

pre algebra absolute value worksheets

Pre Algebra Absolute Value Worksheets: A Key to Building Strong Math Foundations

pre algebra absolute value worksheets play an essential role in helping students master the concept of absolute value, a fundamental idea in early algebra. Understanding absolute value sets the stage for more advanced topics like inequalities, coordinate planes, and eventually linear equations. These worksheets provide a structured and accessible way for learners to practice and internalize what absolute value means, and how it behaves in different mathematical contexts.

Whether you're a teacher searching for effective resources or a parent looking to support your child's math journey, pre algebra absolute value worksheets can be a game-changer. They offer varied exercises that cater to different learning styles and levels of mastery, ensuring that students build confidence and fluency with absolute value problems.

What is Absolute Value and Why Does It Matter?

Before diving into worksheets, it's helpful to revisit what absolute value means. In simple terms, the absolute value of a number is its distance from zero on the number line, regardless of direction. For example, the absolute value of both 5 and -5 is 5, because both are five units away from zero.

This concept is not only crucial in pre algebra but also in real-life scenarios such as measuring temperature differences, distances, or handling data that involve positive and negative values. Grasping absolute value helps students develop a stronger number sense and prepares them for more complex operations involving integers and rational numbers.

How Pre Algebra Absolute Value Worksheets Reinforce Learning

Pre algebra absolute value worksheets typically include a variety of problem types, such as:

- Finding the absolute value of given integers
- Solving equations that incorporate absolute value expressions
- Comparing absolute values to understand relative magnitudes
- Applying absolute value concepts in word problems

These worksheets encourage repetitive practice, which is vital when learning new math concepts. Through consistent exposure, students begin to recognize patterns, such as how absolute value strips away negative signs, or how to interpret absolute value expressions within equations.

Moreover, worksheets often come with visual aids like number lines, which provide a concrete representation of abstract ideas. This combination of visual and numerical practice helps solidify understanding.

Choosing the Right Pre Algebra Absolute Value Worksheets

Not all worksheets are created equal. Selecting the most effective ones involves considering the learner's current skill level and learning preferences. Here are some tips for choosing worksheets that maximize learning:

1. Progressive Difficulty Levels

Start with worksheets that focus solely on calculating absolute values of integers. Once students are comfortable, move on to worksheets that introduce absolute value equations and inequalities. Gradually increasing the difficulty helps learners build confidence without feeling overwhelmed.

2. Variety in Problem Types

Look for worksheets that combine numerical problems, word problems, and visual aids. This variety ensures that students can apply absolute value concepts in different contexts and strengthens their critical thinking skills.

3. Clear Instructions and Examples

Worksheets with step-by-step examples or guided practice sections allow students to understand the process before attempting problems independently. This scaffolding is particularly beneficial for students who struggle with abstract math concepts.

Integrating Absolute Value Worksheets into Learning Routines

Consistency is key when mastering pre algebra concepts. Incorporating absolute value worksheets into regular study sessions can create a routine that promotes steady progress.

Using Worksheets for Homework and Review

Assigning absolute value worksheets as homework gives students the opportunity to practice independently. Teachers can then review the completed work to identify areas where students may need additional support or clarification.

Incorporating Group Activities

Sometimes working through problems collaboratively can enhance understanding. Using worksheets in small groups or math centers allows students to discuss strategies, explain their reasoning, and learn from peers.

Supplementing with Interactive Tools

Many online platforms offer interactive absolute value exercises that complement printable worksheets. Combining hands-on worksheets with digital tools can engage students with different learning styles and keep practice sessions dynamic.

Tips for Parents and Educators Using Absolute Value Worksheets

Whether you're guiding your child through homework or teaching a classroom, here are some practical suggestions to get the most out of pre algebra absolute value worksheets:

- **Start with Conceptual Understanding:** Use number lines or physical objects to demonstrate what absolute value means before jumping into worksheets.
- **Encourage Verbal Explanation:** Have students explain their reasoning aloud when solving problems, reinforcing their grasp of the concept.
- **Celebrate Small Wins:** Positive reinforcement boosts confidence, especially when students successfully complete challenging worksheets.
- **Identify and Address Mistakes:** Review errors carefully to understand misconceptions and provide targeted support.
- **Integrate Real-Life Examples:** Relate absolute value to everyday situations, such as temperature changes or distance traveled, to make learning more relevant.

