

first do no harm lisa belkin

****First Do No Harm Lisa Belkin: Exploring Compassion in Healthcare and Storytelling****

first do no harm lisa belkin is a phrase that resonates deeply within the realms of healthcare, ethics, and journalism. Lisa Belkin, an acclaimed journalist and author, has long been recognized for her compassionate storytelling and insightful exploration of complex human experiences. While the phrase “first do no harm” originates from the Hippocratic Oath, it also serves as a guiding principle in Belkin’s work, where empathy and responsibility intertwine with the power of narrative. In this article, we’ll delve into the significance of “first do no harm” in the context of Lisa Belkin’s contributions, examining how her storytelling bridges the gap between medical ethics, family dynamics, and social awareness.

Who Is Lisa Belkin?

Lisa Belkin is an award-winning journalist, author, and commentator known for her empathetic and thought-provoking writing. She has worked for major publications such as The New York Times, where her coverage often focuses on social issues, family, and ethical dilemmas. Belkin’s ability to humanize complex topics has made her a trusted voice in contemporary journalism.

One of Belkin’s most notable works is her book *Show Me a Hero*, which was later adapted into an HBO miniseries. This work exemplifies her commitment to telling stories that explore difficult truths with nuance and compassion—qualities that align with the ethos of “first do no harm.”

The Meaning of “First Do No Harm” in Healthcare and Beyond

The phrase “first do no harm” (Latin: *primum non nocere*) is traditionally attributed to the Hippocratic Oath, symbolizing the ethical responsibility of healthcare providers to avoid causing unnecessary harm to patients. While it is not explicitly stated in the original oath, it has become a central tenet in medical ethics.

Extending the Principle Beyond Medicine

Though rooted in healthcare, the concept of “first do no harm” transcends the medical field. Lisa Belkin’s work often reflects this broader interpretation, emphasizing compassion and harm reduction in storytelling and social commentary. Writing about vulnerable populations—whether patients, families, or communities—requires a delicate balance to avoid sensationalism or exploitation.

Belkin's approach underscores the importance of ethical storytelling: presenting truths with empathy, protecting the dignity of those involved, and fostering understanding rather than judgment. This aligns closely with the spirit of "first do no harm," reminding us that words and narratives can heal or hurt.

Lisa Belkin's Impact on Journalism and Storytelling Ethics

Belkin's career offers a powerful example of how journalists can embrace ethical responsibilities akin to the medical principle of "first do no harm." Her interviews and features often shed light on personal struggles without compromising the privacy or respect of her subjects.

Balancing Truth and Sensitivity

In exploring sensitive topics such as family dynamics, mental health, or social justice, Belkin exercises care to avoid sensationalizing pain or suffering. This balance is crucial in maintaining the trust of readers and the individuals whose stories are told. Her narratives encourage empathy, helping audiences connect with experiences that might otherwise seem distant or abstract.

Championing Vulnerable Voices

Belkin's work frequently amplifies the voices of those often overlooked or misunderstood—single parents, caregivers, and marginalized communities. By centering these perspectives, she not only informs but also advocates for greater awareness and compassion, reflecting the "first do no harm" ethos in her journalistic mission.

Applying "First Do No Harm" in Everyday Life: Lessons from Lisa Belkin

The principle of "first do no harm" is not limited to doctors or journalists; it can be a guiding philosophy for anyone seeking to interact thoughtfully with others. Lisa Belkin's thoughtful approach to storytelling offers practical lessons in empathy and respect.

Listening with Compassion

One of the most powerful ways to "do no harm" is through active, compassionate listening. Belkin's interviews demonstrate the value of giving people space to share their stories without interruption or judgment. This practice fosters trust and understanding, whether in

personal relationships or professional settings.

Choosing Words Carefully

Language shapes perception. Belkin's careful word choice shows how narrators can avoid stigmatizing or reducing individuals to their struggles. In everyday conversations, being mindful of how we discuss others can minimize harm and promote dignity.

Recognizing Complexity and Avoiding Assumptions

Belkin's storytelling highlights the complexity of human experiences, cautioning against simplistic or one-dimensional portrayals. Embracing this complexity in our interactions helps prevent misunderstandings and fosters more meaningful connections.

Exploring “First Do No Harm” Through Lisa Belkin’s Notable Works

Several of Belkin's projects explicitly or implicitly engage with the theme of “first do no harm,” providing rich insights into the ethical challenges of caregiving, journalism, and social policy.

