

creative activity for 3 year olds

Creative Activity for 3 Year Olds: Unlocking Imagination and Growth through Play

Creative activity for 3 year olds is more than just a way to keep little ones entertained—it's an essential part of their development. At this age, children are bursting with curiosity and energy, eager to explore the world around them through sensory experiences and imaginative play. Encouraging creativity not only fosters their cognitive and motor skills but also builds confidence and emotional expression. If you're a parent, caregiver, or educator wondering how to channel that boundless energy into meaningful activities, you're in the right place. Let's dive into some wonderful creative activities tailored specifically for 3-year-olds that promote learning, fun, and growth.

Why Creative Activities Are Important for 3 Year Olds

At three years old, children are rapidly developing their fine motor skills, language abilities, and social interactions. Creative activities provide a hands-on way for them to practice these skills. Engaging in arts and crafts, imaginative play, and sensory exploration allows toddlers to experiment with colors, textures, and sounds, which in turn strengthens neural connections in their developing brains.

Moreover, these activities nurture problem-solving skills and encourage self-expression. For example, when a child paints or builds with blocks, they make choices, solve simple challenges, and communicate ideas without words. This kind of play builds confidence and independence, laying a strong foundation for lifelong learning.

Top Creative Activity Ideas for 3 Year Olds

Finding age-appropriate creative activities that keep 3-year-olds engaged can sometimes be challenging. The key is to provide simple, open-ended materials that invite exploration without overwhelming them. Here are some inspiring ideas to get started.

1. Finger Painting and Messy Art

Finger painting is a classic favorite for toddlers. It allows children to explore colors and textures using their hands, which is perfect for sensory development. Using non-toxic, washable paints, spread large sheets of paper on a table or floor and let your child create freely.

Tips for success:

- Use primary colors to teach color mixing.
- Try adding different textures like sand or rice to the paint for a multi-sensory experience.
- Lay down a plastic sheet or old newspaper to make cleanup easier.

2. Playdough Creations

Playdough is an excellent medium for imaginative play and fine motor skill development. Kids love squishing, rolling, and molding the dough into different shapes. You can even make homemade playdough with simple kitchen ingredients, making it a fun project to do together.

Encourage your child to create animals, food items, or even simple letters and numbers. This enhances hand-eye coordination and introduces early literacy concepts in a playful way.

3. Storytelling with Puppets

Using puppets to tell stories sparks imagination and language development. You can create simple sock puppets or finger puppets at home or buy a set of animal or character puppets. Act out familiar stories or make up your own adventures.

This activity helps children practice narrative skills, expand their vocabulary, and express emotions. Plus, it's a wonderful bonding experience when adults and kids play together.

4. Nature Collages and Outdoor Art

Taking creative activities outdoors is a fantastic way to connect children with nature. Go on a nature walk and collect leaves, flowers, twigs, and pebbles. Back inside, provide glue, paper, and safe scissors so your toddler can arrange their finds into a nature collage.

This activity encourages observation skills, teaches about different textures and shapes in the environment, and integrates science with art. It also helps develop patience and focus.

Incorporating Sensory Play into Creative Activities

Sensory play is crucial for toddlers, as it supports brain development by engaging all five senses. Creative activities that incorporate sensory elements provide deeper learning experiences and keep 3-year-olds captivated.

Exploring with Water and Sand

Simple water tables or sandboxes offer endless possibilities for creative exploration. Provide cups, spoons, and small toys for pouring, scooping, and building. Adding food coloring to water or scented oils to sand can make the experience even more stimulating.

These activities promote fine motor skills and early scientific thinking as children experiment with cause and effect.

Textured Art Projects

Combine sensory play with art by introducing textured materials such as cotton balls, fabric scraps, bubble wrap, or sponges. Children can glue these onto paper to create tactile collages or use sponges dipped in paint to stamp patterns.

Such projects encourage children to describe what they feel, expanding their descriptive language and sensory awareness.

How to Foster a Creative Environment at Home

Creating a supportive environment is just as important as the activities themselves. When children feel safe and free to experiment, their creativity flourishes.

Set Up a Dedicated Creative Space

Designate a small corner or table in your home where your child can freely access art supplies and materials. Keep items like crayons, markers, paper, glue sticks, and stickers within reach. Rotate materials periodically to keep things fresh and exciting.

