form, and with case studies that include *Penny Dreadful*, *Fargo*, *The Night Of* and *Orange Is the New Black*, this study is essential reading for anyone who is interested in the complex interplay between television studies and adaptation studies.
