strongest man in history season 2: Jack Coombs John P. Tierney, 2014-01-10 Jack Coombs rose to deadball-era stardom as the ace of Connie Mack's Athletics, winners of back-to-back world championships in 1910 and 1911. One of the few players of his day to have graduated from college, Coombs debuted for the Athletics in 1906, fresh from Colby College. Within a few years, he was one of the best and best-known pitchers in baseball, leading the majors in victories in consecutive seasons. But then in 1913 Coombs contracted typhoid fever, a disease that cost the right-hander two seasons at the peak of his career. And while he battled his way back, pitching well in his comeback season of 1915 and then leading the Brooklyn Robins to the World Series in 1916, he was never again the dominant pitcher he had been. Coombs went on to a long career as a coach for Duke University, and wrote one of the most highly regarded instructional books on baseball ever published.

strongest man in history season 2: Watergate: The Hidden History Lamar Waldron, 2013-06-01 A groundbreaking investigation into the events of the Watergate Scandal, complete with fascinating new material, all "exhaustively researched" in the author's customary style (The New York Observer) While Richard Nixon's culpability for Watergate has long been established, what's truly remarkable is that after almost fifty years, conventional accounts of the scandal still don't address Nixon's motive. Why was President Nixon willing to risk his reelection with so many repeated burglaries at the Watergate—and other Washington offices—in just a few weeks? What motivated Nixon to jeopardize his presidency by ordering the wide range of criminal operations that resulted in Watergate? What was Nixon so desperate to get at the Watergate, and how does it explain the deeper context surrounding his crimes? For the first time, the groundbreaking investigative research in Watergate: The Hidden History provides documented answers to all of those questions. It adds crucial missing pieces to the Watergate story—information that President Nixon wanted, but couldn't get, and that wasn't available to the Senate Watergate Committee or to Woodward and Bernstein. This new information not only reveals remarkable insights into Nixon's motivation for Watergate, but also answers the two most important remaining questions: What were the Watergate burglars after? And why was Nixon willing to risk his Presidency to get it? Watergate: The Hidden History reexamines the historical record, including new material only available in recent years. This includes thousands of recently declassified CIA and FBI files, newly released Nixon tapes, and exclusive interviews with those involved in the events surrounding Watergate—ranging from former Nixon officials to key aides for John and Robert Kennedy. This book also builds on decades of investigations by noted journalists and historians, as well as long-overlooked investigative articles from publications like Time magazine, the Los Angeles Times, and the New York Times.

strongest man in history season 2: Kissinger Niall Ferguson, 2016-09-27 From the bestselling author of *The Ascent of Money* and *The Square and the Tower*, the definitive biography of Henry Kissinger, based on unprecedented access to his private papers. Winner of the Council on Foreign Relations Arthur Ross Book Award No American statesman has been as revered or as reviled as Henry Kissinger. Once hailed as “Super K”—the “indispensable man” whose advice has been sought by every president from Kennedy to Obama—he has also been hounded by conspiracy theorists, scouring his every “telcon” for evidence of Machiavellian malfeasance. Yet as Niall Ferguson shows in this magisterial two-volume biography, drawing not only on Kissinger’s hitherto closed private papers but also on documents from more than a hundred archives around the world, the idea of Kissinger as the ruthless arch-realist is based on a profound misunderstanding. The first half of Kissinger’s life is usually skimmed over as a quintessential tale of American ascent: the Jewish refugee from Hitler’s Germany who made it to the White House. But in this first of two volumes, Ferguson shows that what Kissinger achieved before his appointment as Richard Nixon’s national security adviser was astonishing in its own right. Toiling as a teenager in a New York factory, he studied indefatigably at night. He was drafted into the U.S. infantry and saw action at the Battle of the Bulge—as well as the liberation of a concentration camp—but ended his army career interrogating Nazis. It was at Harvard that Kissinger found his vocation. Having immersed himself in the philosophy of Kant and the diplomacy of Metternich, he shot to celebrity by arguing for “limited nuclear war.” Nelson Rockefeller hired him. Kennedy called him to Camelot. Yet Kissinger’s rise was anything but irresistible. Dogged by press gaffes and disappointed by “Rocky,” Kissinger seemed stuck—until a trip to Vietnam changed everything. *The Idealist* is the story of one of the most important strategic thinkers America has ever produced. It is also a political Bildungsroman, explaining how “Dr. Strangelove” ended up as consigliere to a politician he had always abhorred. Like Ferguson’s classic two-volume history of the House of Rothschild, Kissinger sheds dazzling new light on an entire era. The essential account of an extraordinary life, it recasts the Cold War world.

strongest man in history season 2: Theatre in Dublin, 1745-1820 John C. Greene, 2011-11-16 *Theatre in Dublin, 1745-1820: A Calendar of Performances* is the first comprehensive, daily compendium of more than 18,000 performances that took place in Dublin’s many professional theatres, music halls, pleasure gardens, and circus amphitheatres between Thomas Sheridan’s becoming the manager at Smock Alley Theatre in 1745 and the dissolution of the Crow Street Theatre in 1820. The daily performance calendar for each of the seventy-five seasons recorded here records and organizes all surviving documentary evidence pertinent to each evening’s entertainments, derived from all known sources, but especially from playbills and newspaper advertisements. Each theatre’s daily entry includes all preludes, mainpieces, interludes, and afterpieces with casts and assigned roles, followed by singing and singers, dancing and dancers, and specialty entertainments. Financial data, program changes, rehearsal notices, authorship and premiere information are included in each component’s entry, as is the text of contemporary correspondence and editorial contextualization and commentary, followed by other additional commentary, such as the many hundreds of printed puffs, notices, and performance reviews. In the cases of the programs of music halls, pleasure gardens, and circuses, the playbills have generally been transcribed verbatim. The calendar for each season is preceded by an analytical headnote that presents several categories of information including, among other things, an alphabetical listing of all members of each company, whether actors, musicians, specialty artists, or house servants, who

are known to have been employed at each venue. Limited biographical commentary is included, particularly about performers of Irish origin, who had significant stage careers but who did not perform in London. Each headnote presents the seasons's offerings of entertainments of each theatrical type (prelude, mainpiece, interlude, afterpiece) analyzed according to genre, including a list of the number of plays in each genre and according to period in which they were first performed. The headnote also notes the number of different plays by Shakespeare staged during each season and gives particular attention to entertainments of "special Irish interest." The various kinds of benefit performance and command performances are also noted. Finally, this Calendar of Performances contains an appendix that furnishes a season-by-season listing of the plays that were new to the London patent theatres, and, later, of the important "minors." This information is provided in order for us to understand the interrelatedness of the London and Dublin repertories.
