Probleme, Perspektiven und Anstöße für die Unterrichtspraxis Thomas Martin Buck, Nicola Brauch, 2011 Dieser Band geht auf ein Mittelalter-Symposium zurück, das im September 2009 an der Pädagogischen Hochschule Freiburg stattfand. Die Tagung verfolgte das Ziel, einen Dialog zwischen den verschiedenen historischen Disziplinen, die sich mit der Epoche des Mittelalters an Schule, Hochschule und Universität befassen, einzuleiten. Die Beiträge werfen Streiflichter auf eine Epoche, die in der öffentlichen Wahrnehmung eine prominente Rolle spielt. Das Feld der populären Geschichtskultur ist im Falle des Mittelalters mittlerweile so groß und unüberschaubar geworden, dass man es kaum noch ausreichend zu erfassen und abzubilden vermag. Es reicht vom historischen Roman bis zum Computerspiel, Kino, Comic und Spielzeug. Der Rezeption und Adaption sind nahezu keine Grenzen gesetzt. Der Band zeigt die Möglichkeiten, aber auch die Grenzen des Umgangs mit der mittelalterlichen Populärkultur in Hochschule, Schule und Unterricht auf. Deutlich wird, dass die populäre Aufbereitung des Mittelalters ein geschichtswissenschaftliches und -didaktisches Potential birgt, das bisher weder angemessen analysiert noch erschlossen ist. Die moderne

Mediävistik kann jedenfalls nicht umhin, sich mit den Geschichtsinszenierungen der Populärkultur intensiver zu befassen.

Bull, 2005-09-27 This book is aimed at students coming to the study of western European medieval history for the first time, and also graduate students on interdisciplinary medieval studies programmes. It examines the place of the Middle Ages in modern popular culture, exploring the roots of the stereotypes that appear in films, on television and in the press, and asking why they remain so persistent. The book also asks whether 'medieval' is indeed a useful category in terms of historical periodization. It investigates some of the particular challenges posed by medieval sources and the ways in which they have survived. And it concludes with an exploration of the relevance of medieval history in today's world.

This book provides a convenient, readable introduction to campus legends. While the volume focuses primarily on legends, it also explores rumors, pranks, rituals, and other related folklore types. The book begins with an overview of college and university folklore. This is followed by a discussion of particular types of legends and other folklore genres. The handbook then presents some 50 examples of college and university legends, including ghost stories, urban legends, food lore, drinking tales, murders and suicides, and many others. These examples are accompanied by brief comments. The book next surveys scholarship on campus folklore and discusses the place of college and university legends in films, television, literature, and popular culture. timeline michael crichton: Modernist Time Ecology Jesse Matz, 2018-12-03 A new view of the way modernist fiction writers tried to solve the problem of time. Do our fictions transform time? Do they cultivate the temporal environment? Such was the hope—or the fantasy—at work in many modernist novels for which time was not only the major subject but also an object of reparative aspiration. Aimed at a kind of stewardship of time, these fictions constitute a practice of modernist time ecology: an effort to restore those landscapes of time that have been thrown into crisis by modernity. In *Modernist Time Ecology*, Jesse Matz redefines temporal experimentation in central writers like Proust, Mann, Woolf, Ellison, and Cather, who developed literary forms to cultivate, restore, and enrich the temporal environment. He brings fresh attention to others who best exemplify this ecological motive, arguing that E. M. Forster, J. B. Priestley, and V. S. Naipaul are leading figures in this practice of temporal redress. Matz also reveals how contemporary film, social media movements, and public service efforts show what has become of the modernist interest in temporal stewardship. Matz combines an array of disciplines—including narrative theory, sociology, phenomenology, cognitive psychology, film studies, queer theory, and environmental studies—to theorize and explain the rationale and the limits to the idea that time might be subject to textual cultivation. *Modernist Time Ecology* is a deeply interdisciplinary book that changes what we think literature and the arts can do for the world at large.
