

vellore institute of technology result

Vellore Institute of Technology Result: A Comprehensive Guide to Checking and Understanding Your Academic Performance

vellore institute of technology result is a phrase that resonates deeply with thousands of students enrolled at one of India's leading private universities. Every semester, the anticipation around the release of these results is palpable, as students eagerly await to see how their hard work has translated into grades. If you're a VIT student or planning to join, understanding how to access your results, interpret them, and what steps to take thereafter is crucial. This article aims to walk you through everything you need to know about the Vellore Institute of Technology result process, ensuring you stay informed and prepared.

Understanding the Vellore Institute of Technology Result System

At VIT, the examination and evaluation process is designed to maintain high academic standards while providing timely feedback to students. The university conducts semester-end exams twice a year, commonly referred to as Odd and Even semester exams. Once these exams are completed, the evaluation process commences, culminating in the declaration of results through the official VIT portal.

The Exam and Evaluation Process

The semester examinations at VIT cover both theory and practical components, depending on the course and subject. After exams conclude, the answer scripts are evaluated by faculty members, and internal assessments are also considered to arrive at a final score for each subject. This comprehensive evaluation ensures that your VIT result reflects both your theoretical understanding and practical skills.

Where and When to Check Your VIT Result

The official platform to check your VIT results is the university's online portal, known as VIT Student Portal or VIT ERP system. Students can log in using their credentials—usually a combination of their registration number and password—to access their results and academic records.

Typically, results are released within a few weeks after the examinations. The exact date may vary each semester, but VIT ensures prompt publication to

help students plan their next steps, whether it's preparing for supplementary exams or moving on to the next semester.

How to Access Your Vellore Institute of Technology Result Online

Navigating the online system to check your VIT result is straightforward once you know the steps. Here's a simple guide:

1. Visit the official VIT Student Portal at <https://vitstudentportal.vit.ac.in>.
2. Log in using your VIT registration number and password.
3. Navigate to the 'Examination' or 'Results' section on the dashboard.
4. Select the relevant semester for which you want to view the result.
5. Your detailed mark sheet, including subject-wise marks and overall GPA/CGPA, will be displayed.
6. Download or print the result for your records.

It's important to keep your login credentials secure and regularly check for any announcements related to result dates or system maintenance.

Interpreting Your VIT Result: What the Grades Mean

Once you have your result in hand, understanding what the numbers and grades signify is vital. VIT uses a grading system based on the Credit and Grade Point System (CGPA), which reflects your academic performance on a scale often ranging from 0 to 10.

- **Grade Points:** Each subject is assigned a grade point based on your marks.
- **Credit Hours:** Courses have assigned credits reflecting their weightage.
- **SGPA (Semester Grade Point Average):** Calculated for each semester, this average indicates your performance in that term.
- **CGPA (Cumulative Grade Point Average):** An aggregate of all semesters, used for final assessments like degree classification.

Understanding these terms helps you evaluate your academic standing and identify areas for improvement.

Common Issues and Solutions Regarding VIT Results

Sometimes, students encounter challenges while checking or interpreting their VIT results. Here are some common issues and tips to resolve them:

Result Not Displaying on Portal

If your result is not visible after the official release date, consider these steps:

- Double-check your login credentials for accuracy.
- Clear your browser cache or try accessing the portal from a different device or browser.
- Ensure that the result for your specific department and semester has been published.
- If issues persist, contact the VIT examination cell or IT support for assistance.

Discrepancies in Marks or Grades

Occasionally, students may notice discrepancies or errors in the marks awarded. In such cases:

- Review your answer scripts through the revaluation process, if available.
- Submit a formal application for revaluation within the stipulated time frame.
- Keep track of notifications from the examination cell regarding revaluation results.

Steps to Take After Receiving Your VIT Result

Your result is more than just a number; it's a roadmap for your academic journey. Here's how you can make the most of it:

Planning for Supplementary Exams and Re-examinations

If you have failed or scored below the passing criteria in any subject, don't panic. VIT offers supplementary exams that provide another opportunity to clear those subjects. Make sure to:

- Check the dates and application procedures for supplementary exams.
- Prepare effectively by reviewing weak areas and consulting faculty.
- Register within the deadline to avoid missing out on the chance.

Using Your Result for Academic and Career Planning

High-performing students can use their VIT results to apply for internships, scholarships, and research opportunities. Conversely, if your results are not as expected, consider:

- Seeking academic counseling to improve study strategies.
- Joining peer study groups for better understanding.
- Utilizing university resources like tutoring or workshops.

Additional Resources for VIT Students Regarding Results

VIT provides several resources to help students stay updated and manage their academic progress effectively:

- **Official Website and Portal:** Regularly updated with exam notifications and result announcements.