Expanding Skills Beyond Absolute Value

Mastering absolute value through worksheets is just one piece of the pre algebra puzzle. Once students feel comfortable with these concepts, they can explore related topics such as:

- Solving absolute value inequalities
- Graphing absolute value functions
- Understanding the distance formula on the coordinate plane

Pre algebra absolute value worksheets often serve as a springboard for these more advanced subjects, providing the confidence and foundational skills necessary for continued success in mathematics.

Engaging with a variety of worksheets and problem types ensures that learners don't just memorize procedures but truly comprehend the underlying mathematical ideas. This deep understanding is what ultimately empowers students to tackle more complex challenges with ease.

The journey through pre algebra is an exciting one, and absolute value is a critical milestone along the way. With the help of thoughtfully designed worksheets, students can build a solid foundation that supports their growth and enjoyment in math for years to come.

Frequently Asked Questions

What are pre algebra absolute value worksheets?

Pre algebra absolute value worksheets are educational resources designed to help students practice and understand the concept of absolute value, typically featuring problems that require evaluating the absolute value of numbers and expressions.

Why are absolute value worksheets important in pre algebra?

Absolute value worksheets are important because they help students grasp the concept of distance from zero on the number line, which is fundamental for solving equations and inequalities in pre algebra.

What types of problems are included in pre algebra absolute value worksheets?

These worksheets usually include problems such as finding the absolute value of integers and decimal numbers, solving absolute value equations and inequalities, and applying absolute value in word problems.

Are there free pre algebra absolute value worksheets available online?

Yes, many educational websites offer free printable and interactive pre algebra absolute value worksheets that teachers and students can use for practice.

How can teachers use absolute value worksheets effectively in the classroom?

Teachers can use these worksheets to provide guided practice, assess student understanding, and reinforce concepts through homework or in-class activities.

Do pre algebra absolute value worksheets include real-world applications?

Many worksheets incorporate real-world scenarios, such as calculating distances or temperature differences, to help students understand how absolute value applies outside of math problems.

What grade levels typically use pre algebra absolute value worksheets?

Absolute value worksheets are generally used in grades 6 through 8, aligning with middle school pre algebra curricula.

How can students improve their skills using absolute value worksheets?

Students can improve by regularly practicing a variety of problems, reviewing mistakes, and using worksheets that progressively increase in difficulty.

Are there interactive or digital pre algebra absolute value worksheets available?

Yes, many educational platforms offer interactive digital worksheets that provide instant feedback, making learning absolute value more engaging for students.

Additional Resources

Pre Algebra Absolute Value Worksheets: An In-Depth Review and Analysis

pre algebra absolute value worksheets serve as essential tools in reinforcing foundational mathematical concepts for students transitioning from basic arithmetic to more abstract algebraic thinking. These worksheets, designed specifically to target the understanding of absolute value, are widely utilized by educators and parents alike to facilitate comprehension and practice. Given the critical role absolute value plays in pre algebra curricula, evaluating the effectiveness, variety, and pedagogical value of these worksheets is crucial for optimizing learning outcomes.

Understanding the Role of Pre Algebra Absolute Value Worksheets

Absolute value, a fundamental concept in pre algebra, represents the distance of a number from zero on the number line, regardless of direction. This seemingly simple idea forms the basis for more complex algebraic operations and problem-solving skills. Worksheets focusing on absolute value provide structured practice that helps students internalize this concept through a range of exercises, from basic computations to real-world applications.

Pre algebra absolute value worksheets typically include problems such as evaluating the absolute value of integers, solving absolute value equations, and interpreting absolute value in word problems. Their scope can vary widely depending on the educational level targeted, from introductory exercises for middle school students to more challenging problems for advanced learners.

Features and Varieties of Absolute Value Worksheets

When analyzing pre algebra absolute value worksheets, several key features stand out that influence their effectiveness:

1. Diversity of Problem Types

A well-constructed worksheet will include a mix of problem formats, such as:

- Simple numeric evaluation (e.g., $|-7|$, $|3|$)
- Absolute value inequalities and equations (e.g., $|x - 5| = 3$)
- Word problems that contextualize absolute value in real-life scenarios
- Graphical interpretations on a number line

This diversity ensures that students not only practice computational skills but also develop conceptual understanding and application abilities.

2. Gradation of Difficulty

Effective worksheets progressively increase in difficulty, starting with straightforward calculations and advancing toward multi-step problems. This scaffolding approach aligns well with cognitive development theories and helps maintain student engagement by providing achievable challenges.