Show Me a Hero: A Case Study in Compassion

Show Me a Hero tells the story of a mayor navigating racial tensions and public housing disputes in Yonkers, New York. Through this narrative, Belkin explores themes of justice, community harm, and the often painful path toward social progress. The story invites readers to consider the impact of policies and decisions on real lives—underscoring the importance of minimizing harm while striving for equity.

Other Essays and Features

Belkin's articles often delve into the dilemmas faced by parents, healthcare workers, and social advocates. Her insightful exploration of these topics consistently reflects an underlying commitment to ethical care and the well-being of those involved.

The Broader Cultural Significance of “First Do No

Harm Lisa Belkin”

In today’s fast-paced media environment, where sensational headlines and viral stories dominate, the principle embodied by “first do no harm lisa belkin” stands as a call for responsibility and humanity.

Encouraging Ethical Journalism

Belkin’s work serves as a benchmark for journalists striving to report with integrity and compassion. In an age of misinformation and polarization, her approach reminds professionals to prioritize truth and empathy over clicks and controversy.

Inspiring Healthcare and Social Care Practices

Beyond journalism, the intersection of Belkin’s storytelling with medical ethics encourages healthcare providers and caregivers to consider the emotional and social dimensions of care. Her narratives promote a holistic view that respects patients’ stories and lived experiences.

How Readers Can Engage with Lisa Belkin’s Work

For those interested in exploring the themes of “first do no harm” through the lens of Lisa Belkin’s work, several avenues offer meaningful engagement.

- **Read Her Books and Articles:** Start with *Show Me a Hero* and her New York Times features to experience her storytelling style firsthand.
- **Watch Adaptations:** The HBO miniseries *Show Me a Hero* translates Belkin’s narrative to the screen, providing a visual and emotional complement to her writing.
- **Reflect on Storytelling Ethics:** Use Belkin’s work as a case study in responsible journalism or writing workshops, focusing on empathy and harm reduction.
- **Practice Compassionate Communication:** Apply the lessons from Belkin’s interviews and profiles in your own interactions, emphasizing listening and respect.

Exploring “first do no harm lisa belkin” offers more than just insight into journalism; it opens a window into how we might approach all forms of storytelling and care with kindness and responsibility. Whether in healthcare, media, or everyday life, embracing this principle encourages us to prioritize humanity above all else.

Frequently Asked Questions

What is the main theme of Lisa Belkin's 'First Do No Harm'?

The main theme of Lisa Belkin's 'First Do No Harm' revolves around the ethical challenges and emotional struggles faced by parents and medical professionals when making difficult decisions about a child's medical care.

Who is Lisa Belkin, the author of 'First Do No Harm'?

Lisa Belkin is an American journalist and author known for her insightful writing on social issues, including healthcare and parenting. She wrote 'First Do No Harm' to highlight the complexities of medical ethics.

What real-life case inspired Lisa Belkin's 'First Do No Harm'?

Lisa Belkin's 'First Do No Harm' was inspired by real-life medical cases where parents and doctors faced heartbreaking decisions about life-saving treatments, focusing on the moral dilemmas involved.

How does 'First Do No Harm' by Lisa Belkin contribute to discussions on medical ethics?

'First Do No Harm' contributes to medical ethics discussions by exploring the difficult choices between aggressive treatment and quality of life, raising awareness about the impact of these decisions on families and healthcare providers.

Is 'First Do No Harm' by Lisa Belkin based on a true story?

Yes, 'First Do No Harm' is based on true stories and real experiences, reflecting the challenging decisions in pediatric healthcare and the emotional toll on families and doctors.

Where can I find or read Lisa Belkin's 'First Do No Harm'?

Lisa Belkin's 'First Do No Harm' can be found in various formats such as articles, essays, or books through libraries, bookstores, or online platforms that feature her work on medical ethics and healthcare topics.

****Exploring "First Do No Harm" by Lisa Belkin: A Critical Examination****

first do no harm lisa belkin invokes a profound reflection on the ethical dilemmas and emotional complexities faced by healthcare professionals, patients, and families alike. Lisa Belkin's work, widely recognized for its incisive exploration of medical ethics, patient advocacy, and the human side of healthcare, delves into the principle that underpins medical practice: *primum non nocere*—first, do no harm. This phrase, often attributed to the Hippocratic Oath, serves as a moral compass, yet Belkin's analysis reveals the multifaceted challenges inherent in upholding this ideal in contemporary medicine.