- **Student Forums and Social Media:** Platforms where peers share insights and experiences.
- **Academic Advisors:** Faculty members assigned to guide students on performance and course selections.
- **Help Desk Support:** Dedicated teams to assist with technical or academic queries concerning results.

Engaging with these resources can smoothen the process of receiving and understanding your VIT result.

Tips to Stay Prepared for Future VIT Results

While awaiting your next VIT result, consider adopting strategies that can enhance your academic performance and reduce anxiety associated with exam outcomes:

- **Regular Study Schedule:** Consistency helps in better retention and understanding.
- **Mock Tests and Previous Papers:** Practicing these can improve exam readiness.
- **Healthy Lifestyle:** Proper sleep, nutrition, and exercise contribute to cognitive performance.
- **Stay Informed:** Keep an eye on official announcements regarding exam schedules and results.

By incorporating these habits, you can approach each semester with confidence and clarity.

Navigating the Vellore Institute of Technology result process may seem daunting initially, but with the right information and approach, it becomes a manageable part of your academic journey. Whether it's understanding how to access your results, decoding the grading system, or knowing what to do next, staying proactive and informed will always work in your favor. Remember, your results are a reflection of your efforts, and every step you take towards improvement counts.

Frequently Asked Questions

When will the Vellore Institute of Technology (VIT) results be announced?

VIT results are typically announced within 2 to 3 weeks after the examination. Exact dates are published on the official VIT website.

Where can I check my VIT results online?

You can check your VIT results on the official VIT website under the 'Results' or 'Student Portal' section using your login credentials.

What details do I need to access my VIT result?

To access your VIT result, you generally need your registration number or roll number and sometimes your date of birth or password to log in to the student portal.

How can I download my VIT semester mark sheet?

After checking your result online, you can download the official mark sheet or scorecard as a PDF from the VIT student portal or the results section on the official website.

What should I do if there is an error in my VIT result?

If you find any discrepancy in your VIT result, you should immediately contact the VIT examination or academic office via email or phone for correction and clarification.

Can I apply for revaluation or rechecking of my VIT exam paper?

Yes, VIT offers a revaluation or rechecking process. You must apply within the specified time frame after the result announcement and pay the applicable fees.

How do VIT results impact placement opportunities?

VIT results reflect your academic performance, which is a key factor during campus placements. Higher scores can improve your chances of securing better job offers.

Are VIT result updates also available on mobile apps?

Yes, VIT provides updates and result notifications through their official mobile app and SMS alerts for enrolled students.

What is the grading system used in VIT results?

VIT follows a credit-based grading system with grades like O, A+, A, B+, B, C, and F, where O is the highest grade indicating outstanding performance.

How can I get my VIT result if I forget my login credentials?

If you forget your login credentials, you can use the 'Forgot Password' option on the VIT student portal or contact the VIT IT support/helpdesk to recover your account.

Vellore Institute of Technology Result: An In-Depth Overview and Analysis

vellore institute of technology result is a crucial milestone for thousands of students enrolled at one of India's premier private universities. As an institution renowned for its comprehensive academic programs, particularly in engineering, technology, and management, the timely and transparent declaration of results is pivotal for both students and faculty alike. This article delves into the various facets surrounding the VIT result system, exploring its accessibility, reliability, and the impact it has on students' academic trajectory and career planning.

Understanding the Vellore Institute of Technology Result System

The Vellore Institute of Technology (VIT) conducts semester examinations twice annually, typically in May-June and November-December. The results of these exams are critical indicators of student performance across a diverse range of courses, including undergraduate, postgraduate, and doctoral programs. The university employs a centralized evaluation system designed to ensure accuracy and fairness in grading.

Typically, the VIT result is published online through the official VIT portal, which serves as a centralized hub where students can access their marksheets and detailed course-wise performance reports. This digital approach aligns with global academic standards, enhancing transparency and

ease of access.

Key Features of the VIT Result Declaration Process

The VIT result system incorporates several notable features that enhance its efficiency:

- **Online Access:** Students can view their results by logging into the VIT student portal using secure credentials, ensuring privacy and security.
- **Comprehensive Mark Sheets:** Results include detailed breakdowns of continuous internal assessments, end-semester exams, and practicals, providing a holistic view of academic performance.
- **Revaluation and Rechecking:** The university offers a structured process for students to apply for revaluation if discrepancies or doubts arise, reflecting a commitment to fairness.
- **Timely Updates:** Results are usually declared within 30-45 days of exam completion, allowing students to promptly plan their academic and professional futures.

Analyzing the Impact of VIT Results on Student Progression

The significance of the VIT result extends beyond mere academic record-keeping. It directly influences student progression, eligibility for internships, scholarships, and job placements. Given VIT's reputation and placement partnerships with multinational corporations, strong academic performance documented through results can open doors to lucrative career opportunities.

