marketing management 1st edition dawn iacobucci: Marketing Intelligent Systems Using Soft Computing Jorge Casillas, Francisco J. Martínez-López, 2010-09-30 Dr. Jay Liebowitz Orkand Endowed Chair in Management and Technology University of Maryland University College Graduate School of Management & Technology 3501 University Boulevard East Adelphi, Maryland 20783-8030 USA jliebowitz@umuc.edu When I first heard the general topic of this book, Marketing Intelligent Systems or what I'll refer to as Marketing Intelligence, it sounded quite intriguing. Certainly, the marketing field is laden with numeric and symbolic data, ripe for various types of mining—data, text, multimedia, and web mining. It's an open laboratory for applying numerous forms of intelligentsia—neural networks, data mining, expert systems, intelligent agents, genetic algorithms, support vector machines, hidden Markov models, fuzzy logic, hybrid intelligent systems, and other techniques. I always felt that the marketing and finance domains are wonderful application areas for intelligent systems, and this book demonstrates the synergy between marketing and intelligent systems, especially soft computing. Interactive advertising is a complementary field to marketing where intelligent systems can play a role. I had the pleasure of working on a summer faculty fellowship with R/GA in New York City—they have been ranked as the top interactive advertising agency worldwide. I quickly learned that interactive advertising also takes advantage of data visualization and intelligent systems technologies to help inform the Chief Marketing Officer of various companies. Having improved ways to present information for strategic decision making through use of these technologies is a great benefit.

marketing management 1st edition dawn iacobucci: Comunicación rentable en marketing Domingo Sanna, 2013-11-23 Las enseñanzas vertidas en este libro reflejan la sinergia de un doble perfil profesional: ha sido escrito por un académico, con una extensa trayectoria en la práctica de la comunicación de marketing aplicada a empresas que comercializan productos y servicios. Desde lo académico el libro es exhaustivo, y su base científica se refleja en la opinión y visión de más de una treintena de escritores e investigadores de la comunicación de marketing o de las disciplinas que la componen. Una selección cuidadosa de literatura especializada de fuente estadounidense, europea, australiana y latinoamericana permite al autor amalgamar la suya a una visión global sobre la especialidad. El material de referencia es moderno, en su mayoría refiere a libros y papers publicados en los dos últimos años. Desde lo profesional, años de trabajo en compañías internacionales de renombre sumados a la práctica como consultor de empresas han hecho del autor un profesional preocupado por los resultados. La inclusión de la palabra “rentable” en el título del libro no es caprichosa ni una promesa vacía. El autor ha vertido su experiencia y este libro lo refleja en una propuesta concreta para medir el retorno a la inversión o ROI de la comunicación de marketing, y lo más importante, hacerlo considerando la inclusión de las redes sociales en el análisis. Tal cual afirma el reconocido y respetado Alejandro di Paola, fundador de la agencia de marketing di Paola y Asociados al referirse a este libro: “Con una extraordinaria combinación de teoría y práctica profesional, [Domingo] Sanna ha construido un trabajo notable de elaboración con su propia visión junto al análisis y síntesis de los principales pensadores del marketing de la actualidad. Asombra su dominio y dedicación a la lectura de casi todo lo que se publica acerca del marketing y su interacción con la tecnología”.