In her narrative, Belkin confronts readers with the real-world implications of medical decisions, the tensions between innovation and safety, and the emotional toll on those involved. Her work invites an investigative lens into how the healthcare system navigates complex scenarios where harm is sometimes unavoidable, and where ethical clarity is often blurred.

Unpacking the Ethical Core: The Meaning Behind “First Do No Harm”

Lisa Belkin's exploration of the phrase “first do no harm” goes beyond a mere ethical slogan. It probes the practical and philosophical tensions that arise when doctors, nurses, and medical institutions strive to balance treatment benefits against potential risks. The principle, while simple in theory, becomes complicated in clinical practice.

Belkin's account underscores that “do no harm” does not imply zero risk but rather a commitment to minimize harm and maximize patient well-being. This distinction is critical in understanding medical decision-making, particularly in high-stakes environments such as neonatal intensive care, oncology, and experimental treatments. Her investigative tone reveals that the principle serves as both a guiding ideal and a source of moral distress.

The Challenges of Medical Decision-Making

One of the central themes in Belkin's work is the tension between medical intervention and the potential for unintended consequences. Physicians often face dilemmas where the choice to act or to withhold treatment can lead to differing forms of harm. For instance, aggressive interventions may prolong life but at the cost of quality or dignity, while conservative approaches might risk earlier death but preserve comfort.

Belkin meticulously documents cases illustrating these conflicts, emphasizing:

- The difficulty of predicting outcomes accurately, even with advanced technology.
- The emotional burden borne by families forced to make heart-wrenching decisions

under pressure.

- The ethical challenges posed by emerging treatments that lack long-term data.

Her writing highlights that “first do no harm” is not a static rule but a dynamic challenge requiring continuous ethical evaluation.

Lisa Belkin’s Narrative Approach: Humanizing Medical Ethics

Unlike purely academic treatises, Belkin’s style is deeply narrative and empathetic, weaving personal stories with broader systemic analysis. This approach enhances the accessibility and emotional resonance of her work. Through vivid case studies, she brings to light the human dimension often obscured in clinical statistics and policy debates.

Her profiling of medical professionals reveals their vulnerability, doubts, and the heavy weight of responsibility they carry. Simultaneously, Belkin shows patients and families in their most fragile states, grappling with hope, fear, and the search for meaning amidst uncertainty.

Impact on Patient Advocacy and Healthcare Policy

Belkin’s insights extend beyond storytelling; they have influenced discussions on patient rights, informed consent, and healthcare transparency. By exposing the complexities and imperfections of medical practice, she advocates for:

- Greater communication between healthcare providers and patients to ensure decisions are made collaboratively.
- Stronger support systems for families navigating difficult medical choices.
- Policy reforms that acknowledge and address ethical ambiguities rather than gloss over them.

Her work contributes to a growing movement that prioritizes patient-centered care and ethical accountability in medicine.

Comparative Perspectives: “First Do No Harm” in

Modern Healthcare

When situated within the broader landscape of medical ethics literature, Belkin's "first do no harm" narratives stand out for their grounded realism and emotional depth. Compared to more theoretical analyses, her work emphasizes lived experience and practical dilemmas.

Other authors may focus on philosophical frameworks or legal implications, but Belkin's investigative journalism-style approach bridges the gap between abstract principles and day-to-day realities. This makes her contributions especially valuable for healthcare practitioners, ethicists, and policymakers seeking to understand how ethical ideals translate into practice.

Pros and Cons of Belkin's Approach

- **Pros:**

- Humanizes ethical debates through storytelling.
- Provides nuanced insight into the complexities of patient care.
- Encourages empathy and ethical reflection among medical professionals.

- **Cons:**

- May lack prescriptive guidance for resolving ethical dilemmas.
- Focus on narrative can sometimes overshadow systemic analysis.
- Some readers might find the emotional intensity challenging.

Despite these limitations, the clarity and compassion embedded in Belkin's work significantly enrich the discourse on medical ethics.

The Continuing Relevance of "First Do No Harm Lisa Belkin" in Today's Medical Landscape

In an era marked by rapid medical advancements, from gene therapy to artificial intelligence diagnostics, the principle of "first do no harm" remains a crucial ethical anchor.