Moreover, the grading system at VIT incorporates a semester-grade-point-average (SGPA) and cumulative-grade-point-average (CGPA), which are critical metrics used by recruiters and academic institutions alike. This quantifiable evaluation system enables easy comparison and benchmarking of student capabilities in competitive global environments.

Student Experiences and Feedback on VIT Result Accessibility

Feedback from the student community often highlights the advantages and occasional challenges faced with the VIT result system:

- **Ease of Access:** Most students appreciate the user-friendly online portal that allows quick retrieval of results without physical delays.
- **Transparency:** The detailed mark sheets and option for revaluation foster trust in the evaluation process.
- **Technical Issues:** Some students report temporary server overloads during result announcements, especially when multiple semesters' results are released simultaneously.
- **Communication:** Timely notifications via email and SMS about result publication are generally effective but can occasionally lack promptness.

How VIT Results Compare with Other Indian Universities

When juxtaposed with other leading Indian universities such as the Indian Institutes of Technology (IITs) and National Institutes of Technology (NITs), VIT's result system holds its own in terms of transparency and accessibility. While IITs often have centralized results portals with robust infrastructure, VIT's digital approach and student-centric design make it competitive and reliable.

One noteworthy aspect is VIT's continuous internal evaluation system, which some universities do not emphasize to the same extent. This approach provides a more nuanced assessment of student capabilities, measuring consistent effort rather than isolated exam performance.

Innovations and Technological Integration in VIT Result Management

VIT has embraced technological advancements to streamline and enhance the result declaration process:

- **Automated Evaluation Tools:** Leveraging software for initial answer sheet scanning helps reduce human error in marking.
- **Mobile App Integration:** The VIT mobile app allows students to receive

push notifications about result announcements and access their scores on the go.

- **Data Analytics:** The university employs analytics to monitor pass/fail trends, helping to guide curricular improvements.

These innovations contribute to a smoother experience for both students and administrative staff, reinforcing VIT's commitment to academic excellence.

Challenges and Areas for Improvement

Despite the strengths of the VIT result system, certain challenges persist:

- **Server Downtime During Peak Hours:** High traffic on result days can cause temporary inaccessibility, leading to student anxiety.
- **Delay in Revaluation Results:** While revaluation is available, the turnaround time can be lengthy, affecting students' academic planning.
- **Limited Offline Support:** Students with limited internet access sometimes face difficulties obtaining their results promptly.

Addressing these issues through enhanced server infrastructure, faster revaluation workflows, and hybrid result dissemination methods could further elevate the student experience.

The Role of VIT Results in Placements and Higher Education

The VIT result not only reflects student academic achievement but also plays a pivotal role in the placement process. Recruiters often set minimum CGPA criteria, making consistent performance essential. Additionally, students seeking admission to postgraduate programs, either within India or abroad, rely heavily on their VIT academic records to meet eligibility standards.

In this regard, the university's transparent and reliable result publication system supports student aspirations both academically and professionally.

The Vellore Institute of Technology result system exemplifies a commitment to transparency, accessibility, and academic rigor. As the institution continues to evolve, its result management infrastructure is likely to incorporate further technological advancements, reinforcing VIT's status as a leading

educational institution in India.

vellore institute of technology result: *Augmented Intelligence: Deep Learning, Machine Learning, Cognitive Computing, Educational Data Mining* Om Prakash Jena, 2022-07-29 Augmented intelligence is an alternate approach of artificial intelligence (AI), which emphasizes AI's assistive role. Augmented intelligence enhances human skills of reasoning in a robotic system or software by simulating expectancy, educational mining, problem solving, recollection, sequencing, and decision-making capabilities. It is based on a combination of techniques such as machine learning, deep learning and cognitive computing. This book explains artificial intelligence models that support assistive processes in different situations. The contributors aim to provide information to a diverse audience with groundbreaking developments in mathematical computing. The book presents 8 chapters on these topics: - Educational data mining in augmented reality virtual learning environment - Brain and computer interfaces - Tree-based tools for chemometric analysis of infrared spectra - Applications of deep learning in medical engineering - Bankruptcy prediction model using an enhanced boosting classifier - Reputation systems for mobile agent security - The crow search algorithm - COVID-19 diagnosis and treatment The contents attempt to integrate various facets of augmented Intelligence, by describing recent research developments and advanced topics of interest to academicians and researchers working on machine learning problems and AI.

