

32 third graders and one class bunny

32 Third Graders and One Class Bunny: A Tale of Learning, Friendship, and Responsibility

32 third graders and one class bunny might sound like the beginning of a charming school story, and that's exactly what it is. Imagine a bustling classroom filled with energetic nine-year-olds, each eager to learn and grow, and right in the middle of it all, a fluffy, curious bunny hopping around. This unique combination creates an extraordinary environment that fosters not only education but also empathy, responsibility, and teamwork.

In this article, we'll explore how having 32 third graders and one class bunny together can transform a typical classroom into a vibrant, nurturing space. From the benefits of classroom pets to the valuable lessons kids learn by caring for an animal, join us as we uncover the magic behind this heartwarming setup.

The Role of a Class Bunny in a Third Grade Classroom

Introducing a class bunny to a group of 32 third graders is more than just adding a pet; it's about creating a living connection between students and nature. Children at this age are naturally curious and affectionate, and a bunny offers a perfect opportunity to channel those feelings into positive learning experiences.

Encouraging Responsibility and Empathy

One of the most significant benefits of having a class bunny is the way it teaches responsibility. With 32 third graders, managing care duties requires cooperation, organization, and commitment from everyone. Tasks such as feeding, cleaning the bunny's habitat, and gentle handling are often rotated among the students, giving each child a chance to participate.

This shared responsibility helps kids develop empathy as they learn to recognize the bunny's needs and feelings. Third graders begin to understand that living creatures depend on their care and kindness, which can translate into more compassionate behavior toward each other.

Enhancing Social Skills and Teamwork

In a classroom of 32 children, social dynamics can be complex. The class bunny becomes a common interest that unites the group, encouraging collaboration and communication. When students work together to care for the bunny, they practice negotiation, problem-solving, and conflict resolution skills.

Teachers often notice that the presence of a pet reduces classroom tension and fosters a more inclusive atmosphere. The bunny serves as a gentle reminder that every member of the class, just like every creature, has a role

and a value.

Integrating a Bunny into the Curriculum

Beyond the emotional and social benefits, a class bunny can be a powerful educational tool. Third graders are at a prime age for absorbing knowledge about biology, ecology, and responsibility, making the bunny an ideal subject for hands-on learning.

Science Lessons Made Tangible

Instead of just reading about animals in textbooks, 32 third graders with a class bunny get to observe real-life behaviors. Lessons on animal habitats, diets, reproduction, and life cycles become vivid and memorable. Teachers can incorporate activities such as:

- Tracking the bunny's feeding schedule and diet
- Observing the bunny's behavior and documenting changes
- Discussing the importance of safe environments for pets

These practical lessons help cement theoretical knowledge by connecting it to the students' daily experiences.

Creative Writing and Art Projects

Having a class bunny also inspires creativity. Children often write stories or poems about their furry friend, developing literacy skills while expressing their feelings. Art projects like drawing or crafting bunny habitats encourage fine motor skills and imagination.

Teachers can assign projects such as:

1. Writing a day-in-the-life narrative from the bunny's perspective
2. Designing a poster on bunny care and safety
3. Creating bunny-themed artwork to decorate the classroom

These activities make learning fun and meaningful, enhancing student engagement.

Managing a Classroom Pet with 32 Students

While the idea of 32 third graders and one class bunny is delightful, it comes with practical challenges. Proper planning and clear guidelines are essential to ensure the bunny's well-being and the students' safety.

Establishing Rules and Routines

Because so many children are involved, setting clear rules about interacting with the bunny is crucial. Guidelines might include:

- How to gently handle the bunny
- When and how to feed it
- Respecting the bunny's space and rest times
- Keeping the bunny's habitat clean and safe

Teachers can create a schedule that assigns small groups to specific care duties on different days. This approach ensures that all students participate without overwhelming the animal.

Health and Safety Considerations

Bunnies are sensitive creatures, so health precautions are important. The classroom should be bunny-proofed to prevent accidents or escapes. Additionally, students should be taught proper hygiene, especially handwashing after handling the pet.

Regular check-ups with a veterinarian and maintaining a clean habitat help keep the bunny healthy. Teachers must monitor the bunny's behavior closely for signs of stress or illness, ensuring prompt care when needed.

