romance novels set in ireland: Hidden Rivalries in Victorian Fiction Jerome Meckier, 2021-10-21 Victorian fiction has been read and analyzed from a wide range of perspectives in the past century. But how did the novelists themselves read and respond to each other's creations when they first appeared? Jerome Meckier answers that intriguing question in this ground-breaking study of what he terms the Victorian realism wars. Meckier argues that nineteenth-century British fiction should be seen as a network of intersecting reactions and counteractions in which the novelists

rethought and rewrote each other's novels as a way of enhancing their own credibility. In an increasingly relative world, thanks to the triumph of a scientific secularity, the goal of the novelist was to establish his or her own credentials as a realist, hence a reliable social critic, by undercutting someone else's—usually Charles Dickens's. Trollope, Mrs. Gaskell, and especially George Eliot attempted to make room for themselves in the 1850s and 1860s by pushing Dickens aside. Wilkie Collins tried a different form of parodic revaluation: he strove to outdo Dickens at the kind of novel Dickens thought he did best, the kind his other rivals tried to cancel, tone down, or repair, ostensibly for being too melodramatic but actually for expressing too negative a world view. For his part, Dickens—determined to remain inimitable—replied to all of his rivals by redoing them as spiritedly as they had reused his characters and situations to make their own statements and to discredit his. Thus Meckier redefines Victorian realism as the bravura assertion by a major novelist (or one soon to be) that he or she was a better realist than Dickens. By suggesting the ways Victorian novelist read and rewrote each other's work, this innovative study alters present day perceptions of such double-purpose novels as *Felix Holt*, *Bleak House*, *Middlemarch*, *North and South*, *Hard Times*, *The Woman in White*, and *The Mystery of Edwin Drood*.

romance novels set in ireland: The Romantic National Tale and the Question of Ireland Ina Ferris, 2002-11-21 Ina Ferris examines the way in which the problem of 'incomplete union' generated by the formation of the United Kingdom in 1800 destabilised British public discourse in the early decades of the nineteenth century. Ferris offers the first full-length study of the chief genre to emerge out of the political problem of Union: the national tale, an intercultural and mostly female-authored fictional mode that articulated Irish grievances to English readers. Ferris draws on current theory and archival research to show how the national tale crucially intersected with other public genres such as travel narratives, critical reviews and political discourse. In this fascinating study, Ferris shows how the national tales of Morgan, Edgeworth, Maturin, and the Banim brothers dislodged key British assumptions and foundational narratives of history, family and gender in the period.

romance novels set in ireland: The Doctor in the Victorian Novel Tabitha Sparks, 2016-03-23 With the character of the doctor as her subject, Tabitha Sparks follows the decline of the marriage plot in the Victorian novel. As Victorians came to terms with the scientific revolution in medicine of the mid-to-late nineteenth century, the novel's progressive distance from the conventions of the marriage plot can be indexed through a rising identification of the doctor with scientific empiricism. A narrative's stance towards scientific reason, Sparks argues, is revealed by the fictional doctor's relationship to the marriage plot. Thus, novels that feature romantic doctors almost invariably deny the authority of empiricism, as is the case in George MacDonald's *Adela Cathcart*. In contrast, works such as Wilkie Collins's *Heart and Science*, which highlight clinically minded or even sinister doctors, uphold the determining logic of science and, in turn, threaten the

novel's romantic plot. By focusing on the figure of the doctor rather than on a scientific theme or medical field, Sparks emulates the Victorian novel's personalization of tropes and belief systems, using the realism associated with the doctor to chart the sustainability of the Victorian novel's central imaginative structure, the marriage plot. As the doctors Sparks examines increasingly stand in for the encroachment of empirical knowledge on a morally formulated artistic genre, their alienation from the marriage plot and its interrelated decline succinctly herald the end of the Victorian era and the beginning of Modernism.