vellore institute of technology result: Futuristic Communication and Network Technologies A. Sivasubramanian, Prasad N. Shastry, Pua Chang Hong, 2021-10-11 This book presents select proceedings of the International Conference on Futuristic Communication and Network Technologies (CFCNT 2020) conducted at Vellore Institute of Technology, Chennai. It covers various domains in communication engineering and networking technologies. This volume comprises of recent research in areas like optical communication, optical networks, optics and optical computing, emerging trends in photonics, MEMS and sensors, active and passive RF components and devices, antenna systems and applications, RF devices and antennas for microwave emerging technologies, wireless communication for future networks, signal and image processing, machine learning/AI for networks, internet of intelligent things, network security and blockchain technologies. This book will be useful for researchers, professionals, and engineers working in the core areas of electronics and communication.

vellore institute of technology result: Sustainable Communication Networks and Application P. Karrupusamy, Valentina Emilia Balas, Yong Shi, 2022-01-17 This book includes high-quality research papers presented at 3rd International Conference on Sustainable Communication Networks and Applications (ICSCN 2021), which is held at Surya Engineering College (SEC), Erode, India, during 29-30 July 2021. This book includes novel and state-of-the-art

research discussions that articulate and report all research aspects, including theoretical and experimental prototypes and applications that incorporate sustainability into emerging applications. The book discusses and articulates emerging challenges in significantly reducing the energy consumption of communication systems and also explains development of a sustainable and energy-efficient mobile and wireless communication network. It includes best selected high-quality conference papers in different fields such as Internet of Things, cloud computing, data mining, artificial intelligence, machine learning, autonomous systems, deep learning, neural networks, renewable energy sources, sustainable wireless communication networks, QoS, network sustainability, and many other related areas.

vellore institute of technology result: *Artificial Intelligence for Health 4.0: Challenges and Applications* Rishabha Malviya, Naveen Chilamkurti, Sonali Sundram, Rajesh Kumar Dhanaraj, Balamurugan Balusamy, 2023-03-10 Healthcare is one of the major success stories of our times. Medical science has improved rapidly, raising life expectancy around the world. However, as longevity increases, healthcare systems face growing demands for their services, rising costs, and a workforce that is struggling to meet the needs of its patients. Healthcare is one of the most critical sectors in the broader landscape of big data because of its fundamental role in a productive, thriving society. Building on automation, artificial intelligence (AI) has the potential to revolutionize healthcare and help address some of the challenges set out above. The application of AI to healthcare data can literally be a matter of life and death. AI can assist doctors, nurses, and other healthcare workers in their daily work. AI in healthcare can enhance preventive care and quality of life, produce more accurate diagnoses and treatment plans, and lead to better patient outcomes overall. This book gives insights into the latest developments of applications of AI in biomedicine, including disease diagnostics, pharmaceutical processing, patient care and monitoring, biomedical information, and biomedical research. It also presents an outline of the recent breakthroughs in the application of AI in healthcare, describes a roadmap to building effective, reliable, and safe AI systems, and discusses the possible future direction of AI augmented healthcare systems. AI has countless applications in healthcare. Whether it's being used to discover links between genetic codes, to power surgical robots or even to maximize hospital efficiency; AI has been a boon to the healthcare industry.

vellore institute of technology result: **Emerging Trends and Applications of Deep Learning for Biomedical Data Analysis** Smita Sharma, Balamurugan Balusamy, S. Ramesh, Ali Kashif Bashir, 2025-05-02 Emerging Trends and Applications of Deep Learning for Biomedical Data Analysis introduces the latest emerging trends and applications of deep learning in biomedical data analysis. This book delves into various use cases where deep learning is applied in industrial, social, and personal contexts within the biomedical domain. By gaining a comprehensive understanding of deep learning in biomedical data analysis, readers will develop the skills to critically evaluate research papers, methodologies, and emerging trends. In 11 chapters, this book provides insights into the fundamentals of the latest research trends in the applications of deep learning in biosciences. With several case studies and use cases, it familiarizes the reader with a comprehensive understanding of deep learning algorithms, architectures, and methodologies specifically applicable to biomedical data analysis. This title is an ideal reference for researchers across the biomedical sciences.● Provides a succinct overview of the cutting-edge technologies that are altering disease diagnosis, patient monitoring, and medical research● Bridges the gap between biomedical engineering and deep learning by providing a comprehensive resource for comprehending the intersection of these disciplines● Investigates how deep learning may change healthcare by providing new insights, diagnostics, and treatments via intelligent biomedical systems

vellore institute of technology result: *Soft Computing and Signal Processing* Jiachun Wang, G. Ram Mohana Reddy, V. Kamakshi Prasad, V. Sivakumar Reddy, 2019-02-13 The book includes research papers on current developments in the field of soft computing and signal processing, selected from papers presented at the International Conference on Soft Computing and Signal Processing (ICSCSP 2018). It features papers on current topics, such as soft sets, rough sets, fuzzy

logic, neural networks, genetic algorithms and machine learning. It also discusses various aspects of these topics, like technologies, product implementation, and application issues.

