taylor kinney dating history: Friendly Fire : American Images of the Vietnam War Riverside Katherine Kinney Associate Professor of English University of California, 2000-10-09 Hundreds of memoirs, novels, plays, and movies have been devoted to the American war in Vietnam. In spite of the great variety of mediums, political perspectives and the degrees of seriousness with which the war has been treated, Katherine Kinney argues that the vast majority of these works share a single story: that of Americans killing Americans in Vietnam. Friendly Fire, in this instance, refers not merely to a tragic error of war, it also refers to America's war with itself during the Vietnam years. Starting from this point, this book considers the concept of friendly fire from multiple vantage points, and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered--pitting soldiers against superiors, doves against hawks, feminism against patriarchy, racial fear against racial tolerance. Through the use of extensive evidence from the film and popular fiction of Vietnam (i.e. Kovic's Born on the Fourth of July, Didion's Democracy, O'Brien's Going After Cacciato, Rabe's Sticks and Bones and Streamers), Kinney draws a powerful picture of a nation politically, culturally, and socially divided, and a war that has been memorialized as a contested site of art, media, politics, and ideology.

At the same time these papers look beyond the patristic period, both backward to these authors' appropriation of the classical and Christian traditions, and forward to their function as authorities in later medieval intellectual history, from the Carolingian Renaissance to Anselm of Canterbury, the scholastics, and Dante. Themes which these papers address include the transmission and use of Platonism and Stoicism, logic and linguistic theory, and the ethics of lying, moral indifference, and the salvation of the virtuous pagan.

taylor kinney dating history: Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections—be it a committed relationship, a hook-up, or a community in which to dabble in fringe sexual practices. Popular culture (film, narrative television, the news media, and advertising)

present two very distinct pictures of the use of the Internet as related to intimacy. From news reports about victims of online dating, to the presentation of the desperate and dateless, the perverts and the deviants, a distinct frame for the intimacy/Internet connection is negativity. In some examples however, a changing picture is emerging. The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news, resulting in more positive-spin advertising and a more even-handed presence of such liaisons in narrative television and film. Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender, sexuality, technology and the changing mores regarding intimacy.

taylor kinney dating history: The Mobility of People and Things in the Early Modern Mediterranean Elisabeth A. Fraser, 2019-07-23
For centuries artists, diplomats, and merchants served as cultural intermediaries in the Mediterranean. Stationed in port cities and other entrepôts of the Mediterranean, these go-betweens forged intercultural connections even as they negotiated and sometimes promoted cultural misunderstandings. They also moved objects of all kinds across time and space. This volume considers how the mobility of art and material culture is intertwined with greater Mediterranean networks from 1580 to 1880. Contributors see the movement of people and objects as transformational, emphasizing the trajectory of objects over single points of origin, multiplicity over unity, and mutability over stasis.