Encourage Rather Than Direct

While guidance is helpful, avoid being overly controlling about the outcome of creative projects. Let your child's imagination lead and appreciate their efforts regardless of "perfection." Ask open-ended questions like, "Tell me about your picture," to encourage verbal expression and confidence.

Incorporate Creativity into Daily Routines

Creativity doesn't have to be confined to "art time." Involve your toddler in everyday tasks creatively—letting them help set the table by decorating placemats, or inventing songs during cleanup. These small moments nurture creative thinking naturally.

Benefits Beyond Fun: The Lasting Impact of Creative Play

Engaging in creative activity for 3 year olds does much more than entertain. It nurtures essential skills that extend into other areas of life. For instance, problem-solving abilities gained from building blocks or puzzles enhance critical thinking. Social skills develop during group art projects or pretend play when children learn to share, take turns, and empathize.

Creativity also strengthens emotional resilience. When toddlers express feelings through drawing or storytelling, they learn to process emotions in a healthy way. This emotional literacy is foundational for mental well-being as they grow.

Finally, creative activities instill a lifelong love of learning. When children associate play with discovery and joy, they are more likely to approach future challenges with curiosity and enthusiasm.

Creative activity for 3 year olds is a gateway to imagination, learning, and self-expression. By providing a variety of hands-on, sensory-rich experiences in a nurturing environment, we can help young children develop a wide range of skills while having a blast. Whether it's messy painting sessions, puppet storytelling, or nature-inspired crafts, these activities open the door to endless possibilities for growth and joy. So gather your supplies, embrace the mess, and watch your child's creativity bloom.

Frequently Asked Questions

What are some simple creative activities suitable for 3-year-olds?

Simple creative activities for 3-year-olds include finger painting, playdough modeling, coloring with crayons, and making collages with safe materials like paper and stickers.

How can creative activities benefit the development of 3-year-olds?

Creative activities help 3-year-olds develop fine motor skills, enhance their imagination, improve problem-solving abilities, and support emotional expression and communication.

What materials are safe and appropriate for creative activities with 3-year-olds?

Safe materials for 3-year-olds include non-toxic crayons, washable paints, child-safe scissors, playdough, large beads for threading, and paper. Always avoid small parts that pose choking hazards.

How can I encourage my 3-year-old to engage in creative play?

Encourage creative play by providing a variety of materials, setting up a dedicated space, joining in the activities, praising their efforts, and offering open-ended prompts to inspire imagination.

Are there specific art projects that are easy and fun for 3-year-

olds?

Yes, easy and fun art projects include making handprint art, sticker scenes, simple collage with torn paper, stamping with sponges, and creating shapes with playdough.

How much time should a 3-year-old spend on creative activities daily?

A 3-year-old can benefit from 20 to 30 minutes of focused creative activities daily, broken into shorter sessions to match their attention span and keep it enjoyable.

Can creative activities help with language development in 3-year-olds?

Yes, creative activities encourage language development by prompting children to describe their artwork, follow verbal instructions, and engage in conversations about colors, shapes, and stories related to their creations.

Creative Activity for 3 Year Olds: Unlocking Early Childhood Potential Through Play and Exploration

Creative activity for 3 year olds plays a pivotal role in early childhood development, fostering cognitive, emotional, and motor skills that shape a child's future learning and social interactions. At this tender age, children are rapidly developing language, coordination, and imaginative capabilities. Therefore, providing age-appropriate opportunities for creativity is essential to nurture their natural curiosity and problem-solving abilities. This article delves into various types of creative activities for toddlers, examining their benefits and practical applications, while offering insights for parents, educators, and caregivers seeking to optimize early developmental experiences.

The Importance of Creative Activity for 3 Year Olds

Creative activities are foundational in stimulating brain development during the preschool years. According to research from the National Association for the Education of Young Children (NAEYC), engaging in artistic play and imaginative tasks enhances neural connections related to memory, attention, and language acquisition. For 3 year olds, who are transitioning from sensorimotor exploration to symbolic thought, activities that invite self-expression and experimentation encourage independent thinking and emotional regulation.

Moreover, creative play supports fine and gross motor skills through hands-on manipulation of materials such as crayons, clay, or building blocks. These tasks also promote social skills when conducted in group settings, teaching sharing, cooperation, and communication. In contrast to passive screen time, active creative engagement offers richer sensory experiences and problem-solving opportunities that align with developmental milestones.