vellore institute of technology result: Information Systems Design and Intelligent Applications Suresh Chandra Satapathy, Vikrant Bhateja, Radhakrishna Somanah, Xin-She Yang, Roman Senkerik, 2018-12-30 The book gathers a collection of high-quality peer-reviewed research papers presented at the International Conference on Information System Design and Intelligent Applications (INDIA 2018), which was held at the Universite des Mascareignes, Mauritius from July 19 to 21, 2018. It covers a wide range of topics in computer science and information technology, from image processing, database applications and data mining, to grid and cloud computing, bioinformatics and many more. The intelligent tools discussed, e.g. swarm intelligence, artificial intelligence, evolutionary algorithms, and bio-inspired algorithms, are currently being applied to solve challenging problems in various domains.

vellore institute of technology result: Inclusivity and Accessibility in Digital Health Anshari, Muhammad, Almunawar, Mohammad Nabil, Ordonez de Pablos, Patricia, 2024-04-15 The persistent challenge of inequitable access to quality services plagues diverse age groups, creating a glaring gap in our pursuit of inclusive well-being. Despite the revolutionary strides in digital health and artificial intelligence (AI), the promise of universal accessibility remains unfulfilled. The disparities demand a comprehensive understanding of obstacles hindering inclusivity, setting the stage for a transformative solution. Inclusivity and Accessibility in Digital Health is a groundbreaking exploration that is a beacon of change in the healthcare narrative. This book transcends conventional boundaries, offering innovative frameworks, case studies, and empirical research. It delves into the transformative potential of AI and digital health, presenting actionable insights to tailor healthcare services, manage diseases, and elevate overall well-being. Aligned with the United Nations Sustainable Development Goals, this book inspires researchers, healthcare professionals, policymakers, and tech enthusiasts to harness the power of technology for an inclusive healthcare revolution.

vellore institute of technology result: *Handbook of Research on AI and Machine Learning Applications in Customer Support and Analytics* Hossain, Md Shamim, Ho, Ree Chan, Trajkovski, Goran, 2023-05-02 In the modern data-driven era, artificial intelligence (AI) and machine learning (ML) technologies that allow a computer to mimic intelligent human behavior are essential for organizations to achieve business excellence and assist organizations in extracting useful information from raw data. AI and ML have existed for decades, but in the age of big data, this sort of analysis is in higher demand than ever, especially for customer support and analytics. The *Handbook of Research on AI and Machine Learning Applications in Customer Support and Analytics* investigates the applications of AI and ML and how they can be implemented to enhance customer support and analytics at various levels of organizations. This book is ideal for marketing professionals, managers, business owners, researchers, practitioners, academicians, instructors, university libraries, and students, and covers topics such as artificial intelligence, machine learning, supervised learning, deep learning, customer sentiment analysis, data mining, neural networks, and business analytics.

vellore institute of technology result: Nano-refrigerants and Nano-lubricants Zafar Said, Arun Kumar Tiwari, 2024-07-26 *Nano-refrigerants and Nano-lubricants: Fundamentals and Applications* provides an overview of nano-refrigerants and nano-lubricants, their synthesis, characterization, and influence of nanoparticles on the thermophysical properties. The book also describes the theoretical modeling and correlations using artificial intelligence, along with the effect of all these parameters on potential applications. Future challenges and research directions are thoroughly addressed by authors. *Nano-refrigerants and Nano-lubricants* are a novel class of nanofluids containing a mixture of nanoparticles, lubricant, and refrigerant, and because of their enhanced heat transfer properties, they have a broad potential range of residential and commercial applications. - Summarizes preparation and characterization techniques for nano-refrigerants and nano-lubricants - Examines a selection of nanoparticles based on variation in thermophysical

properties and includes theoretical models and correlations for predicting their properties - Features stability analysis of nano-refrigerants and nano-lubricants

