What Is the Working Genius Assessment?

The Working Genius assessment is a productivity and team effectiveness tool designed to identify an individual's natural talents across six types of working genius. Developed to improve collaboration and job satisfaction, this model helps users understand their innate abilities and how they contribute to projects and teams. The assessment categorizes working styles into six distinct areas, allowing for a clearer understanding of personal strengths and potential areas for development.

Overview of the Six Types of Working Genius

The Working Genius model divides working talents into six categories, each representing a unique way individuals contribute to the work process:

- **Genius of Wonder:** The ability to ponder possibilities and identify opportunities for improvement.
- **Genius of Discernment:** The knack for evaluating ideas and determining their feasibility.

- **Genius of Galvanizing:** The talent for rallying and motivating others to take action.
- **Genius of Enablement:** Providing support and assistance to help ideas move forward.
- **Genius of Tenacity:** Persisting to completion and ensuring tasks are finished thoroughly.
- **Genius of Invention:** Creating original solutions and novel approaches to problems.

Understanding these categories allows teams to assign roles that align with natural skills, fostering higher productivity and job satisfaction.