Types of Creative Activities Suitable for 3 Year Olds

Creative activities for this age group encompass a broad range of options tailored to their developmental stage. These can be categorized into artistic, physical, and imaginative play, each offering unique benefits.

- **Artistic Expression:** Drawing, painting, and sculpting with child-safe materials enable toddlers to experiment with colors, shapes, and textures. Finger painting and using large crayons facilitate fine motor control and sensory exploration.
- **Music and Movement:** Singing simple songs, dancing, and playing with musical instruments like tambourines or shakers encourage rhythm recognition, auditory processing, and body awareness.
- **Constructive Play:** Building blocks, puzzles, and stacking toys challenge spatial reasoning and hand-eye coordination, essential for cognitive development.
- **Role-Playing and Storytelling:** Pretend play with costumes or puppets stimulates imagination, language skills, and empathy as children enact scenarios from their experiences or fantasies.

Each activity type contributes differently but complementarily to a child's growth, underscoring the need for a balanced creative curriculum or home environment.

Analyzing the Impact of Creative Activities on Developmental Domains

Understanding how creative activities influence specific developmental domains helps optimize the selection and implementation of such tasks.

Cognitive Development

Creative activities provide children with problem-solving challenges, such as figuring out how to fit pieces of a puzzle or mixing colors to achieve a desired shade. These tasks nurture critical thinking and executive functions like planning and flexibility. A 2021 study published in *Early Childhood Research Quarterly* highlighted that toddlers engaged in open-ended art activities demonstrated improved attention spans and higher verbal fluency compared to peers with limited creative exposure.

Emotional and Social Development

Expressing feelings through art or storytelling allows 3 year olds to process emotions in a safe and constructive way. Group creative activities foster cooperation and empathy, as children learn to share materials or collaborate on a collective project. This social dimension is crucial in preparing children for structured school environments.

Physical Development

Activities such as cutting shapes with safety scissors or molding clay develop fine motor skills essential for writing readiness. Gross motor skills benefit from movement-based creative play like dancing or obstacle courses that require coordination and balance.

Practical Implementation: How to Integrate Creative Activities into Daily Routines

Parents and educators often face challenges in consistently incorporating creative activities that engage 3 year olds effectively. Practical strategies can enhance participation and developmental outcomes.

Creating an Inviting Environment

A dedicated space with accessible art supplies, musical instruments, and building materials encourages spontaneous creativity. Safety is paramount; non-toxic supplies and child-proofed areas allow toddlers to explore freely without risk.

Balancing Structure and Freedom

While unstructured play stimulates imagination, guided activities can introduce new techniques and concepts. For example, setting a simple theme like "under the sea" for a painting session can inspire focused creativity while providing room for individual expression.

Incorporating Creative Activity into Routine Tasks

Routine moments can be transformed into creative opportunities. Cooking together introduces measuring and mixing, which are sensory and cognitive activities. Storytime can be interactive by encouraging children to draw scenes from the story or act out characters.

Comparing Screen-Based and Hands-On Creative Activities

In the digital age, screen-based creative apps and games are increasingly popular among young children. While these tools offer benefits such as interactive feedback and exposure to multimedia storytelling, they should not replace traditional hands-on creative activities.

Research from the American Academy of Pediatrics suggests limiting screen time for toddlers to encourage real-world exploration and social interaction. Hands-on activities provide multi-sensory input and fine motor practice that digital interfaces cannot fully replicate. Therefore, a hybrid approach, where technology complements but does not dominate creative experiences, is advisable.

Pros and Cons of Different Creative Activity Formats

- **Hands-On Activities:** Pros include tactile engagement, social interaction, and motor skill development; cons may involve mess and need for supervision.
- **Screen-Based Activities:** Pros include accessibility, variety, and interactive learning; cons include passive consumption risk and limited physical engagement.

Recommendations for Selecting Creative Activities Based on Individual Needs

Every child develops uniquely, so choosing creative activities should consider temperament, interests, and developmental progress. Some toddlers may prefer solitary artistic projects, while others thrive in group musical play. Observing a child's response and adjusting activities accordingly maximizes developmental benefits.

Integrating materials that reflect a child's cultural background or personal experiences can also enhance engagement and identity formation. For instance, incorporating familiar songs or stories into creative play enriches relevance and enjoyment.