The Lasting Impact of 32 Third Graders and One Class Bunny

The relationship between 32 third graders and one class bunny is more than just a school project; it becomes a shared experience that leaves a lasting impression on the children. Many students carry the lessons learned into their homes and future classrooms, developing a lifelong respect for animals and nature.

Building Emotional Intelligence

Through caring for the bunny, children learn patience, empathy, and

nurturing—skills that contribute to emotional intelligence. These qualities improve their relationships with peers and adults, promoting a positive school culture.

Fostering a Love of Learning

The interactive nature of having a class bunny makes learning dynamic and exciting. Students become more engaged and enthusiastic about school, often developing interests in science, writing, or art sparked by their experiences.

Creating Community Bonds

The shared responsibility for the bunny fosters a sense of community among the 32 third graders. They learn the importance of cooperation, respect, and supporting one another, which strengthens classroom unity and friendship.

In the end, 32 third graders and one class bunny together create a unique educational ecosystem, where knowledge, care, and play intertwine. This charming blend of youthful energy and gentle companionship enriches the school experience in ways that textbooks alone could never achieve. Whether it's through science lessons, social skills, or creative expression, the presence of a class bunny in a bustling classroom of curious children is truly a gift that keeps on giving.

Frequently Asked Questions

How can a class bunny help 32 third graders learn responsibility?

A class bunny can teach third graders responsibility by involving them in daily care tasks such as feeding, cleaning, and monitoring the bunny's health, fostering a sense of accountability and empathy.

What are some fun activities for 32 third graders to do with a class bunny?

Fun activities include observing the bunny's behavior, creating bunny-themed art projects, reading stories about rabbits, and learning about animal care and habitats.

How does having a class bunny benefit the social skills of 32 third graders?

Having a class bunny encourages teamwork and cooperation among students as they share caregiving duties, communicate about the bunny's needs, and develop empathy and respect for living creatures.

What are the best ways to manage a class bunny with 32 third graders in one classroom?

Establishing a schedule for feeding and cleaning, assigning roles or rotating responsibilities, and setting clear rules about interacting with the bunny help manage the class bunny effectively with 32 students.

Can a class bunny help reduce stress for 32 third graders?

Yes, interacting with a class bunny can provide comfort and reduce stress by offering a calming presence, promoting relaxation, and teaching mindfulness through animal care.

What are some educational lessons that can be integrated with a class bunny for third graders?

Lessons can include biology topics like animal anatomy and life cycles, environmental science focusing on habitats and care, and literacy through writing journals or stories about the bunny.

How do teachers ensure the safety of a class bunny with 32 energetic third graders?

Teachers can ensure safety by supervising interactions, teaching gentle handling techniques, creating a secure living environment for the bunny, and educating students on appropriate behavior around animals.

What challenges might arise from having one class bunny for 32 third graders, and how can they be addressed?

Challenges include managing the bunny's stress levels and ensuring all students get equal interaction time. These can be addressed by limiting handling times, rotating student responsibilities, and providing a quiet space for the bunny.

How can parents support the classroom experience of 32 third graders with a class bunny?

Parents can support by reinforcing animal care lessons at home, volunteering to help with the bunny's care, and encouraging their children to share their experiences and learnings about the class bunny.

Additional Resources

32 Third Graders and One Class Bunny: A Closer Look at Classroom Dynamics and Animal-Assisted Learning

32 third graders and one class bunny might sound like the beginning of a charming children's story, but in many educational settings, this combination represents a growing trend towards integrating animals into classroom

environments. This seemingly simple scenario opens up a complex web of considerations, from the benefits and challenges of having animals in schools to the impact on student behavior and learning outcomes. Exploring the dynamic between a large group of energetic third graders and a single classroom pet offers valuable insights into modern pedagogical approaches and classroom management strategies.

The Role of Animals in Elementary Classrooms

Animals have been part of educational environments for decades, but their role continues to evolve. With 32 third graders in a single classroom—an often crowded and lively setting—the presence of a class bunny introduces unique opportunities and challenges. Classroom pets like rabbits are increasingly recognized for their potential to foster empathy, responsibility, and reduce student anxiety, particularly in early childhood education.

Classroom Environment and Student Engagement

Managing 32 third graders simultaneously requires skillful classroom management and innovative engagement techniques. The introduction of a class bunny can serve as a natural focal point that encourages cooperative behavior and nurtures a sense of community among students. Research in animal-assisted education highlights that pets can calm restless children, which is especially helpful in a large third-grade class where maintaining attention can be difficult.

