Medea as a tragic figure, whose sense of isolation and betrayal interferes with her ability to form healthy attachments, reveals the human propensity for violence when the agony of unresolved grief turns to vengeance against those we hold most dear. However, metaphorically, her life story as an emblem for existential crisis serves as a psychological touchstone in the lives of early twentieth-century female authors, who struggled to find their rightful place in the world, to resolve the sorrow of unrequited love and devotion, and to reconcile experiences of societal abandonment and neglect as self-discovery.

Researcher Shanon Sinn found his curiosity piqued by stories of mysterious sightings on the island—ghosts, sasquatches, sea serpents—but he was disappointed in the sensational and sometimes disrespectful way they were being retold or revised. Acting on his desire to transform these stories from unsubstantiated gossip to thoroughly researched accounts, Sinn uncovered fascinating details, identified historical inconsistencies, and now retells these encounters as accurately as possible. Investigating 25 spellbinding tales that wind their way from the south end of the island to the north, Sinn explored hauntings in cities, in the forest, and on isolated logging roads. In addition to visiting castles, inns, and cemeteries, he followed the trail of spirits glimpsed on mountaintops, beaches, and water, and visited Heriot Bay Inn on Quadra Island and the Schooner Restaurant in Tofino to personally scrutinize reports of hauntings.