Creative activity for 3 year olds is not merely a pastime but a critical component of holistic development. By thoughtfully selecting and facilitating diverse, age-appropriate creative experiences, caregivers can significantly influence early cognitive, emotional, and physical growth. As research continues to underscore the long-term benefits of creative engagement, prioritizing these activities in educational settings and at home remains a forward-thinking strategy for nurturing well-rounded young learners.

creative activity for 3 year olds: Outdoor Play for 1--3 Year Olds Isabel Hopwood-Stephens, 2014-10-03 We are all mindful of the increasing news coverage of outdoor play and its benefits, but how can you go beyond the sandpit and hopscotch to create a magical and creative experience for the children in your care? This book provides all the encouragement you will need to set up and run an outdoor toddler group. It provides a step-by-step guide to selecting an appropriate site, resourcing the outside area, devising age-appropriate activities, planning activities and the legal requirements involved. Including an overview of the developmental milestones of babies and toddlers, it shows you how you can meet their specific needs. Features include: An activity bank full of games, suggestions for crafts, Forest School activities and songs and stories Practical advice on risk assessment and health and safety Guidance on working with parents and carers Adaptable planning templates With a strong emphasis on providing fun learning activities throughout the year, this book will be essential reading for all those that want to provide high quality outdoor experiences for the youngest children in their care.

creative activity for 3 year olds: Creative Activities for the Early Years Barbara Melling, 2005 Annotation Whether your topic is the autumn, the Chinese New Year, the coastline or kings and queens, you can be sure that children will find the art and music ideas in Creative Activities for the Early Years interesting and entertaining. The activities encourage children to use their imagination to communicate ideas, and develop their gross and fine motor skills. The activities are grouped by popular early years themes and can be used as a complete programme or as a dip-in resource. Never be stuck for art and craft ideas again!

creative activity for 3 year olds: Teaching Art to Young Children 4-9 Rob Barnes, 2002-11 This second edition of a classic and popular book includes new chapters, figures and colour plates. The book blends practical ideas with sound principles of art education. For the teacher or trainee-teacher looking for ideas, there are plenty of tested classroom examples. For those looking for firm principles of art teaching and 'best practice', this book presents many important issues in art education with clarity and insight. Based on first-hand experience of teaching children, the book uses many examples from the school situation. Essential topics, such as developing skills through using media, how children draw, producing original artwork, developing ideas and Art and the digital image are tackled with realism and imagination. An important feature is that these subjects are not seen in isolation but are purposefully linked with other areas of the curriculum. The author's approach should encourage teachers to develop and think about art in the National Curriculum. His writing shows a deep sympathy with children and sensitivity to the real task of teaching art to the young.

creative activity for 3 year olds: Diploma in Child Care and Education Penny Tassoni, 2002 Diploma in Child Care and Education is clearly written and covers all the underpinning knowledge in CACHE Certificate in Child Care and Education.

creative activity for 3 year olds: Teaching Art to Young Children Rob Barnes, 2015-04-24 How can teachers develop best practice in art teaching? This fully updated third edition of Rob Barnes' classic text blends practical ideas with sound principles of art education. Teachers and student teachers will find a range of ideas and tried and tested classroom examples; whilst for those looking for firm principles of art teaching and 'best practice' this book presents many important issues in art education with clarity and insight. Based on first-hand experience of teaching children, this text uses

many examples from early years and primary school contexts, and tackles essential topics with realism and imagination such as: developing skills through using media how children draw encouraging artistic confidence in children producing original artwork and making use of digital imagery Rob Barnes' unique approach encourages teachers to develop and think about art as part of a rich curriculum of learning, highlighting how it shouldn't be taught in isolation but with purposeful links to other areas of the curriculum.

creative activity for 3 year olds: *Projects to Advance Creativity in Education* , 1969

creative activity for 3 year olds: Play from Birth to Twelve Doris Pronin Fromberg, Doris Bergen, 2006 In light of recent standards-based and testing movements, the issue of play in childhood has taken on increased meaning for educational professionals and social scientists. This second edition of *Play From Birth to Twelve* offers comprehensive coverage of what we now know about play, its guiding principles, its dynamics and importance in early learning. These up-to-date essays, written by some of the most distinguished experts in the field, help students explore: all aspects of play, including new approaches not yet covered in the literature how teachers in various classroom situations set up and guide play to facilitate learning how play is affected by societal violence, media reportage, technological innovations and other contemporary issues which areas of play have been studied adequately and which require further research.