vellore institute of technology result: *Proceedings of the Joint 3rd International Conference on Bioinformatics and Data Science (ICBDS 2022)* R. Somashekhar, Preenon Bagchi, T. S. Rajesh, Richard Hill, Kathryn Rossi, 2023-06-05 This is an open access book. We are pleased to announce our 3rd International Conference on Bioinformatics and Data Science (ICBDS – 2022) and 9th International Conference on Public Mental Health and Neurosciences (ICPMN – 2022) which was a unique conference where we connected Biological Function through Computational Genomics to the world of integrated medicine and therapeutics. Functional genomics is a field of molecular biology that attempts to describe gene (and protein) functions and interactions. This science aims to understand the complex relationship between genotype and phenotype on a global (genome-wide) scale of different biological processes. Most researchers now study genes or regions on a “genome-wide” scale (i.e. all or multiple genes/regions at the same time), with the hope of narrowing them down to a list of candidate genes or regions to analyze in more detail. There are several specific functional genomics approaches depending on what we are focused on DNA level (genomics and epigenomics), RNA level (transcriptomics), protein level (proteomics), metabolite level (metabolomics) and phenotype level (phenomics). The recent trends in gene and genome editing technologies, promising genomic information can be modulated in the areas of medicine, agriculture and environment. Big data is a promising in many research areas, but still it is computationally challenging and non-availability of experts to handle big-data with reduced speed and cost. With the increasing use of advanced technology and the exploding amount of big-data in, it is imperative to introduce effective and efficient methods to handle big data using computing technologies. The big data analytics technique is required to solve the problems in bioinformatics such as the storage of vast information generated by analyzing the big-data. Big data analytics can examine large data sets, analyze and correlate genomic and proteomic information. Big data research finds a huge application in Neuroscience and Brain research. Our unique conference connects genomics to the world of genomics to integrated medicine including yogic sciences.

vellore institute of technology result: *Intelligent and Fuzzy Systems* Cengiz Kahraman, Irem Ucal Sari, Basar Oztaysi, Selcuk Cebi, Sezi Cevik Onar, A. Çağrı Tolga, 2023-08-16 This book consists of the papers accepted after a careful review process at an international scientific meeting where the latest developments on intelligent and fuzzy systems are presented and discussed. The latest developments in both the theoretical and practical fields of the new fuzzy set extensions have been prepared by expert researchers. Contributed by participants from more than 40 different countries, this book is also a useful resource in terms of showing the levels that fuzzy and intelligent systems have reached in various countries of the world. The intended readers are intelligent and fuzzy systems researchers, lecturers, M.Sc., and Ph.D. students studying fuzzy sets and artificial intelligence. The book covers fuzzy logic theory and applications, heuristics, and metaheuristics from optimization to machine learning, from quality management to risk management, making the book an excellent source for researchers.

vellore institute of technology result: *Deep Learning Applications in Image Analysis* Sanjiban Sekhar Roy, Ching-Hsien Hsu, Venkateshwara Kagita, 2023-07-08 This book provides state-of-the-art coverage of deep learning applications in image analysis. The book demonstrates various deep learning algorithms that can offer practical solutions for various image-related problems; also how these algorithms are used by scientists and scholars in industry and academia. This includes autoencoder and deep convolutional generative adversarial network in improving classification performance of Bangla handwritten characters, dealing with deep learning-based approaches using feature selection methods for automatic diagnosis of covid-19 disease from x-ray images, imbalance image data sets of classification, image captioning using deep transfer learning, developing a vehicle over speed detection system, creating an intelligent system for video-based proximity analysis, building a melanoma cancer detection system using deep learning, plant diseases classification using AlexNet, dealing with hyperspectral images using deep learning, chest x-ray

image classification of pneumonia disease using efficient net and inceptionv3. The book also addresses the difficulty of implementing deep learning in terms of computation time and the complexity of reasoning and modelling different types of data where information is currently encoded. Each chapter has the application of various new or existing deep learning models such as Deep Neural Network (DNN) and Deep Convolutional Neural Networks (DCNN). The detailed utilization of deep learning packages that are available in MATLAB, Python and R programming environments have also been discussed, therefore, the readers will get to know about the practical implementation of deep learning as well. The content of this book is presented in a simple and lucid style for professionals, nonprofessionals, scientists, and students interested in the research area of deep learning applications in image analysis.

vellore institute of technology result: Emerging Advancements in AI and Big Data Technologies in Business and Society Zhao, Jingyuan, Richards, Joseph, Kumar, V. Vinoth, 2024-07-22 Today, the convergence of Artificial Intelligence (AI) and Big Data has revolutionized industries worldwide, driving business growth and reshaping societies. While these technologies have yielded remarkable benefits, many developing countries face challenges in harnessing their potential due to inadequate data collection and availability. *Emerging Advancements in AI and Big Data Technologies in Business and Society* delves into the profound impact of AI and Big Data on the digital landscape and their transformative influence on social, economic, and political spheres. With a historical overview of AI's evolution and its operational definition, this book explores interconnected subfields such as problem-solving, intelligent agents, natural language processing, computer vision, and machine learning. AI is hailed as the fourth industrial revolution and the widespread use of AI technologies prompts discussions about their applications, performances, and societal impact. This book serves as a comprehensive guide for academics, researchers, and students in universities and engineering schools. It also caters to policymakers, government officers, corporate leaders, technology directors, and managers seeking to understand the potential of AI and Big Data. Additionally, libraries and information centers catering to the needs of these professionals will find this book an essential resource.

