leonard cohen hallelujah sheet music: Ethnic and Cultural Identity in Music and Song Lyrics Victor Kennedy, 2017-06-20 Ethnic and Cultural Identity in Music and Song Lyrics looks at a variety of popular and folk music from around the world, with examples of British, Slovene, Chinese and American songs, poems and musicals. Charles Taylor says that "it is through story that we find or devise ways of living bearably in time"; one can make the same claim for music. Inexorably tied to time, to the measure of the beat, but freed from time by the polysemous potential of the words, song rapidly becomes "our" song, helping to cement memory and community, to make the past comprehensible and the present bearable. The authors of the fifteen chapters in this volume demonstrate how lyrics set to music can reflect, express and construct collective identities, both traditional and contemporary.

This book describes the evolution of the music industry from 1713 - the year parliament granted writers ownership over what they wrote - to today, when a global, 100 billion pound industry is controlled by just three major players: Sony, Universal and Warner. Inside you will uncover some little-known facts about the industry, including: how a formula for writing hit songs in the 1900s helped create 50,000 of the best-known songs of all time; how Jewish immigrants and black jazz musicians dancing cheek-to-cheek created a template for all popular music that followed; and how rock tours became the biggest, quickest, sleaziest and most profitable ventures the music industry has ever seen. Through it all, Napier-Bell balances seductive anecdotes - pulling back the curtain on the gritty and absurd side of the industry - with an insightful exploration of the relationship between creativity and

money.
