gary oldman and winona ryder: *Die Vielen Leben des Tom Waits* Patrick Humphries, 2010-05-05 Auch nach 20 Alben und einer Legion begeisterter Fans hört der unbeirrbar Waits nicht auf, immer wieder neue, mal zärtlich poetische, mal raue wüste Songs voll magischer Faszination zu produzieren, die andere Pop-Artisten wie Bruce Springsteen, Rod Stewart, The Eagles, Elvis Costello, Meat Loaf, The Ramones und Johnny Cash reizen, diese in eigenen Versionen zu interpretieren. Der spröde und aufrichtige Sänger, Komponist und Gelegenheitsschauspieler mit der rauhen Reibeisenstimme hat eine der ungewöhnlichsten Karrieren der Popmusik hinter sich. Diese Biographie wird ihm in jeder Hinsicht gerecht. Dieses Buch ist ein gründlicher und kritischer Überblick über Leben und Werk mit vollständiger Discographie und Filmographie. Patrick Humphries schreibt seit 1976 über Pop Musik. Seither hat er zahllose Bücher, unter anderem über Nick Drake, Richard Thomson und Paul Simon geschrieben. Als Journalist arbeitete er für den New Musical Express, The Times, Mojo und den Guardian.

gary oldman and winona ryder: Geschichte der Vampire und der mit ihnen verwandten Wesen Nicolaus Equiamicus, 2024-11-20 Vor rund 300 Jahren trafen schier unglaubliche Nachrichten in den deutschen Staaten ein: Im von den Österreichern besetzten Serbien standen Tote aus ihren Gräbern auf um den Lebendigen nachzustellen und ihnen bis auf den Tod das Blut auszusaugen - diese wurden dann selbst wiederum zu Vampiren, wie die Einheimischen jene dämonischen Wesen nannten. Von militärbehördlichen Stellen untersucht, kam man nicht weniger als zu dem Schluß, daß diese Vorgänge tatsächlich real seien: Die verdächtigen Leichname wurden exhumiert, und nach Feststellung der vampirischen Merkmale exekutiert... Ein akademischer Streit, vornehmlich an deutschen Universitäten entbrannte über diesen Gegenstand; der blutsaugende Untote wurde bekannt in allen Gesellschaftsschichten und fand schließlich in der Romantik seinen Eingang auch in die Literatur und Musik. Heute ist der Vampir aus Buch und Film nicht mehr wegzudenken: Grausames Ungeheuer, zweifelnder Melancholiker, charmanter Gentleman - was ist er nicht alles geworden? Der Vampir als Spiegel unserer selbst? Und in der Tat: Was wäre das für eine Welt ohne Vampire? Das vorliegende Werk nun befaßt sich vornehmlich mit den historisch dokumentierten Fällen von echtem Vampirismus ebenso wie mit den Aussagen der wissenschaftlichen Kontroverse im Laufe der Jahrhunderte darüber; es wird der Ursprung der Vampire und ihrer Verwandten, der Lamien, Empusen, Wiedergänger und Nachzehrer ergründet, ferner auch die literarisch-filmische Verwertung des Vampirs behandelt. Das Buch stützt sich daher in großen Teilen auf originale Dokumente, und ist so, in diesem Sinne, auch eine kommentierte, chronologisch geordnete Quellensammlung, in welcher die maßgeblichsten erhaltenen handschriftlichen Zeugnisse und Drucke aus vier Jahrhunderten zu diesem Thema enthalten sind.

Mit grausamem Kalkül umzirkelt sie das Machtgefüge der Geschlechter in Martha; mit schwebender Eleganz umrundet sie die Tanzpaare in Age of Innocence. Ballhaus gehört zu den wenigen deutschen Kameramännern, denen der Sprung nach Hollywood gelungen ist. Aus der Zusammenarbeit mit Fassbinder und Scorsese sowie anderen Regisseuren wie Schlöndorff und Petersen ist ein umfangreiches und vielseitiges Werk hervorgegangen, das einen weiten Bogen spannt. Die Autoren des Heftes fragen danach, was Ballhaus von anderen Filmemachern gelernt hat, und was andere Filmemacher von Ballhaus lernen können. Sie nehmen das Verhältnis von Affekt und Bewegung, Figur und Raum, Farbe und Licht in den Blick. Und sie beleuchten das gestaltende Zusammenspiel von Bildfindung und Erzählung.

gary oldman and winona ryder: Medieval and Early Modern Film and Media R. Burt, 2016-04-30 Medieval and Early Modern Film and Media contextualizes historical films in an innovative way - not only relating them to the history of cinema, but also to premodern and early modern media. This philological approach to the (pre)history of cinema engages both old media such as scrolls, illuminated manuscripts, the Bayeux Tapestry, and new digital media such as DVDs, HD DVDs, and computers. Burt examines the uncanny repetitions that now fragment films into successively released alternate cuts and extras (footnote tracks, audiocommentaries, and

documentaries) that (re)structure and reframe historical films, thereby presenting new challenges to historicist criticism and film theory. With a double focus on recursive narrative frames and the cinematic paratexts of medieval and early modern film, this book calls our attention to strange, sometimes opaque phenomena in film and literary theory that have previously gone unrecognized.