vellore institute of technology result: Neuromorphic Computing Systems for Industry 4.0 Dhanasekar, S., Sagayam, K. Martin, Vijh, Surbhi, Tyagi, Vipin, Norta, Alex, 2023-07-19 As artificial intelligence (AI) processing moves from the cloud to the edge of the network, battery-powered and deeply embedded devices are challenged to perform AI functions such as computer vision and voice recognition. Microchip Technology Inc., via its Silicon Storage Technology (SST) subsidiary, is addressing this challenge by significantly reducing power with its analog memory technology, the memBrain Memory Solution. The memBrain solution is being adopted by today's companies looking to advance machine learning capacities in edge devices. Due to its ability to significantly reduce power, this analog in-memory computer solution is ideal for an AI application. *Neuromorphic Computing Systems for Industry 4.0* covers the available literature in the field of neural computing-based microchip technology. It provides further research opportunities in this dynamic field. Covering topics such as emotion recognition, biometric authentication, and neural network protection, this premier reference source is an essential resource for technology developers, computer scientists, engineers, students and educators of higher education, librarians, researchers, and academicians.

vellore institute of technology result: Handbook of Research on Solving Societal Challenges Through Sustainability-Oriented Innovation Carvalho, Luísa Cagica, Bogas, Paulo, Kneipp, Jordana, Avila, Lucas, Ossmane, Elis, 2023-03-23 In light of deeply dynamic and challenging contexts, innovation as a driver of sustainability could provide recommendations and real solutions to achieve a better world. Sustainable technologies are a critical aspect of modern innovation, as they consider natural resources and foster economic and social development. The goal of these technologies is to drastically reduce environmental and ecological risks and to create a sustainable product. The *Handbook of Research on Solving Societal Challenges Through Sustainability-Oriented Innovation* emphasizes the importance of innovation and sustainability as a possible solution for the challenges

of society and reflects on the trends and opportunities for the coming decades. Covering key topics such as big data, innovation, digitalization, circular economy, and artificial intelligence, this premier reference source is ideal for industry professionals, government officials, computer scientists, policymakers, researchers, scholars, practitioners, instructors, and students.

vellore institute of technology result: Smart Grids and Green Energy Systems A. Chitra, V. Indragandhi, W. Razia Sultana, 2022-09-28 SMART GRIDS AND GREEN ENERGY SYSTEMS Green energy and smart grids are two of the most important topics in the constantly emerging and changing energy and power industry. Books like this one keep the veteran engineer and student, alike, up to date on current trends in the technology and offer a reference for the industry for its practical applications. Smart grids and green energy systems are promising research fields which need to be commercialized for many reasons, including more efficient energy systems and environmental concerns. Performance and cost are tradeoffs which need to be researched to arrive at optimal solutions. This book focuses on the convergence of various technologies involved in smart grids and green energy systems. Areas of expertise, such as computer science, electronics, electrical engineering, and mechanical engineering are all covered. In the future, there is no doubt that all countries will gradually shift from conventional energy sources to green energy systems. Thus, it is extremely important for any engineer, scientist, or other professional in this area to keep up with evolving technologies, techniques, and processes covered in this important new volume. This book brings together the research that has been carrying out in the field of smart grids and green energy systems, across a variety of industries and scientific subject-areas. Written and edited by a team of experts, this groundbreaking collection of papers serves as a point of convergence wherein all these domains need to be addressed. The various chapters are configured in order to address the challenges faced in smart grid and green energy systems from various fields and possible solutions. Valuable as a learning tool for beginners in this area as well as a daily reference for engineers and scientists working in these areas, this is a must-have for any library.

vellore institute of technology result: Non-Conventional Synthesis György Keglevich, Bubun Banerjee, 2023-11-06 Non-conventional synthetic methods may provide new and green methods for the preparation of bioactive heterocycles. These methods, such as microwave and ultrasound assisted synthesis, biocatalysis, photochemistry and electrosynthesis use less energy and may produce less waste to get the desired products when compared to traditional methods. This book explores the use of these methods when synthesizing various biologically relevant heterocyclic scaffolds. THE SERIES: GREEN BIOACTIVE HETEROCYCLES Heterocycles are a widely utilized group of molecules as they often contain bioactivity that is useful in drug development, agriculture, and other applications. However, their synthesis remains challenging with difficult to control functional groups. With a greater focus on sustainable synthesis practices, there is a need to develop greener synthetic methods for the synthesis of structurally diverse bioactive heterocyclic scaffolds. This series aims to do so, by collecting developments into common themes.

vellore institute of technology result: Recent Advances in Geotechnical Engineering, Volume 1 K. Premalatha, Vidya Bhushan Maji, M. Muttharam, R. G. Robinson, 2025-05-10 This book presents the select proceedings of the First Women Indian Geotechnical Conference (WIGC) 2024 showcasing the overarching theme of Geotechnics for Sustainable and Resilient Infrastructure. The book presents cutting-edge contributions from distinguished women geotechnical engineers and esteemed professors across the field of geotechnical engineering. Encompassing a broad spectrum of topics, the contributions in this volume cover pivotal areas, such as geomaterial characterization, sustainable waste management, geoenvironmental engineering, foundation engineering, landslides and slope stability, ground improvement, soft clay engineering, AI/ML applications in geotechnical engineering, and illuminating case studies in the field. This book will prove useful to graduate students, researchers, academics, and professional engineers working in geotechnical engineering, civil engineering, and geological engineering.