creative activity for 3 year olds: *Technology-enhanced Learning in the Early Years Foundation Stage* Moira Savage, Anthony Barnett, 2025-02-28 Discussing learning technologies in relation to young children often provokes a wide range of passionate responses, from sceptics to enthusiasts. This text explores the issues in a holistic, pedagogical and research-informed way. It helps professionals unpick the complex issues involved, understand the scope of available technology, examine the interplay between learning and specific technologies, and more broadly create a vision for a technology-enabled learning environment that is child-centred, playful, creative and interactive. Recurring case studies are analysed from a number of theoretical perspectives, and the approach deliberately goes beyond the scope of 'understanding of the world' to consider the contribution of technology-enhanced learning to a range of different contexts and subject areas. Throughout there are clear links to professional standards, the Early Years Foundation Stage and the characteristics of effective learning.

creative activity for 3 year olds: *Wong's Nursing Care of Infants and Children Australia and New Zealand Edition - For Professionals* Lisa Speedie, Andrea Middleton, 2021-11-09 This new text has been adapted from the highly trusted *Wong's Nursing Care of Infants and Children* to provide a reference for professional nurses working in paediatric and child and family health settings in Australia and New Zealand. The content covers all aspects of infant, child and adolescent care, including anatomy and physiology, child and adolescent mental health, nursing care guidelines, critical thinking, family-centred care, rural and remote health, cultural and psychosocial considerations, common presenting conditions, and therapeutic management. With input from leading local expert paediatric clinicians and academics, and carefully curated for practising paediatric nurses, and nurses newly entering paediatrics, the text aligns with local professional standards, health policies, legal and ethical considerations and population data. - Well-established, comprehensive text that focuses on clinical relevance for professional nurses - Covers all aspects of infant, child and adolescent health through an assessment and management approach - Foundational information builds a solid knowledge base in paediatric nursing - Written to help nurses develop a deeper understanding of the psychosocial needs of infants, children, adolescents and their families - Case studies and research questions to build critical thinking skills - Aligned to National Safety and Quality Health Service (NSQHS) Standards - User-friendly, accessible content suitable for practising paediatric nurses across a variety of clinical settings and geographic locations

creative activity for 3 year olds: BOPOD - Wong's Nursing Care of Infants and Children Marilyn J. Hockenberry, David Wilson, 2014-01-30 The most trusted authority in pediatric nursing, *Wong's Nursing Care of Infants and Children* provides unmatched, comprehensive coverage of pediatric growth, development, and conditions. Its unique 'age and stage' approach covers child

development and health promotion as well as specific health problems organized by age groups and body systems. Leading pediatric experts Dr. Marilyn Hockenberry and David Wilson provide an evidence-based, clinical perspective based on nearly 30 years of hands-on experience. Easy to read and extensively illustrated, this edition focuses on patient-centered outcomes and includes updates on topics such as the late preterm infant, immunizations, the H1N1 virus, and childhood obesity. A clear, straightforward writing style makes content easy to understand. Unique Evidence-Based Practice boxes help you apply both research and critical thought processes to support and guide the outcomes of nursing care. Unique Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Unique Critical Thinking exercises help you test and develop your own analytical skills. A unique focus on family content emphasizes the role and influence of the family in health and illness with a separate chapter, discussions throughout the text, and family-centered care boxes. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Unique Emergency Treatment boxes serve as a quick reference for critical situations. Unique Cultural Awareness boxes highlight ways in which variations in beliefs and practices affect nursing care for children. A developmental approach identifies each stage of a child's growth. Health promotion chapters emphasize principles of wellness and injury prevention for each age group. Student-friendly features include chapter outlines, learning objectives, key points, references, and related topics and electronic resources to help you study and review important content. A community focus helps you care for children outside the clinical setting. Nursing Care Plans include models for planning patient care, with nursing diagnoses, patient/family goals, nursing interventions/rationales, expected outcomes, and NIC and NOC guidelines. Nursing Tips include helpful hints and practical, clinical information, and Nursing Alerts provide critical information that must be considered in providing care.

creative activity for 3 year olds: *Caring for Young Children* Jennie Lindon, Lance Lindon, Leandra Negrini, 1995 This book is a source of practical information and activities for carers of children up to eight years of age.

