The modern cable television environment is increasingly competitive, with numerous providers offering extensive channel packages and on-demand services. Within this context, the utility of a cable TV guide cannot be overstated. Sjobergs cable TV guide aims to bridge the gap between diverse programming and user accessibility, presenting schedules in a clear, concise manner.

sjobergs cable tv guide: Lewis and Stempel's Ultimate TV Guide Jon E. Lewis, Penny Stempel, 1999 It's a TV jungle out there. Five terrestrial channels, 20 more on satellite/cable, more if you have the technology. What you need is a guide through the tangled forbidding forest of multi-channel, non-stop, viewer-hungry TV. And here it is. At the flick of a page, look up the programme, read a critical overview, peruse the cast. You can, for greater viewing safety, cross-reference artists and behind-camera crew (credits include producers, directors, writers) and checkout their back catalogue. Then amaze the rest of the sofa with your erudition, before dazzling them with your grasp of totally useless trivia. So, what's included and what's not? Chronologically, the Ultimate TV Guide spans 1946 - the oldest programme is Muffin The Mule - to the present, from the age of black and white nostalgia to the hi-tech high-definition present. There's no news, no documentaries (apologies, no space). All forms of TV fiction are covered - crime, westerns, sci-fi, soaps, comedy, adventure, horror along with children's TV and light entertainment (quizzes, games shows). Of these the authors have collected the classics, the innovators, the lost treasures, the obscure objects of cult desire, the hits - the shows in short, of screen note. Even if it's only because, like the BBC's sand-and-sangria melodrama Eldorado, they were such total turkeys. And, why not, they've also put in a few because they like 'em, and so should you. (The sci-fi 'Japanimation' The Guyver comes to mind). All have been broadcast in the UK. Completely updated.
