let freedom ring song history: *Prophetic Politics* David S. Gutterman, 2018-07-05 In an era of military conflict and economic hardship, religious and political leaders adamantly speak in the language of crisis. Whether one attributes this public religious fervor to a response to the attacks of September 11, 2001, millennial hopes and fears, a sense of moral decay (generally based on either growing economic inequality or the 'breakdown of the American family'), or a sign of the normal progression of the stages of history, the discourse of religious revival is increasingly prominent. And, as is amply evident in the United States and throughout the world, devout declarations of religious belief in the public sphere can bring intractable passions to politics.—from Chapter 1 What are the relationships among religion, politics, and narratives? What makes prophetic political narratives congenial or hostile to democratic political life? David S. Gutterman explores the prophetic politics of four twentieth- and twenty-first-century American Christian social movements: the Reverend Billy Sunday and his vision of muscular Christianity; Dr. Martin Luther King, Jr., and the Civil Rights movement; the conservative Christian male organization Promise Keepers; and the progressive antipoverty organization Call to Renewal. Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States. In the process, he examines timely issues about the tense and intricate relationship between religion and politics. Even prior to George W. Bush's faith-based initiative, debates about abortion, family values, welfare reform, and environmental degradation were informed by religious language and ideas. In an interdisciplinary and accessible manner, Gutterman translates the narratives employed by American Christian social movements to define both the crises in the land and the path to resolving these crises. The book also explores the engagement of these prophetic social movements in contentious political issues concerned with sex, gender, sexuality, race, and class, as well as broader questions of American identity.

let freedom ring song history: Ain't Scared of Your Jail Zoe A Colley, 2012-12-16

Imprisonment became a badge of honor for many protestors during the civil rights movement. With the popularization of expressions such as jail-no-bail and jail-in, civil rights activists sought to transform arrest and imprisonment from something to be feared to a platform for the cause. Beyond Dr. Martin Luther King Jr.'s Letters from the Birmingham Jail, there has been little discussion on the incarceration experiences of civil rights activists. In her debut book, Zoe Colley does what no historian has done before by following civil rights activists inside the southern jails and prisons to explore their treatment and the different responses that civil rights organizations had to mass arrest and imprisonment. Colley focuses on the shift in philosophical and strategic responses of civil rights protestors from seeing jail as something to be avoided to seeing it as a way to further the cause. Imprisonment became a way to expose the evils of segregation, and highlighted to the rest of American society the injustice of southern racism. By drawing together the narratives of many individuals and organizations, Colley paints a clearer picture how the incarceration of civil rights activists helped shape the course of the movement. She places imprisonment at the forefront of civil rights history and shows how these new attitudes toward arrest continue to impact contemporary society and shape strategies for civil disobedience.

The legendary critic and author of Mystery Train "ingeniously retells the tale of rock and roll" (Publishers Weekly, starred review). Unlike previous versions of rock 'n' roll history, this book omits almost every iconic performer and ignores the storied events and turning points everyone knows. Instead, in a daring stroke, Greil Marcus selects ten songs and dramatizes how each embodies rock 'n' roll as a thing in itself, in the story it tells, inhabits, and acts out—a new language, something new under the sun. "Transmission" by Joy Division. "All I Could Do Was Cry" by Etta James and then Beyoncé. "To Know Him Is to Love Him," first by the Teddy Bears and almost half a century later by Amy Winehouse. In Marcus's hands these and other songs tell the story of the music, which is, at bottom, the story of the desire for freedom in all its unruly and liberating glory. Slipping the

constraints of chronology, Marcus braids together past and present, holding up to the light the ways that these striking songs fall through time and circumstance, gaining momentum and meaning, astonishing us by upending our presumptions and prejudices. This book, by a founder of contemporary rock criticism—and its most gifted and incisive practitioner—is destined to become an enduring classic. “One of the epic figures in rock writing.”—The New York Times Book Review “Marcus is our greatest cultural critic, not only because of what he says but also, as with rock-and-roll itself, how he says it.”—The Washington Post Winner of the Deems Taylor Virgil Thomson Award in Music Criticism, given by the American Society of Composers, Authors & Publishers

Hungarian-born composer Sigmund Romberg (1887–1951) arrived in America in 1909 and within eight years had achieved his first hit musical on Broadway. This early success was soon followed by others, and in the 1920s his popularity in musical theater was unsurpassed. In this book, William Everett offers the first detailed study of the gifted operetta composer, examining Romberg’s key works and musical accomplishments and demonstrating his lasting importance in the history of American musicals. Romberg composed nearly sixty works for musical theater as well as music for revues, for musical comedies, and, later in life, for Hollywood films. Everett shows how Romberg was a defining figure of American operetta in the 1910s and 1920s (Maytime, Blossom Time, The Student Prince), traces the new model for operetta that he developed with Oscar Hammerstein II in the late 1920s (The Desert Song, The New Moon), and looks at his reworked style of the 1940s (Up in Central Park). This book offers an illuminating look at Romberg’s Broadway career and legacy./DIV/DIV