creative activity for 3 year olds: Encyclopedia of Creativity Steven R. Pritzker, 1999-08-09 The Encyclopedia of Creativity is the sourcebook for individuals seeking specialized information about creativity and motivation. Subjects include theories of creativity, techniques for enhancing creativity, individuals who have made significant contributions to creativity, physiological aspects of creativity, and virtually any topic that touches upon the subject. Entries are placed in alphabetical order with cross-references to other topics and entries where appropriate. Each entry is written in simple easy-to-understand terms summarizing the most important aspects of creative research and writing relating to the specific topic. A bibliography in the back of each article suggests additional sources for more information. The text is visually enhanced throughout by illustrations and photographs. A source-book of specialized information about creativity and motivation Includes virtually any topic dealing with creativity Entries are placed in alphabetical order with cross-references Written in easy-to-understand terms Illustrations and photographs throughout Contains select biographies of internationally renowned creative individuals from throughout history

creative activity for 3 year olds: Homemade Carol Endler Sterbenz, 2011-10-18 Outlines key techniques for everything from scrapbooking and beading to flower arrangements and children's crafts, providing step-by-step, illustrated instructions and lists of required tools and materials.

creative activity for 3 year olds: *Resources in Education* , 2000-10

creative activity for 3 year olds: Teaching English Creatively Teresa Cremin, 2022-11-30 What does it mean to teach English creatively to primary school children? Teaching English Creatively encourages and enables teachers to adopt a more creative approach to the teaching of English in the primary school. Fully updated to reflect the changing UK curricula, the third edition of this popular text explores research-informed practice and offers new ideas to imaginatively engage readers, writers, speakers and listeners. Underpinned by up-to-date theory and research and illustrated throughout with more examples of children's work, it examines the core elements of creative practice and how to explore powerful literary, non-fiction, visual and digital texts creatively.

Key themes addressed include: • Developing creativity in and through talk and drama • Creatively engaging readers and writers • Teaching grammar and comprehension imaginatively and in context • Profiling meaning and purpose, autonomy, collaboration and play • Planning, reviewing and celebrating literacy learning • Ensuring the creative involvement of the teacher Inspiring, accessible and connected to current challenges and new priorities in education, *Teaching English Creatively* puts contemporary and cutting-edge practice at the forefront and includes a wealth of innovative ideas to enrich English teaching. Written by an experienced author with extensive experience of initial teacher education and English teaching in the primary school, it is an invaluable resource for any teacher who wishes to embed creative approaches to teaching in their classroom.

creative activity for 3 year olds: *Australian national bibliography* , 1961

creative activity for 3 year olds: Teaching Assistant's Handbook Janet Kay, 2002-01-01 Teaching assistants have a valuable, responsible and professional role to play in developing children's education. Learning how to fulfil that role effectively is not easy. Here, Janet Kay provides a practical and reliable guide to the job. Covering all aspects of the work, from understanding children's learning and the curriculum through to assessment and management, this book provides accessible support and guidance for in-service and trainee teaching assistants. Complete with case studies, self-assessment and suggestions on how to explore issues further, *Teaching Assistant's Handbook* provides an authoritative one-stop resource for all in the profession.

creative activity for 3 year olds: *New York Magazine* , 1969-10-13 *New York magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

creative activity for 3 year olds: *Research on E-Learning and ICT in Education* Thrasyvoulos Tsiatsos, Stavros Demetriadis, Anastasios Mikropoulos, Vasileios Dagdilelis, 2021-03-09 This volume includes contributions based on selected full papers presented at the 11th Pan-Hellenic and International Conference "ICT in Education", held in Greece in 2018. The volume includes papers covering technical, pedagogical, organizational, instructional, as well as policy aspects of ICT in Education and e-Learning. Special emphasis is given to applied research relevant to the educational practice guided by the educational realities in schools, colleges, universities and informal learning organizations. This volume encompasses current trends, perspectives, and approaches determining e-Learning and ICT integration in practice, including learning and teaching, curriculum and instructional design, learning media and environments, teacher education and professional development. It is based on research work originally presented at the conference, but the call for chapters was open and disseminated to the international community attracting also international contributions.

creative activity for 3 year olds: Developing Professional Practice 0-7 Catherine Knowles, 2009 *Developing Professional Practice 0 to 7* provides a thoroughly comprehensive and cutting edge guide to developing the understanding and practical skills necessary for working within early years education. Chapter content is directly linked to the early years professional standards and pedagogical features are incorporated throughout the book to guide the student. Chapter objectives at the start of each chapter clearly set out the learning goals for that chapter Reflect and relate to practice sections throughout the book encourage the student.