Belkin's examination of this principle provides valuable lessons for modern healthcare systems grappling with unprecedented challenges.

The COVID-19 pandemic, for example, spotlighted the delicate balance between public health measures and individual freedoms, the risks of experimental treatments, and the importance of transparent communication—all themes resonant with Belkin's insights. Her work reminds us that ethical vigilance and empathy must accompany technological innovation.

Moreover, as healthcare becomes increasingly patient-centered, Belkin's advocacy for informed consent and shared decision-making aligns with contemporary efforts to empower patients and respect their values.

In summary, the phrase "first do no harm" as explored by Lisa Belkin offers a profound, multifaceted investigation into the ethical heart of medicine. Her work challenges professionals and readers alike to confront uncomfortable truths, embrace complexity, and uphold compassion in the pursuit of healing.

first do no harm lisa belkin: First, Do No Harm Lisa Belkin, 2021-02-16 "Crammed with provocative insights, raw emotion, and heartbreaking dilemmas," (The New York Times) *First, Do No Harm* is a powerful examination of how life and death decisions are made at a major metropolitan hospital in Houston, as told through the stories of doctors, patients, families, and hospital administrators facing unthinkable choices. What is life worth? And when is a life worth living? Journalist Lisa Belkin examines how these questions are asked and answered over one dramatic summer at Hermann Hospital in Houston, Texas. In an account that is fascinating, revealing, and almost novelistic in its immediacy, Belkin takes us inside a major hospital and introduces us to the people who must make life and death decisions every day. As we walk through the hallways of the hospital we meet a young pediatrician who must decide whether to perform a risky last-ditch surgery on a teenager who has spent most of his fifteen years in a hospital; we watch as new parents battle with doctors over whether to disconnect their fragile, premature twins from the machine that keeps them breathing; we are in the operating room as a poor immigrant, paralyzed from a gunshot in the neck, is asked by doctors whether or not he wishes to stay alive; we witness the worry of a kidney specialist as he decides whether or not to transfer an uninsured baby to the county hospital down the road. We experience critical moments in the lives of these real people as Belkin explores challenging issues and questions involving medical ethics, human suffering, modern technology, legal liability, and financial reality. As medical technology advances, the choices grow more complicated. How far should we go to save a life? Who decides? And who pays?

first do no harm lisa belkin: *Finding the Narrow Path* Lin Wilder, 2016-08-30 Synopsis: Deciding to walk away from God did not come easily or quickly for Lin Wilder. Nor did the decision to return. As she explains: Exactly how much of my personal life should be included in this book has been a tough decision to make. This is, after all, the story of a conversion, not an autobiography. Many of my choices, judgments, and their consequences remain painful, even humiliating to revisit, writing them down, even more so. Initially, I questioned the relevance of describing elements of my career, education and relationships with men- in short, my pre-Catholic world in detail. Since I did not convert until midlife, there are a lot of territories to cover. But I realize that my use of the term 'lost years' makes no sense unless I place them squarely in the context of the person I was then. Without the details of my early life, unpleasant as they are to recall, much less write, this sense of drifting and of aimlessness are merely words which lack substance. They are unidimensional. In talks to church groups about life with and without my faith, I frequently used 'ground' while I stomped the floor I stood on, forcefully, as I worked to convey what is gained and lost with and without faith. Faith and all which accompanies religion like regular church attendance and a belief that there is something greater here, someone present, informs our decisions and choices, even our goals. Just so, its absence widens all boundaries. More and more is acceptable. This, at times, brutally honest story of the reasons for Wilder's walk away from God, then years later, return, cannot fail to provoke and challenge. Her decision to reveal intimate and painful details of the life lived during the years she refers to as 'lost' will cause even the most devoutly faithful reader to take a peek at the shadows of the self we hide from the world and from ourselves. Critique: An exceptionally candid account that is impressively well written, organized and presented, *Finding the Narrow Path: Patterns, Faith and Searching* is an inherently fascinating and consistently compelling account that is as informative and thoughtful as it is insightful and ultimately inspiring. While very highly recommended for Christian Studies reading lists, it should be noted that *Finding the Narrow Path* is also available in a Kindle format (\$6.99).