3. Inclusion of Visual Aids

Some worksheets incorporate diagrams, number lines, or color-coded elements to aid visual learners. Visual representation of absolute value enhances comprehension by linking numerical concepts to spatial understanding.

4. Alignment with Curriculum Standards

Worksheets that adhere to Common Core or other relevant standards ensure that the content is appropriate for the intended grade level and supports standardized testing preparation.

Comparing Popular Sources of Pre Algebra Absolute Value Worksheets

The market for educational resources offers numerous options for absolute value practice materials. Comparing these can provide insight into their respective strengths and potential drawbacks.

Online Educational Platforms

Websites such as Khan Academy, IXL, and Math-Aids.com provide free or subscription-based worksheets with interactive elements. These platforms often offer instant feedback and adaptive difficulty, which can be advantageous for personalized learning. However, access to these resources may require reliable internet connectivity and sometimes a paid subscription.

Printable Worksheets from Educational Publishers

Traditional printed worksheets from publishers like Scholastic or Spectrum tend to focus on offline practice. Their strength lies in structured lesson plans and alignment with school curricula. The downside is less flexibility compared to digital resources and potentially limited interactivity.

Teacher-Created Custom Worksheets

Educators often tailor worksheets to suit their students' specific needs, integrating unique problem sets and pacing. Custom worksheets can directly address areas where students struggle, but they require more preparation time and expertise.

Advantages of Using Pre Algebra Absolute Value Worksheets

The pedagogical benefits of these worksheets are numerous and well-documented:

- **Reinforcement of Concepts:** Regular practice solidifies understanding of absolute value as a numerical and geometric concept.

- **Skill Building:** Worksheets enhance computational fluency and problem-solving skills.
- **Assessment Tool:** Teachers can use worksheets to identify misconceptions and adjust instruction accordingly.
- **Flexibility:** Worksheets can be used in classroom settings, homework, or tutoring sessions.
- **Preparation for Higher Math:** Mastery of absolute value is foundational for algebra, calculus, and beyond.

Potential Limitations and Considerations

Despite their utility, there are considerations to keep in mind when relying on pre algebra absolute value worksheets:

1. Risk of Rote Learning

Overemphasis on repetitive problem-solving can lead to memorization without true comprehension. Worksheets should be supplemented with conceptual discussions and hands-on activities.

2. Varying Student Engagement

Some learners may find worksheets monotonous, necessitating the incorporation of interactive or gamified elements to maintain motivation.

3. Accessibility Issues

Students with learning disabilities may require differentiated materials or alternative teaching strategies beyond standard worksheets.

Strategies for Maximizing the Effectiveness of Absolute Value Worksheets

To fully leverage the benefits of pre algebra absolute value worksheets, educators and parents might consider the following approaches:

1. **Integrate Different Modalities:** Combine worksheets with visual aids, manipulatives, and digital tools to cater to diverse learning styles.

2. **Encourage Critical Thinking:** Include open-ended questions and real-world problems that require explanation and reasoning.
3. **Provide Immediate Feedback:** Use digital platforms or guided review sessions to correct errors promptly.
4. **Customize Difficulty Levels:** Adapt worksheets to individual student progress to avoid frustration or boredom.
5. **Foster Collaborative Learning:** Promote group activities where students solve absolute value problems together.

The Future of Pre Algebra Absolute Value Practice

As educational technology advances, the landscape of absolute value instruction is evolving. Interactive worksheets with adaptive algorithms and instant analytics are becoming more prevalent, offering personalized learning experiences that traditional paper worksheets cannot match. Nonetheless, the fundamental value of well-designed pre algebra absolute value worksheets remains, especially when integrated thoughtfully into a comprehensive math curriculum.

In summary, pre algebra absolute value worksheets encompass a broad spectrum of resources that, when effectively utilized, significantly enhance students' grasp of absolute value concepts. Their diverse formats, alignment with educational standards, and adaptability make them indispensable tools in the pre algebra toolkit. However, balancing worksheet use with interactive, conceptual, and individualized instruction is key to fostering deep and lasting mathematical understanding.