Students often take turns caring for the bunny—feeding, cleaning, and gentle handling—which teaches responsibility and routine. This hands-on involvement connects students to a living being, promoting a caring attitude that extends beyond the classroom. Additionally, observational learning occurs naturally; children notice the rabbit's behavior and needs, encouraging curiosity and scientific inquiry.

Challenges of Integrating a Bunny in a Large Classroom

Despite the benefits, having one class bunny among 32 third graders is not without challenges. Rabbits are delicate animals requiring specific care and a calm environment, which can be difficult to maintain in a bustling classroom. Allergies, hygiene concerns, and potential distractions are valid issues educators must address.

Teachers must establish clear rules around interaction with the bunny to prevent stress or harm to the animal. This includes supervised handling, designated areas for the bunny's enclosure, and routines that minimize disruptions. Furthermore, the responsibility for the bunny's care must be shared equitably among students to avoid neglect or overexposure.

Educational Benefits of a Class Bunny

Research supports the integration of animals in classrooms, particularly in fostering social-emotional learning and enhancing academic performance. Within a setting of 32 third graders, the class bunny acts as a catalyst for various educational benefits.

Enhancing Emotional Intelligence and Social Skills

Third graders are at a critical developmental stage where emotional regulation and social interaction skills are rapidly evolving. Interacting with a gentle class bunny helps children develop empathy as they learn to recognize and respond to the animal's needs. This empathy often translates into improved peer relationships and a more supportive classroom atmosphere.

Moreover, caring for a living creature encourages patience and nurtures a sense of accomplishment. These emotional competencies are foundational for lifelong learning and personal development.

Supporting Academic Learning Through Animal Interaction

Beyond social-emotional gains, the presence of a bunny can enrich curriculum content. Teachers can integrate lessons on biology, animal care, and environmental stewardship, making abstract concepts tangible. For instance, students can observe the bunny's behavior to understand animal needs, life cycles, and habitats.

A class bunny also serves as an engaging topic for writing assignments, art projects, and presentations, stimulating creativity and language skills among the 32 third graders. This cross-disciplinary approach supports varied learning styles and encourages holistic education.

Comparative Insights: Class Size and Animal-Assisted Learning

The size of the class—32 students—is an important factor when considering the feasibility and impact of having a class bunny. Comparatively, smaller classes may find it easier to manage animal care, while larger groups require more structured routines and supervision.

- **Smaller Classes (15–20 students):** Easier to monitor student-animal interactions, more individualized responsibility for the pet.
- **Medium Classes (21–30 students):** Increased need for group coordination, opportunities for teamwork in pet care.
- **Large Classes (31+ students):** Demands rigorous rules and scheduling, potential for the animal to become overwhelmed without proper management.

In classrooms with 32 third graders, the presence of a class bunny requires careful planning to ensure the animal's welfare and the students' safety. Teachers often rely on classroom aides, parent volunteers, or student-led teams to distribute the workload effectively.

Health and Safety Considerations

Introducing an animal into a classroom environment must always prioritize health and safety. Rabbits can carry allergens and may pose risks to students with sensitivities or compromised immune systems. Schools typically require clearance from health officials and parental consent before permitting classroom pets.

Sanitation protocols, such as regular cleaning of the bunny's enclosure and handwashing guidelines for students, are essential to minimize health risks. Moreover, teachers must be vigilant in monitoring both the animal's well-being and the students' behavior to prevent accidents or stress.

Long-Term Impacts and Teacher Perspectives

Many educators who have incorporated a class bunny into their teaching report positive long-term impacts on student engagement and classroom community. Feedback from teachers highlights increased student motivation and an overall calmer learning environment.

Teachers emphasize the importance of setting clear expectations and involving students in the bunny's care as a shared responsibility. This collaborative approach not only benefits the animal but also builds leadership skills and accountability among students.

However, some teachers caution about the additional workload and potential distractions. Balancing the demands of a full curriculum with the needs of the class bunny requires flexibility and support from school administration.

Technological Alternatives and Innovations

In classrooms where live animals may not be feasible, technological alternatives such as virtual pets or interactive animal apps are gaining traction. While these tools cannot replicate the tactile experience of a real bunny, they offer a controlled way to introduce animal-assisted learning concepts.