Online Apotheke und Versandapotheke - Herzlich willkommen bei Ihrer persönlichen Versandapotheke medikamente-per-klick.de!

Online Apotheke und Versandapotheke - Durch die Vielseitigkeit des Sortimentes ist die Klick Apotheke in der Lage, den Kunden aus Selbitz und Umgebung direkten Service zu bieten ohne lange Wartezeiten in Kauf zu nehmen

SONDERANGEBOTE - Versandapotheke - Medikamente günstig Versandapotheke: Versandkostenfrei ab 15€ viele Zahlungsarten bis zu 50% sparen Jetzt günstig kaufen bei medikamente-per-klick

Online Apotheke und Versandapotheke - Bestellen Sie Ihre Verschreibungen mühelos online, ergänzen Sie Ihre Bestellung jederzeit um zusätzliche Medikamente und profitieren Sie von kostenloser Lieferung

Online Apotheke und Versandapotheke - medikamente-per-klick Heute ist medikamente-per-klick.de eine der größten Versandapotheken Europas. Zum Gelingen einer schnellen Bearbeitung, erstklassigen Beratung und der hohen Kundenzufriedenheit

E-Rezept einlösen - Einfach online bei Sie können es per App, mit dem Papierausdruck oder direkt mit Ihrer Gesundheitskarte in der Apotheke Ihrer Wahl einlösen. Dies spart Zeit und erleichtert besonders Menschen mit

Online Apotheke und Versandapotheke - Der Versand von rezeptpflichtigen Medikamenten erfolgt innerhalb Deutschlands versandkostenfrei. Damit Sie Ihre Medikamente so schnell wie möglich erhalten, garantieren

- **Topseller** Versandapotheke: Versandkostenfrei ab 15 € viele Zahlungsarten bis zu 50% sparen Jetzt günstig kaufen bei medikamente-per-klick

Markenshops - Versandapotheke - Medikamente günstig kaufen Versandapotheke: Versandkostenfrei ab 15€ viele Zahlungsarten bis zu 50% sparen Jetzt günstig kaufen bei medikamente-per-klick

Online Apotheke und Versandapotheke - mit unserem Wechselwirkungsscheck können Sie sich unabhängig von der telefonischen Beratung, mit nur wenigen Klicks darüber informieren, welche Medikamente Sie miteinander einnehmen

Datumprikker zonder emailadressen.. • Zoals waarschijnlijk al wel duidelijk, ben ik op zoek naar een datumprikker waarbij je geen emailadressen hoeft in te vullen voor de mensen die je wilt dat ze de datumprikker

Op zoek naar Datumprikker-alternatief - Forum Joomla!NL Ik zoek een Jpomla!-extensie waarmee ik een Datumprikker-functionaliteit op een site kan inbouwen. Het idee is als volgt: Geregistreerde leden van de vereniging

[H] Maasvlakte, juli/augustus 2022 - Hallo allemaal! Vanuit de meeting van 30 april op de Sysselt zijn een hoop ideeën gekomen voor nieuwe meetings, waaronder eentje op de Maasvlakte in juni/juli dit jaar.

Niet reageren op een uitnodiging via whatsapp • Misschien ben ik hopeloos ouderwets, zeg het me dan Er valt mij al langere tijd op dat mensen slecht maar ook geheel niet reageren op een app berichtje. Een voorbeeld: Manlief

[VRAAG] Help! Kleuren foto's wijken af - Help! Zoals de titel al doet omschrijven heb ik een probleem m.b.t het afwijken van kleuren in mijn foto's. Sinds kort ben ik mijn hobby weer aan het oppakken. Het uiteindelijk

[P] Meeting Genieput [*] April/Mei '16** - Ras: Bijzonderheden: Max 2 foto's mee sturen Fotografen Boktnaam + Website/ FB. Nogmaals, aanmelden via pb. Fotografen gaan mee op volgorde, modellen worden

Joomla!NL - [opgelost] Plugin voor digitale petitie - Forum Joomla!NL Forms Pro is idd een plugin met uitgebreidere mogelijkheden dan Form Maker zo te zien. Datumprikker.nl zou ik niet weten of het daarmee kan. Ik ga eens aan de slag met Form