pre algebra absolute value worksheets: Arithmetic and Pre-Algebra in 30 Days Reza Nazari, Ava Ross, 2018-07-06 The Best Book to Prepare for Arithmetic and Pre-Algebra Exam! The goal of this book is simple. It will help you incorporate the best method and the right strategies to prepare for the Arithmetic and Pre-Algebra exam FAST and EFFECTIVELY. Arithmetic and Pre-Algebra in 30 Days helps you learn all Math topics that you will need to prepare for the Arithmetic and Pre-Algebra exam. You only need to spend about 90-120 minutes daily in your 30-day period in order to ace the Arithmetic and Pre-Algebra exam. This book with more than 2,500 math questions is all you will ever need to fully prepare for the Arithmetic and Pre-Algebra. Arithmetic and Pre-Algebra in 30 Days provides students with the confidence and math skills they need to succeed on the Arithmetic and Pre-Algebra exams, providing a solid foundation of basic Math topics

with abundant exercises for each topic. It is designed to address the needs of Arithmetic and Pre-Algebra takers who must have a working knowledge of basic Math. Whether you are intimidated by math, or even if you were the first to raise your hand in the Math classes, this book can help you accelerate the learning process and put you on the right track. Inside the pages of this comprehensive book, students can learn basic math operations in a structured manner with a complete study program to help them understand essential math skills. It also has many exciting features, including: Dynamic design and easy-to-follow activities Step-by-step guide for all Math topics Targeted, skill-building practices A fun, interactive and concrete learning process Math topics are grouped by category, so you can focus on the topics you struggle on All solutions for the exercises are included, so you will always find the answers Arithmetic and Pre-Algebra in 30 Days is for all Arithmetic and Pre-Algebra course takers. It is a breakthrough in Math learning - offering a winning formula and the most powerful methods for learning basic Math topics confidently. Each section offers step-by-step instruction and helpful hints, with a few topics being tackled each day. Effortlessly and confidently follow the step-by-step instructions in this book to prepare for the Arithmetic and Pre-Algebra in a short period of time. Arithmetic and Pre-Algebra in 30 Days is the only book you'll ever need to master Basic Math topics! It can be used as a self-study course - you do not need to work with a Math tutor. (It can also be used with a Math tutor). You'll be surprised how fast you master the Math topics covering on Arithmetic and Pre-Algebra. Ideal for self-study as well as for classroom usage. Published by: Effortless Math Education www.EffortlessMath.com

pre algebra absolute value worksheets: Pre-Algebra Exercise Book 2020-2021 Reza nazari, Ava Ross, 2020-03-23 A PERFECT Math workbook for the Pre-Algebra course! Pre-Algebra Exercise Book 2020-2021 represents extensive exercises, math problems, sample Pre-Algebra questions, and quizzes with answers to help you hone your math skills, overcome your exam anxiety, boost your confidence—and do your best to ace the Pre-Algebra course. The surest way to succeed on the Pre-Algebra course is with intensive practice in every math concept tested—and that's what you will get in Pre-Algebra Exercise Book 2020-2021. Not only does this comprehensive exercise book review all math topics you will need to defeat the Pre-Algebra test, but it also offers numerous sample Pre-Algebra questions and quizzes to help you check your exam-readiness and identify where you need more practice. This comprehensive exercise book for the Pre-Algebra contains many exciting and unique features to help you improve your test scores, including: Content 100% aligned with the 2020 Pre-Algebra Complete coverage of all Pre-Algebra concepts and topics which you will be tested Numerous Pre-Algebra practice questions in both multiple-choice and grid-in formats with answers grouped by topic, so you can focus on your weak areas Pre-Algebra Exercise Book 2020-2021 and other Effortless Math Education books are used by thousands of test-takers each year to help them review core content areas, brush-up in math, discover their strengths and weaknesses, and achieve their best scores on the Pre-Algebra test. Recommended by Test Prep Experts Visit www.EffortlessMath.com for Online Math Practice

pre algebra absolute value worksheets: Pre-Algebra Workbook Michael Smith, 2020-08-18 Prepare for the Pre-Algebra with a Perfect Workbook! Pre-Algebra Workbook is a learning workbook to prevent learning loss. It helps you retain and strengthen your Math skills and provides a strong foundation for success. This Pre-Algebra book provides you with solid foundation to get a head starts on your upcoming Pre-Algebra Test. Pre-Algebra Workbook is designed by top math instructors to help students prepare for the Pre-Algebra course. It provides students with an in-depth focus on the Pre-Algebra concepts. This is a prestigious resource for those who need an extra practice to succeed on the Pre-Algebra test. Pre-Algebra Workbook contains many exciting and unique features to help you score higher on the Pre-Algebra test, including: Over 2,500 Pre-Algebra Practice questions with answers Complete coverage of all Math concepts which students will need to ace the Pre-Algebra test Two Pre-Algebra practice tests with detailed answers Content 100% aligned with the latest Pre-Algebra courses This Comprehensive Workbook for the Pre-Algebra is a perfect resource for those Pre-Algebra takers who want to review core content areas, brush-up in math, discover their strengths and weaknesses, and achieve their best scores on the Pre-Algebra test. pre algebra absolute value worksheets: Worksheets to Accompany Prealgebra K. Elayn Martin-Gay, 2007-07-19

