couples therapy showtime season 4: *The Husbands and Wives Club* Laurie Abraham, 2010-03-09 A PAGE-TURNING GLIMPSE INTO FIVE MARRIAGES AND THE FIGHT TO SAVE THEM For more than a year, journalist Laurie Abraham sat in with five troubled couples as they underwent the searing process of group marriage therapy. Published as The New York Times Magazine's cover story Can This Marriage Be Saved? the resulting article generated intense reader response and received the Award for Excellence in Journalism from the American Psychoanalytic Association. Though the article allowed Abraham to focus on only one couple, this book, which grew out of it and the reaction it inspired, tells the moving, fascinating story of all five. The couples: Can Leigh and Aaron find the intimacy their marriage lacks; will Bella and Joe resolve the imbalance of power that threatens to topple their marriage; are Sue Ellen and Mark as ideal as they seem; what happened to Rachael that Michael cannot acknowledge; and do Marie and Clem, with the help of therapist Judith Coché, come back from the brink of divorce? With the dexterity of a novelist, Abraham recounts the travails, triumphs, and reversals that beset the five couples. They work with their therapist—and each other—to find out whether they can rediscover the satisfaction in marriage that they once had. At times wrenching, at times inspiring, the sessions bring out the long-hidden resentments, misunderstandings, unmet desires, and unspoken needs that bedevil any imperiled couple. At the same time, these encounters provide road maps to reconciliation and revival that can be used by anyone in a relationship. Along the way, the author draws on her explorations of literature and Freudian theory, modern science, and today's cutting-edge research to decode the patterns and habits that suggest whether a troubled marriage will survive or die. Both an important look at the state of marital dysfunction and a reaffirmation of the enduring bonds of love, *The Husbands and Wives Club* is an extraordinary year in the life of the American marriage.

couples therapy showtime season 4: *Couple Therapy for Depression* David Hewison, Christopher Clulow, Harriet Drake, 2014-06-19 Depression is second after heart disease as the most damaging health condition in the world. The NHS has devoted huge resources to training thousands of psychological therapists to work in 'Improving Access to Psychological Therapies' services specifically to treat depression in adults and couple therapy has been identified as one of the effective ways of treating it. Couple Therapy for Depression is an integrative 20-session couple therapy designed to treat depression in couples where there is also relationship distress. Following the recommendations of the UK's National Institute for Clinical Excellence for a behaviourally-based couple therapy treatment, it draws on RCT studies of efficacy as well as 'best practice' in behavioural, cognitive, emotionally-focused, systemic, and psychodynamic couple therapies. Sticking closely to the competencies identified for the treatment of depression and relationship distress in couples, it outlines the ways in which couple therapists can reduce damaging interactions between couples, build emotional openness and closeness, improve communication and behaviour, change unhelpful cognitions and perceptions, and help the couple cope with the ordinary and not-so ordinary stresses that arise in the course of everyday relating. Written by couple therapists who understand deeply the unique challenges of doing therapy with couples, it is based on the training programme for Couple Therapy for Depression commissioned by the NHS for use in its Improving Access to Psychological Therapies services. It begins by describing the causes and consequences of depression, and then focuses on its impact on the adult couple. Highlighting the particular techniques needed in safe and effective work with distressed couples, it goes through the different ways in which the couple's feelings, thoughts, and behaviours need to be understood and worked with in order to reduce relationship distress. It outlines the treatment of 4 different couples to illustrate the therapy in action and will be helpful for any therapist wanting to enhance their work with couples.

couples therapy showtime season 4: *Couples Therapy* Linda Berg Cross, 2013-12-16 Harness the power of an integrative approach to couples counseling! Why do marriages fail? The behaviorist or cognitive therapist explains that unhappy couples have self-defeating ways of thinking about their spouses and themselves. The sociologically oriented counselor points to the impact of social trends and dramatic changes in child-rearing and social expectations. A therapist oriented toward psychodynamics or systems theory sees the destructive patterns of childhood replayed in the marriage, with spouses taking on rigid roles. The pastoral or humanist counselor believes that partners who cannot experience self-fulfillment through commitment and trust will feel less love and grow more and more disconnected. *Couples Therapy, Second Edition*, brings together all these points of view to make a unified whole. This integrative approach proposes a new model of successful marriage based on four cornerstones: resiliency, social support, adaptability, and self-fulfillment. Weaving together theory and research, *Couples Therapy, Second Edition*, explores how common issues can lead to trouble in relationships. It suggests specific interventions so therapists can teach clients to deal with such problem areas as anger management, domestic violence, depression,