first do no harm lisa belkin: Show Me A Hero Lisa Belkin, 2015-08-18 NOW AN HBO MINISERIES Not in my backyard -- that's the refrain commonly invoked by property owners who oppose unwanted development. Such words assume a special ferocity when the development in question is public housing. Lisa Belkin penetrates the prejudices, myths, and heated emotions stirred by the most recent trend in public housing as she re-creates a landmark case in riveting detail, showing how a proposal to build scattered-site public housing in middle-class neighborhoods nearly destroyed an entire city and forever changed the lives of many of its citizens. -- Public housing projects are being torn down throughout the United States. What will take their place? Show Me a Hero explores the answer. -- An important and compelling work of narrative nonfiction in the tradition of J. Anthony Lukas's *Common Ground*. -- A sweeping yet intimate group portrait that assesses the effects of public policy on individual human lives.

first do no harm lisa belkin: Writing Active Setting Mary Buckham, 2014-02-03 Now get all three books of the WRITING ACTIVE SETTING series together, plus a bonus additional section on HOOKS! Have you tried to take your writing skills to the next level but don't know where to begin? Do you dread the thought of writing narrative description because as a reader you skip over it when you read novels? Or are you a writer who ignores Setting description totally in your novel writing—but know your story needs it? You just don't know where. Active Setting, explained in comprehensible bites with clear examples from a variety of published authors can help YOU breakthrough with your writing skills. Readers usually remember the plot and characters of a story, but setting is every bit as important in creating a memorable world. Novel writing can be enjoyable once you've mastered a few of the writing skills necessary to bring a story to life. If you're tired of your Setting descriptions being ho-hum and are ready to create a compelling story world, regardless of what you write, or your current level of writing skills, keep reading. In the WRITING ACTIVE SETTING series you will:

- Discover the difference between Ordinary Setting that bogs down your story, and Active Setting that empowers your story.
- See how to spin boring descriptions into engaging prose.
- Learn to deepen the reader's experience of your story world through sensory details.
- Notice how changing characters' POV can change your setting.
- Explore ways to maximize the setting possibilities in your story.
- Learn to use Setting to quickly anchor the reader into the world of your story.
- Use Setting as movement through space effectively.
- Explore Setting in a series.
- Learn the most common Setting pitfalls.

These books go straight to the point, putting theory in plain language, adding examples from authors in a variety of genres, and finishes each section with exercises designed to help you work with your Setting in a way that will excite you. . and your reader.

first do no harm lisa belkin: Hospital Julie Salamon, 2008-05-15 Man, Woman, Birth, Death, Infinity, Plus Red Tape, Bad Behavior, Money, God, and Diversity on Steroids A warts-and-all exploration of the struggles suffered and triumphs achieved by America's health-care professionals, *Hospital* follows a year in the life of Maimonides Medical Center in Brooklyn, which serves a diverse multicultural demographic. Unraveling the financial, ethical, technological, sociological, and cultural challenges encountered every day, bestselling author Julie Salamon tracks the individuals who make this complex hospital run—from doctors, patients, and administrators to nurses, ambulance drivers, cooks, and cleaners. Drawing on her skills as an award-winning interviewer, observer, and social critic, Salamon reveals the dynamic universe of small and large concerns and personalities that, taken together, determine the nature of care in America.

first do no harm lisa belkin: The Desperate Hours Marie Brenner, 2022-06-21 AWARD-WINNING VANITY FAIR WRITER Marie Brenner shares a remarkable depiction of New York—a city in crisis—based on new, behind-the-scenes reporting that captures the resilience, peril,

and compassion of the early days of the Covid pandemic. In the spring of 2020, COVID-19 arrived in New York City. Before long, America's largest metropolis was at war against a virus that mercilessly swept through its five boroughs. It became apparent that if Covid wasn't somehow halted, the death count in New York alone would be in the hundreds of thousands. And if New York's hospitals failed, what chance did the rest of the country have? Brenner, having been granted unprecedented 18-month access to the entire New York-Presbyterian hospital system, tells the story of the doctors, nurses, residents, researchers, and suppliers who tried to save lives across Manhattan, Queens, and Brooklyn and the northern periphery of the city. Drawing on more than 200 interviews, Brenner takes us inside secure ICU units, sealed operating rooms, locked executive suites, unknown basement workshops, and makeshift clinics to provide extraordinary witness to the war as it was waged on the front line. But *The Desperate Hours* is more than a thrilling account of medicine under extreme pressure. It is an intimate portrait of courageous men and women coming together in their devotion to duty, their families, each other, and the city they loved more than any other.