romance novels set in ireland: *Irish Novels 1890-1940* John Wilson Foster, 2008-02-21
Studies of Irish fiction are still scanty in contrast to studies of Irish poetry and drama. Attempting to fill a large critical vacancy, *Irish Novels 1890-1940* is a comprehensive survey of popular and minor fiction (mainly novels) published between 1890 and 1922, a crucial period in Irish cultural and political history. Since the bulk of these sixty-odd writers have never been written about, certainly beyond brief mentions, the book opens up for further exploration a literary landscape, hitherto neglected, perhaps even unsuspected. This new landscape should alter the familiar perspectives on Irish literature of the period, first of all by adding genre fiction (science fiction, detective novels, ghost stories, New Woman fiction, and Great War novels) to the Irish syllabus, secondly by demonstrating the immense contribution of women writers to popular and mainstream Irish fiction. Among the popular and prolific female writers discussed are Mrs J.H. Riddell, B.M. Croker, M.E. Francis, Sarah Grand, Katharine Tynan, Ella MacMahon, Katherine Cecil Thurston, W.M. Letts, and Hannah Lynch. Indeed, a critical inference of the survey is that if there is a discernible tradition of the Irish novel, it is largely a female tradition. A substantial postscript surveys novels by Irish women between 1922 and 1940 and relates them to the work of their female antecedents. This ground-breaking survey should also alter the familiar perspectives on the Ireland of 1890-1922. Many of the popular works were problem-novels and hence throw light on contemporary thinking and debate on the 'Irish Question'. After the Irish Literary Revival and creation of the Free State, much popular and mainstream fiction became a lost archive, neglected evidence, indeed, of a lost Ireland.

romance novels set in ireland: *The Irish Voice in America* Charles Fanning, 2021-10-21 In this study, Charles Fanning has written the first general account of the origins and development of a literary tradition among American writers of Irish birth or background who have explored the Irish immigrant or ethnic experience in works of fiction. The result is a portrait of the evolving fictional self-consciousness of an immigrant group over a span of 250 years. Fanning traces the roots of Irish-American writing back to the eighteenth century and carries it forward through the traumatic years of the Famine to the present time with an intensely productive period in the twentieth century beginning with James T. Farrell. Later writers treated in depth include Edwin O'Connor, Elizabeth Cullinan, Maureen Howard, and William Kennedy. Along the way he places in the historical record many all but forgotten writers, including the prolific Mary Ann Sadlier. *The Irish Voice in America* is

not only a highly readable contribution to American literary history but also a valuable reference to many writers and their works. For this second edition, Fanning has added a chapter that covers the fiction of the past decade. He argues that contemporary writers continue to draw on Ireland as a source and are important chroniclers of the modern American experience.

This is an anthology of Gothic Literature, set within the context of contemporary criticism and readers' responses. It includes selections from the major practitioners and many of their followers, as well as contemporary reviews, private letters and diaries, chapbooks, and contemporary anecdotes about dramatic performances and the design of theatre sets. The selections provide representative samples of the major genres - historical gothic, the Radcliffe school of terror, the Lewis school of horror, tragic melodrama, comic parody, supernatural poetry and ballads, book reviews and literary criticism and anti-Gothic polemic.

romance novels set in ireland: *The Oxford Handbook of British Romantic Prose* Robert Morrison, 2024-04-03
The Oxford Handbook of British Romantic Prose is a full-length essay collection devoted entirely to British Romantic nonfiction prose. Organized into eight parts, each containing between five and nine chapters arranged alphabetically, the Handbook weaves together familiar and unfamiliar texts, events, and authors, and invites readers to draw comparisons, reimagine connections and disconnections, and confront frequently stark contradictions, within British Romantic nonfiction prose, but also in its relationship to British Romanticism more generally, and to the literary practices and cultural contexts of other periods and countries. The Handbook builds on previous scholarship in the field, considers emerging trends and evolving methodologies,

and suggests future areas of study. Throughout the emphasis is on lucid expression rather than gnomic declaration, and on chapters that offer, not a dutiful survey, but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples. Taken as a whole the volume demonstrates the energy, originality, and diversity at the crux of British Romantic nonfiction prose. It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets, and it reveals the many ways in which scholars of the period are steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers.
