iv therapy conference 2022: Advancing Precision Therapies in Glioblastoma Konstantinos Gousias, Theophilos Tzaridis, Marike Broekman, 2025-06-17 Despite recent advances in diagnostic modalities and surgical techniques, the prognosis of patients with glioblastoma remains still dramatically poor. Even after successful resections, the 1-year survival rates lie below 50%, since the traditional systemic adjuvant therapy after surgery appears inefficient. Poor prognosis has been associated with the unique challenges presented by the blood brain barrier (BBB), which hinders the concentration of chemotherapeutic agents able to reach tumors and mitigates the effects of systemic delivery. Therefore, there is a need for alternative treatment approaches which overcome the BBB and have a lesser toxicity profile. Several novel therapeutic strategies are currently being explored in early-phase clinical trials for the treatment of glioblastoma, including selective intra-arterial or intra-nasal approaches, in addition to direct low- and high-pressure drug delivery in the tumor cavity or eloquent solid tumor. Further, targeted therapies leveraging nanoparticles, and autologous vaccines appear as promising alternatives. Other options focus on temporarily modifying the BBB, such as using focused ultrasound, or directly destroying tumor cells, such as with photodynamic or thermal therapy.

iv therapy conference 2022: Medical-Surgical Nursing E-Book Adrienne Dill Linton, Mary Ann Matteson, 2022-05-01 Provide quality nursing care for adults with medical-surgical and psychiatric disorders! Building upon the fundamentals of nursing, *Medical-Surgical Nursing*, 8th Edition helps you master the role and responsibilities of the LPN/LVN in medical-surgical care. The text addresses the special problems of older adult patients, then covers each major disorder by body system, presenting patient problems, goals, outcome criteria, and nursing interventions. As LPN/LVNs do not formulate NANDA diagnoses, the book is organized by patient problems rather than NANDA nursing diagnoses. Written by noted educators Adrienne Dill Linton and Mary Ann Matteson, this text helps you build the clinical judgment skills you need to succeed on the Next-Generation NCLEX-PN® examination and in nursing practice.
