free bible studies for senior adults: Sacred Subdivisions Justin Wilford, 2012-11-19 In an era where church attendance has reached an all-time low, recent polling has shown that Americans are becoming less formally religious and more promiscuous in their religious commitments. Within both mainline and evangelical Christianity in America, it is common to hear of secularizing pressures and increasing competition from nonreligious sources. Yet there is a kind of religious institution that has enjoyed great popularity over the past thirty years: the evangelical megachurch. Evangelical megachurches not only continue to grow in number, but also in cultural, political, and economic influence. To appreciate their appeal is to understand not only how they are innovating, but more crucially, where their innovation is taking place. In this groundbreaking and interdisciplinary study, Justin G. Wilford argues that the success of the megachurch is hinged upon its use of space: its location on the postsuburban fringe of large cities, its fragmented, dispersed structure, and its focus on individualized spaces of intimacy such as small group meetings in homes, which help to interpret suburban life as religiously meaningful and create a sense of belonging. Based on original fieldwork at Rick Warren's Saddleback Church, one of the largest and most influential megachurches in America, Sacred Subdivisions explains how evangelical megachurches thrive by transforming mundane secular spaces into arenas of religious significance.

free bible studies for senior adults: North Carolina Women Michele Gillespie, Sally G.

McMillen, 2014-02-15 North Carolina has had more than its share of accomplished, influential women—women who have expanded their sphere of influence or broken through barriers that had long defined and circumscribed their lives, women such as Elizabeth Maxwell Steele, the widow and tavern owner who supported the American Revolution; Harriet Jacobs, runaway slave, abolitionist, and author of *Incidents in the Life of a Slave Girl*; and Edith Vanderbilt and Katharine Smith Reynolds, elite women who promoted women's equality. This collection of essays examines the lives and times of pathbreaking North Carolina women from the late eighteenth century into the early twentieth century, offering important new insights into the variety of North Carolina women's experiences across time, place, race, and class, and conveys how women were able to expand their considerable influence during periods of political challenge and economic hardship, particularly over the course of the late nineteenth and early twentieth centuries. These essays highlight North Carolina's progressive streak and its positive impact on women's education—for white and black alike—beginning in the antebellum period on through new opportunities that opened up in the late nineteenth and early twentieth centuries. They explore the ways industrialization drew large numbers of women into the paid labor force for the first time and what the implications of this tremendous transition were; they also examine the women who challenged traditional gender roles, as political leaders and labor organizers, as runaways, and as widows. The volume is especially attuned to differences in region within North Carolina, delineating women's experiences in the eastern third of the state, the piedmont, and the western mountains.