gary oldman and winona ryder: *Hitler's Doubles* Peter Fotis Kapnistos, 2015-04-08 Was the brutal dictator of the 20th century the masked instrument of a double image delusion? Recently released war records reveal political decoys (doppelgangers or body-doubles). It is documented that the Nazi Fuhrer vetted at least four doubles. Look-alikes and crisis actors were used to impersonate Hitler in order to draw attention away from him and to deal with risks on his behalf. *Hitler's Doubles* details their names, their peacetime occupations, their deaths, and an escape to South America. Cold War II Revision: (Trump-Putin Summit) The Cold War II Revision [2018] is a reworked and updated account of the original 2015 "Hitler's Doubles" with an improved Index. Ascertaining that Hitler made use of political decoys, the chronological order of this book shows how a Shadow Government of crisis actors and fake outcomes operated through the years following Hitler's death -- until our time, together with pop culture memes such as "Wunderwaffe" climate change weapons, Brexit Britain, and Trump's America. (More Russians now have encouraging sentiments toward the U.S. for the first time since 2014.) "Hitler's Doubles" covers modern world history events from WWII until today: The assassination of JFK, the Watergate scandal, the Iran hostage crisis, the Iran-Contra affair, the collapse of the Soviet Union, the attacks of 9/11, the appearance of the Islamic State -- with their cloaked backing of ex-Nazi interests. "Hitler's Doubles" includes much more information than its enigmatic title implies. This document is presented as a series of news articles in book form. Some material is repeated or revised. Many photos date back to pre-war times. (Italic text depicts a what-if scenario analysis by the author.) Thanks to author Fritz Springmeier & biographer William Cross who advised an update. This was fascinating... You seem to have found something important! (John Kiriakou, former CIA officer and anti-torture whistleblower, author of *Doing Time Like A Spy*.) An entire Grand Unified Conspiracy Theory of the Third Reich... This book covers it all. (Christian Ankerstjerne, Forum Staff, *Axis History*.) WOW! That is one heck of a book... Your book lends proof that Adolf Hitler did not kill himself in the Bunker nor did Eva... (Harry Cooper, author of *Hitler in Argentina*.) Wow. Your book just overwhelmed me and caught me by surprise as to what it got into. I wasn't expecting that... You've done a tremendous amount of research here to document a unique aspect of World War II history... This book will blow your mind and give you a more in-depth perspective of various historical events. (David Allen Rivera, author of *Final Warning: A History of the New World Order*.) Excellent reference book. (A Verified UK Purchase Customer Review) Four Stars. It's very interesting. (A Verified USA Purchase Customer Review) [The author] offers a summary at the end about each double. The information regarding the doubles is very good. However, the evidence is very persuasive that Hitler did escape. (A Verified USA Purchase Customer Review) The world's first donor artificial insemination was with the wife of a Quaker in the late 1800s. Who was the top-secret paternal donor? Was the Quaker-son secret agent Aleister Crowley one of Adolf Hitler's doubles? Why did Walt Disney make use of Nazi scientists to build space technology after he visited South America? *Hitler's Doubles* covers modern world history events from WWII until today: The assassination of JFK, the Watergate scandal, the Iran hostage crisis, the Iran-Contra affair, the collapse of the Soviet Union, the attacks of 9/11, the appearance of the Islamic State -- with their cloaked backing of ex-Nazi interests. *Hitler's Doubles* includes much more information than its enigmatic title implies. gary oldman and winona ryder: Die Faszination des Bösen. Joachim Valentin, Karsten Visarius, 2022-05-01 Das Böse ist ein unerschöpfliches Thema, auch im Film. Es ist der unerlässliche Gegenpart des Guten in jedem Drama; es zieht immer wieder das Interesse auf sich wie in den filmischen Auseinandersetzungen mit Geschichte und Politik; es prägt ganze Genres wie den Vampirfilm oder den film noir; es verkörpert sich in faszinierenden Charakteren und verspricht Aufschluss über Gott und die Welt. Es fordert uns zu Bewertungen auf und zu Umwertungen, es löst Schrecken und Schauern aus und Erleichterung nach seiner Überwindung, es stößt uns ab und es zieht uns an. Manche Regisseure sind immer wieder auf das Böse zurückgekommen, haben seine Rätsel zu lösen versucht oder neue Rätsel ersonnen. Gestalten der Vergangenheit oder der Gegenwart, der Fantasie oder des Glaubens sind zu Inbildern des Bösen geworden, und nicht wenig, was einst mit gutem Gewissen geschah, ist inzwischen umgewertet worden. Der vorliegende Band präsentiert an einzelnen Filmen, Werkkomplexen und Regisseuren ein breites Spektrum von Figuren, Typen und Themen des Bösen und verbindet dabei filmanalytische und filmhistorische, philosophische und theologische Ansätze. Er ist entstanden aus den Vorträgen einer ökumenischen Veranstaltungsreihe im Haus am Dom in Frankfurt/M, die durch zusätzliche Texte ergänzt wurden.