These innovations can supplement traditional methods, offering third graders exposure to animal care principles without the logistical challenges. Yet, many educators agree that nothing replaces the emotional connection fostered by a real classroom pet.

32 third graders and one class bunny encapsulate a microcosm of educational innovation—balancing developmental needs, classroom management, and the humane care of animals. This model reflects broader trends in education, where experiential learning and emotional intelligence are increasingly valued alongside academic achievement. As schools continue to explore these

integrative approaches, the lessons learned from managing a lively group of young learners alongside a gentle class bunny will remain instructive and inspiring.

32 third graders and one class bunny: 32 Third Graders and One Class Bunny Phillip Done, 2009-09 Now in paperback, to tie in with the publication of Phillip Done's new hardcover *Close Encounters of the Third Grade Kind* from Center Street, *32 Third Graders and One Class Bunny* brings the joys and terrors of elementary school back to life (The Washington Times). Phil Done has taught elementary school for twenty years. He fixes staplers that won't staple, zippers that won't zip, and pokes pins in the caps of glue bottles that will not pour. He has sung Happy Birthday 657 times. *32 Third Graders and One Class Bunny* is for anyone who has ever taught children--or been to third grade. This collection of tightly written, connected essays is an unexpected pleasure...an absolute joy (Tucson Citizen) and a testament to the kids who uplift us--and the teachers we will never forget. With just the right mix of humor and wisdom, Done reveals the enduring promise of elementary school as a powerful antidote to the cynicism of our times.

32 third graders and one class bunny: 32 Third Graders and One Class Bunny Phillip Done, 2009-09-01 Phil Done fixes staplers that won't staple, zippers that won't staple, and pokes pins in the caps of glue bottles that will not pour. He has sung "Happy Birthday" 657 times. A witness to the joys of learning, Done inspires readers with the everyday adventures and milestones of his 32 third graders in this irresistible collection of bite-sized essays. From the nervous first day of school to the hectic Halloween parade to the disastrous spring musical, Done connects what happens in his classroom to the universal truths that touch us all. *32 Third Graders and One Class Bunny* is for anyone who has ever taught children—or been to third grade. It is a testament to the kids who uplift us and the teachers who make a difference. With the perfect mix of humor and wisdom, Done reveals the enduring promise of elementary school as a powerful antidote to the cynicism of our times.

32 third graders and one class bunny: Life Stories Maureen O'Connor, 2011-08-23 Memoirs, autobiographies, and diaries represent the most personal and most intimate of genres, as well as one of the most abundant and popular. Gain new understanding and better serve your readers with this detailed genre guide to nearly 700 titles that also includes notes on more than 2,800 read-alike and other related titles. The popularity of this body of literature has grown in recent years, and it has also diversified in terms of the types of stories being told—and persons telling them. In the past, readers' advisors have depended on access by names or Dewey classifications and subjects to help readers find autobiographies they will enjoy. This guide offers an alternative, organizing the literature according to popular genres, subgenres, and themes that reflect common reading interests. Describing titles that range from travel and adventure classics and celebrity autobiographies to foodie memoirs and environmental reads, *Life Stories: A Guide to Reading Interests in Memoirs, Autobiographies, and Diaries* presents a unique overview of the genre that specifically addresses the needs of readers' advisors and others who work with readers in finding books.

32 third graders and one class bunny: *The Art of Teaching Children* Phillip Done, 2023-07-18