pre algebra absolute value worksheets: Pre-Algebra Michael Smith, 2021-02-01 Get the Targeted Practice You Need to Ace the Pre Algebra Exam! Pre-Algebra for Grade 6 and 7, includes easy-to-follow instructions, helpful examples, and plenty of algebraic practice problems to assist students to master each concept, brush up on their problem-solving skills, and create confidence. The Pre-Algebra practice book provides numerous opportunities to evaluate basic skills along with abundant remediation and intervention activities. It is a skill that permits you to quickly master intricate information and produce better leads in less time. Students can boost their test-taking skills by taking the book's two practice college algebra tests. All test questions answered and explained in detail. Important Features of the Pre-Algebra Book: A complete review of pre-algebra exam topics, Over 2,500 practice problems covering all topics tested, The most important concepts you need to know, Clear and concise, easy-to-follow sections, Well designed for enhanced learning and interest, Hands-on experience with all question types, 2 full-length practice tests with detailed answer explanations, Cost-Effective Pricing, Powerful algebra exercises to help you avoid traps and pacing yourself to beat the Pre-Algebra exam. Students will gain valuable experience and raise their confidence by taking pre-algebra practice tests, learning about test structure, and gaining a deeper understanding of what is tested in pre-algebra. If ever there was a book to respond to the pressure to increase students' exam scores, this is it. Published By: The Math Notion www.mathnotion.com

pre algebra absolute value worksheets: Arithmetic and Pre-Algebra in 7 Days Reza Nazari, Ava Ross, 2018-07-01 The Best Book to Prepare for Arithmetic and Pre-Algebra Exam! The goal of this book is simple. It will help you incorporate the best method and the right strategies to prepare for the Arithmetic and Pre-Algebra exam FAST and EFFECTIVELY. Arithmetic and Pre-Algebra in 7 Days is full of specific and detailed material that will be key to succeeding on the Arithmetic and Pre-Algebra course. It's filled with the critical math concepts a student will need in order to ace the exam. Math concepts in this book break down the topics, so the material can be quickly grasped. Examples are worked step-by-step, so you learn exactly what to do. Arithmetic and Pre-Algebra in 7 Days helps you to focus on all Math topics that you will need to prepare for the Arithmetic and Pre-Algebra exam. You only need to spend about 4 - 6 hours daily in your 7-day period in order to be well prepared for the exam. This book with more than 2,500 questions is all you will ever need to fully prepare for the Arithmetic and Pre-Algebra Course. This workbook includes easy-to-read essential summaries that highlight the key areas of the Arithmetic and Pre-Algebra. Effortless Math workbook study guide reviews the most important components of the Arithmetic and Pre-Algebra course. Anyone planning to take the Arithmetic and Pre-Algebra course should take advantage of the review material and practice test questions contained in this study guide. Whether you are intimidated by math, or even if you were the first to raise your hand in the Math classes, this book can help you accelerate the learning process and put you on the right track. Inside the pages of this workbook, students can learn basic math operations in a structured manner with a complete study program to help them understand essential math skills. pre algebra absolute value worksheets: *Homeschool Your Child for Free* LauraMaery Gold, Joan M. Zielinski, 2009-08-04 For Families Who Want to Splurge on Education but Scrimp on Spending Are you considering homeschooling your child, but don't know where to go for the best educational resources? The Internet is an open door to the biggest library/laboratory the world has ever seen—and it's all at your fingertips for free! This never-ending source of information, adventure, and educational experiences for the entire family is now compiled in a complete curriculum for any age in *Homeschool Your Child for Free*. This invaluable guide to all the best in free educational material—from reading-readiness activities for preschoolers to science projects for teens—categorizes, reviews, and rates more than 1,200 of the most useful educational resources on the Internet and beyond. You'll discover:

- Legal guidelines and compliance requirements for home educators
- Complete curriculum plans for a comprehensive education, for preschool through high school
- Online lesson plans arranged by subject, from American history to zoology
- Teaching tips and motivators from successful homeschoolers
- And much, much more!