But it'll be the stories behind them, which few have heard—of Peter Fang's ingenuity and his early adventures in the kitchen, how he imported and adapted his favorite Shanghai dishes for America, and Kathy's experience growing up with parents who bet it all on the restaurant, under the tutelage of all these rich Chinese culinary traditions—that will capture the heart.

gary oldman and winona ryder: The Literary Monster on Film Abigail Burnham Bloom, 2014-01-10 Many monsters in Victorian British novels were intimately connected with the protagonists, and representative of both the personal failings of a character and the failings of the society in which he or she lived. By contrast, more recent film adaptations of these novels depict the creatures as arbitrarily engaging in senseless violence, and suggest a modern fear of the uncontrollable. This work analyzes the dichotomy through examinations of Shelley's *Frankenstein*, Stoker's *Dracula*, H. Rider Haggard's *She*, Stevenson's *Strange Case of Dr. Jekyll and Mr. Hyde* and Wells's *The Island of Dr. Moreau*, and consideration of the 20th century film adaptations of the works.

gary oldman and winona ryder: Postmodern Ethics, Emptiness, and Literature Jae-seong Lee, 2015-12-24 This study advances contemporary postmodern/poststructural critical theory, literary criticism in particular, with the help of Mahayana—especially Ch'an/Seon (Chinese and Korean Zen)—Buddhist thought. The quest for the infinity of the Other (West) and Emptiness or the true I (East) contributes to the exploration of the contemporary critical issues of ethics and infinity. Such an approach will awaken our sense of unrepresented, genuine transcendence and immanence; The Buddhist Emptiness shows us the absolute Other illuminated on a vaster scale. The theory section explores and links Eastern and Western philosophies, switching between the two. While discussing in depth Hegel, Nietzsche, Heidegger, Derrida, Levinas, Lacan, Deleuze, and Nancy, this study gradually guides the reader from the contemporary Western thought on the Other and infinity to the Buddhist vision of Emptiness, the ultimate reality. To overcome the dualistic mode of thought inherent in tradition of Western metaphysics, this exploration follows the line that observes Nagarjuna and the imprint of Ch'an teachings that are most prevalent in South Korean Buddhism. The last three chapters demonstrate a Levinasian and Seon Buddhist approach to the book of Job, part of the Judeo-Christian Bible, as being a more literary than religious text, and the excess of the Gothic mood in the two most distinguished and widely celebrated novels—Bram Stoker's *Dracula* and Mary Shelley's *Frankenstein*. The three texts compel readers to confront the infinity of the absolute Other or Emptiness. The Grand Prize Winner of the 7th Wonhyo Academic Awards from the Korean Buddhism Promotion Foundation.

gary oldman and winona ryder: Neo-Victorian Families Christian Gutleben, 2011 Tracing representations of re-imagined Victorian families in literature, film and television, and social discourse, this collection, the second volume in Rodopi's Neo-Victorian Series, analyses the historical trajectory of persistent but increasingly contested cultural myths that coalesce around the heterosexual couple and nuclear family as the supposed 'normative' foundation of communities and nations, past and present. It sheds new light on the significance of families as a source of fluctuating cultural capital, deployed in diverse arenas from political debates, social policy and identity politics to equal rights activism, and analyses how residual as well as emergent ideologies of family are mediated and critiqued by contemporary arts and popular culture. This volume will be of interest to researchers and students of neo-Victorian studies, as well as scholars in contemporary literature and film studies, cultural studies and the history of the family. Situating the nineteenth-century family both as a site of debilitating trauma and the means of ethical resistance against multivalent forms of oppression, neo-Victorian texts display a fascinating proliferation of alternative family models, albeit overshadowed by the apparent recalcitrance of familial ideologies to the same historical changes neo-Victorianism reflects and seeks to promote within the cultural imaginary.

Heumann, 2016 Godzilla, a traditional natural monster and representation of cinema's subgenre of natural attack, also provides a cautionary symbol of the dangerous consequences of mistreating the natural world--monstrous nature on the attack. Horror films such as Godzilla invite an exploration of the complexities of a monstrous nature that humanity both creates and embodies. Robin L. Murray and Joseph K. Heumann demonstrate how the horror film and its offshoots can often be understood in relation to a monstrous nature that has evolved either deliberately or by accident and that generates fear in humanity as both character and audience. This connection between fear and the natural world opens up possibilities for ecocritical readings often missing from research on monstrous nature, the environment, and the horror film. Organized in relation to four recurring environmental themes in films that construct nature as a monster--anthropomorphism, human ecology, evolution, and gendered landscapes--the authors apply ecocritical perspectives to reveal the multiple ways

nature is constructed as monstrous or in which the natural world itself constructs monsters. This interdisciplinary approach to film studies fuses cultural, theological, and scientific critiques to explore when and why nature becomes monstrous.