An essential guide for teachers and parents that's destined to become a classic, *The Art of Teaching Children* is one of those rare and masterful books that not only defines a craft but offers a magical reading experience. After more than thirty years in the classroom, award-winning teacher Phillip Done decided that it was time to retire. But a teacher's job is never truly finished, and he set out to write the greatest lesson of his career: a book for educators and parents that would pass along everything he learned about working with kids. From the first-day-of-school jitters to the last day's tears, Done writes about the teacher's craft, classrooms and curriculums, the challenges of the profession, and the reason all teachers do it—the children. Drawing upon decades of experience, Done shares time-tested tips and sage advice: Real learning is messy, not linear. Greeting kids in the morning as they enter the classroom is an important part of the school day. If a student is having trouble, look at what you can do differently before pointing the finger at the child. Ask yourself: Would I want to be a student in my class? When children watch you, they are learning how to be people, and one of the most important things we can do for our students is to model the kind of people we would like them to be. Done tackles topics you won't find in any other teaching book, including Back to School Night nerves, teacher pride, the Sunday Blues, Pinterest envy, teacher guilt, and the things they never warn you about in "teacher school" but should, like how to survive recess duty, field trips, and lunch supervision. Done also addresses some of the most important issues schools face today: bullying, excessive screen time, the system's obsession with testing, teacher burnout, and the ever-increasing demands of meeting the diverse learning needs of students. But *The Art of Teaching Children* is more than a guide to educating today's young learners. These pages are alive with inspiration, humor, and tales of humanity. Done welcomes us like visitors at Open House Night to the world of elementary school, where we witness lessons that go well and others that flop, periods that run smoothly and ones that go haywire when a bee flies into the room. We meet master teachers and new ones, librarians and lunch supervisors, principals and parents (some with too much time on their hands). We get to know kids who want to hold a ball and those who'd rather hold a marker, students with difficult home lives and children with disabilities, youngsters who need drawing out and those who happily announce (in the middle of a math lesson) that they have a loose tooth. With great wit and wisdom, irresistible storytelling, and boundless compassion, *The Art of Teaching Children* is the new educator's bible for teachers, parents, and all who work with kids and care about their learning and success.

32 third graders and one class bunny: *Navigating the Labyrinth* Shirley Ann Smith,

2022-06-04 In spite of millions of dollars spent on professional development for teachers, the dream of providing every child with the great teacher they deserve always seems just out of reach. With each new education product and innovation promising to transform teaching and learning, the myth of a silver bullet to cure education's ills is perpetuated. But the silver bullet is already in the classroom: the teacher. Every teacher has the ability to transform their practice if he or she is willing to look inside themselves to make the changes necessary. By using methods described in *Navigating the Labyrinth: Teacher Empowerment Through Instructional Leadership*, educators can establish a metacognitive process for how they recognize what beliefs they have about how students learn, how they approach research so that it drives instructional decisions, and how they design and deliver instruction that ensures student learning at the highest level. This process is the foundation of effective pedagogy. Daily practice of these methods can establish a standard of professionalism that inoculates teachers against the everchanging "shiny things" in the profession and enable them to become strong instructional leaders.

32 third graders and one class bunny: *It's Not a Perfect World, but I'll Take It* Jennifer

Rose, 2016-05-24 Jennifer Rose is autistic. She's also a college student who loves reading, writes fan fiction, and wants to be on TV someday. She sees the world a little differently than most people around her. She's had trouble coping with school and she's struggled with bullies, mean girls, and her own feelings of bitterness and inferiority. Through it all, with the help of her parents, she's learned a few lessons: #5: There are many ways to make a difference. #20: You won't be perfect at

everything, not even the things you do best. #22: Down times will be bouncing up soon . . . #23: . . . but meanwhile, try to enjoy what you have. #44: Talk about your feelings, even when it's hard. #45: Learn to take jokes, even your dad's. It's Not a Perfect World but I'll Take It is an uplifting ode to being different. Told with irresistible honesty and humor, Rose's fifty bite-sized stories will have teens and adults nodding in recognition and discovering new things about themselves.

32 third graders and one class bunny: Schooling, Childhood, and Bureaucracy T. Waters, 2012-09-24 In exploring the relationship between bureaucratic schooling and the individual child, Waters describes the persistence of educational inequality, child development, and the nature of bureaucracy. The conclusions point out how education bureaucracies frame both schooling and childhood as they relentlessly seek to create ever more perfect children.

32 third graders and one class bunny: Working Hard, Working Happy Rita Platt, 2019-06-20 In this new book from Routledge and MiddleWeb, author Rita Platt shows how you can create a joyful classroom community in which students are determined to work hard, be resilient, and never give up. She describes how to help build students' purpose, mastery, and autonomy, so they take ownership over their work and develop a growth mindset for success. Topics covered include: Why joy and effort go hand in hand How to build a classroom climate of caring and achievement Why mastery and goal setting are important How to work with differentiated instruction How to work with cooperative and collaborative learning Why parent-teacher connection is vital How to take your practice of joy and effort beyond the classroom And much more! Each chapter includes practical tools, tips, and ideas that you can use immediately to develop these skills in students, so they find more joy and success in the learning process.