first do no harm lisa belkin: Traditional Storytelling Today Margaret Read MacDonald, 2013-12-16 *Traditional Storytelling Today* explores the diversity of contemporary storytelling traditions and provides a forum for in-depth discussion of interesting facets of contemporary storytelling. Never before has such a wealth of information about storytelling traditions been gathered together. Storytelling is alive and well throughout the world as the approximately 100 articles by more than 90 authors make clear. Most of the essays average 2,000 words and discuss a typical storytelling event, give a brief sample text, and provide theory from the folklorist. A comprehensive index is provided. Bibliographies afford the reader easy access to additional resources.

first do no harm lisa belkin: Looking for a Story Noel Rubinton, 2025-05-13 An annotated guide to the work of the Pulitzer Prize-winning writer, teacher, and pioneer of creative nonfiction John McPhee has been a staff writer for *The New Yorker* since 1965 and has written more than thirty acclaimed books that began on the magazine's pages. But few readers know or fully appreciate the true breadth of his writing. *Looking for a Story* is a complete reader's guide to McPhee's vast published work, documenting much rarely seen or connected with McPhee, including remarkable early writing for *Time* magazine published without his name. In chronicling McPhee's career where he broke ground applying devices long associated with fiction to the literature of fact, Noel Rubinton gives insights into McPhee's techniques, choice of subjects, and research methods, shedding light on how McPhee turns complicated subjects like geology into compelling stories. Beyond detailing more than seventy years of McPhee's writing, Rubinton recounts McPhee's half century as a Princeton University writing professor, a little known part of his legacy. McPhee inspired generations of students who wrote hundreds of books of their own, also catalogued here. With an incisive foreword by *New Yorker* staff writer and former McPhee student Peter Hessler, *Looking for a Story* also includes extensive annotated listings of articles about McPhee, reviews of his books, and interviews, readings, and speeches. Whether you are already an admirer of McPhee or new to his writings, this book provides an invaluable road map to his rich body of work.

first do no harm lisa belkin: The Language of Houses Alison Lurie, 2014-08-19 In 1981 Pulitzer Prize-winning novelist Alison Lurie published *The Language of Clothes*, a meditation on costume and fashion as an expression of history, social status and individual psychology. Amusing, enlightening and full of literary allusion, the book was highly praised and widely anthologized. Now Lurie has returned with a companion book, *The Language of Houses*, a lucid, provocative and entertaining look at how the architecture of buildings and the spaces within them both reflect and affect the people who inhabit them. Schools, churches, government buildings, museums, prisons, hospitals, restaurants, and of course, houses and apartments, all of them speak to human experience in vital and varied ways. *The Language of Houses* discusses historical and regional styles and the use of materials such as stone and wood and concrete, as well as contemplating the roles of stairs and mirrors, windows and doors, tiny rooms and cathedral-like expanses, illustrating its conclusions

with illuminating literary references as well as the comments of experts in the field. This book, which is accompanied by light-hearted original drawings by Karen Sung, is an essential and highly entertaining new contribution to the literature of modern architecture.

first do no harm lisa belkin: Care and Respect in Bioethics Darlei Dall'Agnol, 2016-09-23 This book discusses the philosophical foundations of bioethics, with a particular focus on the tensions and potential dilemmas generated by the intuitionist meta-ethical commitments of the predominant normative theory, namely "the four principles approach." This view is based on the prima facie norms of respect for autonomy (one ought to respect the autonomous choices of subjects of scientific research/patients), non-maleficence (one ought to refrain from inflicting harm), beneficence (one ought to do good and prevent, or remove, harm) and justice (one ought to treat people fairly). The tensions in applying these basic principles may lead to inaction in scientific experiments involving human subjects or to arbitrary applications of the norms in the art of caring. The problem can be made explicit in these terms: on the one hand, caring without respecting seems blind, degenerating into forms of paternalism when, for instance, the carer imposes her conception of the good life or a particular procedure on the cared-for; on the other hand, respecting without caring amounts to indifference or individualism when, for example, a person does not look after a vulnerable being properly. The initial hypothesis of this book, then, is that the concept of respectful care can be built up, working from an ethico-philosophical perspective, to be a leading notion capable of guiding our daily actions and bioethical practices.
