around the world in 80 days notes: *Around the World in 80 Days* Jules Verne, 2024-06-25 It was at least certain that Phileas Fogg had not absented himself from London for many years. Those who were honoured by a better acquaintance with him than the rest, declared that nobody could pretend to have ever seen him anywhere else. His sole pastimes were reading the papers and playing whist. He often won at this game, which, as a silent one, harmonised with his nature; but his winnings never went into his purse, being reserved as a fund for his charities. Mr. Fogg played, not to win, but for the sake of playing. The game was in his eyes a contest, a struggle with a difficulty, yet a motionless, unwearying struggle, congenial to his tastes. Phileas Fogg was not known to have either wife or children, which may happen to the most honest people; either relatives or near friends, which is certainly more unusual. He lived alone in his house in Saville Row, whither none penetrated. A single domestic sufficed to serve him. He breakfasted and dined at the club, at hours mathematically fixed, in the same room, at the same table, never taking his meals with other members, much less bringing a guest with him; and went home at exactly midnight, only to retire at once to bed. He never used the cosy chambers which the Reform provides for its favoured members.

He passed ten hours out of the twenty-four in Saville Row, either in sleeping or making his toilet. When he chose to take a walk it was with a regular step in the entrance hall with its mosaic flooring, or in the circular gallery with its ...

Becker, 2024-09-23 Tense and aspect are crucial devices of sentence meaning. They interact with Aktionsart, but also with verb types and adverbs when indicating temporal relations and building temporal discourse structure. On the discourse level, they are co-determined by narrative functions, enhancing the complexity of their description. The volume depicts this vast field. It unites twelve contributions which elaborate on three thematic cores: 1) the context-sensitivity of tense and aspect and their relationships with neighbouring categories, 2) their interaction with adverbs, 3) their functioning in discourse. The volume advances our knowledge of the matters at hand in different respects. It discusses the onomasiological status of categories such temporality and aspectuality critically. It addresses the functioning of tense in discourse from various angles. A further focus is placed on the imperfective past tense-aspect form, its uses and meaning potentials. Its analysis ranges from marking evidentiality to indicating perspectives. The volume combines papers with various theoretical approaches and methodologies, notably, formally oriented linguistics and data-driven accounts. The multiplicity of subjects and methods may resonate beyond the field of Romance linguistics.
