The author urges the church to undertake its task of theology in the proper spirit: - an attitude of prayer - a deepening sense of reverence - an ever-increasing purity of heart - a spirit of growing love - a theological approach rooted in the glory of God. word of the day calendar: *The Day Christ Died as Our Passover* Jack W. Langford, 2013-06 The subject of which day Christ died began to be hotly debated a few hundred years after His death. In the council of AD 325, the leaders of the Roman Imperial Church thought it to be in the best interest of the Church to disassociate their ritual celebration of the death and resurrection of Christ, which they now called Easter, away from the annual Jewish Passover event. They actually wanted to divert attention from the Jewishness of Jesus. In doing so, these fathers guided Christendom away from the biblical reality as expressed by Paul-Christ our Passover was sacrificed for us (1 Corinthians 5:7). This error has been locked into the celebration for over 1,600 years, not only by the Roman Catholics, but also by most of Protestantism. This is a fresh study which will have some surprises for most students of the subject, due to the controversy surrounding the chronology. It will re-align the death of Jesus Christ squarely upon the biblical setting of the Passover theme as presented in the gospels. Above all, it will demonstrate beyond any shadow of a doubt that the four gospels harmonize perfectly on the subject. It also establishes that Christ died precisely on the eve of Passover, when the lambs were being sacrificed in the Temple services. This Bible study will - Enrich our appreciation of the Divine arrangement in redemption. Demonstrate the flawless consistency of the biblical record. Correct Christendom's traditional day celebrating Christ's death. Strengthen the Christian's new freedom in Christ.

word of the day calendar: In Six Days John Ashton, 2001-01-01

Why would any educated scientist with a PhD advocate a literal interpretation of the six days of creation? Why, indeed, when only one in three Americans believes the Bible is the actual word of God and is to be taken literally, word for word according to a recent Gallup poll. Science can neither prove nor disprove evolution any more than it can creation. Certainly there are no human eyewitness accounts of either. However, certain factors are present today which are capable of swaying one's beliefs one way or the other. In this book are the testimonies of fifty men and women holding doctorates in a wide range of scientific fields who have been convicted by the evidence to believe in a literal six-day creation. For example, meet: The geneticist who concludes that there must have been 150 billion forerunners of modern man in order for the natural selection required by evolution to have taken place in the development of man. The evidence for such vast numbers of prehistoric man is in dire shortage. The orthodontist who discovered that European museum fossils of ancient man have been tampered with to adhere to evolution theories. The geologist who studied under the late Stephen Jay Gould and literally cut the Bible to pieces before totally rejecting evolution. All fifty of these scientists, through faith and scientific fact, have come to the conclusion that God's Word is true and everything had its origin not so very long ago, in the beginning, In Six Days.