32 third graders and one class bunny: Successful Teaching Scott D. Richman, Steve Permuth, Paula M. Richman, 2013-03-14 *Successful Teaching: Practical Ideas to Make It Happen* is written for all pre- and in-service teachers, whether they are the 20 year veteran who needs a renewed sense of purpose, new to the profession, or planning to become a teacher. It will also serve as a resource for administrators wishing to help teachers discover the enjoyment of their teaching. This book is designed to be a reference to help teachers make their career more enjoyable and rewarding. Teachers can pick it up at anytime and find something new to add to their "bag of tricks."

32 third graders and one class bunny: Teaching is a Human Interaction Alexis L. Jones, 2023-03-01 This book contains an argument supported by education philosophers as well as composite stories, data, and personal experiences. The author mentions a number of scholars (e.g., Benjamin, 1988; Buber, 1970; Noddings, 2005, 2013; Palmer, 1983; van Manen, 1986, 1991, 2000) who address important human issues in the field of education, and she ties their work and hers to show common themes within the issues of care, responsivity, and relational ethics. The first part of the book (Introduction and Chapters 1-3) is primarily philosophical, and the author shares the thoughts of the aforementioned scholars and others on topics relating to the very human work teachers do. The next section of the book (Chapters 4-6) combines theoretical works and empirical data to address the complexity and humanity of teaching. While the work described in the aforementioned chapters may appear to present an idea of ethical teacher perfection, this is not the case. Teachers are not supposed to be, nor are they logistically able to be, all things to all children. The final chapter instead addresses how stakeholders (e.g., educators, administrators, parents) can gently move our traditional education system toward this ideal. This conclusion shares the ways teachers and teacher educators can conceptualize the work on teaching-as-human-interaction and use it to improve the teaching perception. ENDORSEMENTS: Readers of this superb book will be convinced by the end of it that kindness and care are fundamental to good teaching. Based on vast teaching experience and a philosophy of care ethics, Alexis Jones portrays teaching as a far 'messier' human interaction than is ever formally recognized. Using scholarly debate and wonderfully narrated examples, the book advocates an ethics of care for teachers navigating interminable choices in almost every moment. But beware thinking that teaching-the-Alexis-Jones-way is a soft option. Quite the contrary, striving similarly for academic attainment and caring teacher - student

relationships involves challenging endeavors for both teacher and student alike. — David Walker, The University of Alabama

32 third graders and one class bunny: Reviving the Soul of Teaching Terrence E. Deal, Peggy Deal Redman, 2008-06-20 This book is wonderful. My colleagues often state that the joy has been taken out of teaching. This book is a wake-up call that should be read by lawmakers at every level. Today I am celebrating the childhood of my students—something that we forget to do. —Christine Zajac, Principal Lt. Clayre Sullivan School, Holyoke, MA There is more to education than teacher-proof curricula and scores on high-stakes tests! Educators know that genuine teaching involves caring, compassion, and building character—principles that can sometimes take a back seat to short-term goals of standardized performance. This inspirational volume for practicing teachers, student teachers, and school leaders champions the heart and soul of teaching and emphasizes how teachers can influence, inspire, and touch the lives of learners. The book explores the central themes of teaching practice and offers perspectives on: Teaching as an art that promotes creativity, character, and imagination in students Balancing testing and accountability with the art and passion of teaching Authentic being and authentic teaching Reform from the ground level, where educators are making a difference in the lives of their students New directions for accountability mandates A motivating and empowering guide, this book reminds educators why they went into teaching in the first place!

32 third graders and one class bunny: The Publishers Weekly , 1917

32 third graders and one class bunny: *The Rewards of Teaching* Scott D. Richman, Steve Permuth, 2008 This exciting book is dedicated to helping teachers and administrators understand the key role that rewards play in helping our students achieve. The most beneficial rewards are the internal rewards of teaching, which can last a lifetime. By finding the rewarding aspects of the profession, teachers can refocus their career on the main reason why they became a teacher—to impact students' lives. This book includes 100 tips to help teachers make their career more rewarding and enjoyable. Each tip also includes examples of how its implementation can transform one's career. We enter the teaching field to teach students and make a difference. By focusing on enjoying each day as a teacher, we will leave a lasting impression on our students and help to change the world, one student at a time.