Wow! Everything I have been trying to organize—all in one book! This is going to be part of my resource library for the support group I lead. Thanks, ladies.—Kimberly Eckles, HIS Support Group Leader, Home Instructors I'm impressed! There are more sites and links than I knew existed. A great resource for homeschoolers.—Maureen McCaffrey, publisher Homeschooling Today

pre algebra absolute value worksheets: *Differentiated Instructional Strategies for the Block Schedule* Gayle H. Gregory, Lynne E. Herndon, 2010-06-28 This is an incredible resource for teachers interested in ways to use best practices in planning for differentiation. The highly readable text is packed with user-friendly strategies for incorporating formative and summative assessments, brain-compatible learning, backward design lesson planning, and more. I will pick up this book again and again! —Jodi Mulholland, Principal Stonybrook School, Kinnelon, NJ The checklist for reviewing and analyzing curriculum maps is powerful, giving teachers guidance on differentiating instruction while teaching on the block. —Delphia Young, Coordinator of Special Projects Clayton County Public Schools, Jonesboro, GA Fill in the blocks with time-tested tips and tools! Block scheduling offers a valuable opportunity to tailor differentiated teaching and learning styles to students. Extended time also opens the door for exploring concepts, independent study, group work, and collaboration. This handy reference will alleviate idea block and provide creative teaching strategies. Gayle H. Gregory and Lynne E. Herndon provide in-depth coverage of best practices in Differentiated Instructional Strategies for the Block Schedule along with a full range of visual, auditory, tactile, and kinesthetic learning opportunities. Highlights include: Strategies to help all learners succeed Information on

learning styles, multiple intelligences, data-driven and standards-based lesson planning, teaching methods, and curriculum alignment More than 100 planning tools, matrixes, rubrics, templates, graphic organizers, and choice boards Teachers will find a wealth of practical tips and proven research-based teaching strategies that maximize learning during the block.

pre algebra absolute value worksheets: Worksheets and Study Guide for Kaufmann/Schwitters' Algebra for College Students Kay Haralson, 2000

pre algebra absolute value worksheets: *Preparing Quality Teachers* Drew Polly, Eva Garin, 2022-03-01 National and international teacher education organizations and scholars have called for an increased emphasis on clinical practice in educator preparation programs. These recommendations include specific efforts to increase the duration, diversity, and quality of experiences that teacher candidates engage in during their time in P-12 schools while earning their teaching license. This book includes a robust set of chapters that include conceptual, theoretical, and empirical chapters related to innovative approaches in clinical practice in educator preparation. Authors include teacher educators from around the United States and Canada from a variety of types of higher education institutions. The book provides readers with examples, evidence, and ideas to thoughtfully consider their future direction in examining, planning, and implementing clinical practice experiences for teacher candidates.

pre algebra absolute value worksheets: *Resources in Education* , 2001

pre algebra absolute value worksheets: *School Library Journal* , 1990-07

pre algebra absolute value worksheets: *The Software Encyclopedia 2000* Bowker Editorial Staff, 2000-05

pre algebra absolute value worksheets: *Intermediate Accounting, Analyzing and Solving Intermediate Accounting Problems Using Excel* Donald E. Kieso, Jerry J. Weygandt, Terry D. Warfield, 2000-09-22 Over thirty years and ten best-selling editions, Kieso and Weygandt have built a reputation for accuracy and comprehensiveness. The latest edition, a personal milestone for the authors maintains the qualities for which previous editions have been recognized.

pre algebra absolute value worksheets: *Math Instruction for Students with Learning Problems* Susan Perry Gurganus, 2017-02-24 Math Instruction for Students with Learning Problems, Second Edition provides a research-based approach to mathematics instruction designed to build confidence and competence in pre- and in-service PreK-12 teachers. This core textbook addresses teacher and student attitudes toward mathematics, as well as language issues, specific mathematics disabilities, prior experiences, and cognitive and metacognitive factors. The material is rich with opportunities for class activities and field extensions, and the second edition has been fully updated to reference both NCTM and CCSSM standards throughout the text and includes an entirely new chapter on measurement and data analysis.

pre algebra absolute value worksheets: *Activities for Implementing Curricular Themes from the Agenda for Action* Christian R. Hirsch, 1986 A collection of 30 activities that were printed in the journal, Mathematics teacher and align with NTCM's recommendations titled, Agenda for action.
