The Origins of the Kanye West Family Business Instrumental

The family business instrumental found its home on Kanye West's debut album, "The College Dropout," released in 2004. At a time when hip-hop was dominated by aggressive beats and braggadocio lyrics, Kanye introduced a refreshing blend of introspection and soulful production. The track "Family Business" is a perfect example of this shift, offering a warm, nostalgic sound that taps into themes of family values and personal history.

Sampling and Composition

One of the defining characteristics of the Kanye West family business instrumental is its use of soulful samples. Kanye is renowned for his skillful sampling, and in this track, he utilizes a loop that evokes a nostalgic, almost vintage feel. The sample creates a smooth, melodic backdrop that anchors the song's emotional resonance.

The beat itself is laid-back, featuring soft drums, subtle piano lines, and layered harmonies. This combination allows the listener to focus on Kanye's storytelling without being overwhelmed by complex instrumentation. The production strikes a delicate balance between simplicity and depth, showcasing Kanye's early mastery of beat-making.

The Famous Feud, in general, seems to have a happy ending with one winner: Taylor Swift. From my point of view, the Famous Feud ended in July 2016. In June 2017 I was convinced that Taylor Swift was the victim (for the second time) of Kanye West. In October 2023, after I have updated the entire research on the Famous Feud, the original conclusion did not change. I created this edition to include everything I wrote about the Famous Feud. It is an edition for people interested in reading the entire Famous Feud story from A to Z. The Famous Feud Project report has two parts: Part 1. Pham, 2022-08-08 In 2016, social media users in Thailand called out the Paris-based luxury fashion house Balenciaga for copying the popular Thai "rainbow bag," using Balenciaga's hashtags to circulate memes revealing the source of the bags' design. In *Why We Can't Have Nice Things* Minh-Ha T. Pham examines the way social media users monitor the fashion market for the appearance of knockoff fashion, design theft, and plagiarism. Tracing the history of fashion antipiracy efforts back to the 1930s, she foregrounds the work of policing that has been tacitly outsourced to social media. Despite the social media concern for ethical fashion and consumption and the good intentions behind design policing, Pham shows that it has ironically deepened forms of social and market inequality, as it relies on and reinforces racist and colonial norms and ideas about what constitutes copying and what counts as creativity. These struggles over ethical fashion and intellectual property, Pham demonstrates, constitute deeper struggles over the colonial legacies of cultural property in digital and global economies.
